The men employed at these works are divided into three gangs, each of which work eight and nto three gangs, each of which work eight and rest sixteen hours. The work is thus carried on by night as well as by day. In the vicinity of this Mine they have a school supported by tax-ation, but not under the late law provided by our Legislature for that purpose. This law, the lec-turer thought, as it now exists might as well be dead letter, and a good deal better, as in his inion it never can be brought into beneficial peration; to the extent of his experience, wher ver it had been introduced it had created feuds

d dissensions. The way they support the nol at Albert County Mines is, by a condi-on attached to the contract for hire of every who undertakes to work in the Mines that will pay six pence per month towards the pport of this school. This small sum is exted from all; then if a man desires to atten he is charged an additional sixpence for each onth; or if he is the head of a family he is arged sixpence a month for each child he sends Two miles east of this mine is situated the dillsboro Plaster Works. Eleven hundred tons Plaster was shipped from here to the United tates during the past year. About the works re employed forty men and twelve horses; and connected with these works are a sett of mills now about completed, which are not surpassed in my part of North America. They comprise Saw Mill, Grist Mill, and Plaster Mill; the size of he largest is 100x40, of the smallest 50x40.

These mills have been entirely constructed by merican Capital, and the Hon. W. H. Steever as mentioned as almost the only Provincialis at all connected in any way with these works.— The stock holders of this Company now receive an annual dividend of 10 per cent.

Next are the works at St. Mary's Point ; these works were first commenced in 1857. They are owned entirely by gentlemen in the United States, and from them are annually exported about 4,000 tons. There is in fact no executive and no general povernment to represent in the Union the author-ty and the power of the national sovereignty; there is nothing in its place but 'some joint authority' rested in an old 'public, functionery' afraid to use t, and a debating society intent upon offering in-mense to Buncombe. So while the one maunders and the other spouts, secession gradually becomes revolution, and the disorder which could have been suppressed by vigorous measures in a sincle week FORT SUMTER REINFORCED !

Commissioners from ten States have arrived to attend the Compromise Convention which meets here to-day; but the imperious demands of the South will defeat any effective arrangement. The War Department has received no des-patches from Major ANDERSON, at Fort Sumter, for three days. The interception of the Govern-ment despatches, and private correspondence, is beyond doubt practised by Southern Secession-ists to create hostilities. It is reported that Fort Sumter was reinforced on Saturday night by 399 soldiers from the Steam frigate "Brooklyn," that they were without in-terruption landed in boats with muffled oars, and so escaped observation. revolution, and the disorder which could have been suppressed by vigorous measures in a single week, or at least confined to the locality in which it arose, has spread over six States, involved the credit of some millions in its ultimate success, and made an escape from civil war well nigh impossible. The American Union has ceased to exist, and we believe it cannot be reconstructed. It has fallen not through decay, not through the rottenness of the basis on which it was constructed, but because it was an association and not a nationality, and the was an association and not a nationality, and the pulsion of the parts was more powerful than their newion. In the hour of danger the honesty and rless patriotism of Washington or the rough gor of Jackson might have saved it; but the oc-sion found a driveler and a coward in their seat, d already the fate which Washington so surely resaw and predicted in his solemn valedictory to be people envelopes the Republic. in FLORIDA, Pork sells at \$30 per barrel, and Flour at \$13.
