Dr. effes, who recently completed a sifty years' torate over one church in Liverpool, and resed from the ministry from age and declining ength. This presentation, however, differed m most in the fact that it incurred no pecury advantage upon the recipient; but, though dosome in amount, was entirely devoted to the seft of others. It consisted of books, value sold, for the College Library, and a "Raffles' nolarship" of 30% per annum, in the same intuition, of which this eminent minister was one the founders. ITALY. His Holiness has made another effort to regain temporal power. With intense tenacity the cessor of the Fisherman of Galilee clings to pomps and vanities of the world. Austria d Spain are the willing instruments of his will. e Eldest Son of the Church has been asked to the Eldest Son of the Church has been asked to ite with them in a protectorate of the domains the Church. Happily the mission is a failure. The Pope is indisposed again. The Tablet thus cords the fact and partly the cause of his illiss:—"A letter from Rome, dated June 15, wes the true state of the case. After his indissition on the Octave day of Corpus Christi, the Holy Father had a slight attack of erysipes in the leg. Instead of taking the repose prescribly his physicians, Pius IX. continued his applition to work. The consequence was that the leg by his physicians, Pius IX. continued his applition to work. AUSTRALIA. BAPTISM OF REV. N. B. LANDELLS .- The corespondent of the London Freeman writes :-

We have at present, in Melbourne and the aburbs, two large, active, and growing church-e, of which the Rev. J. Taylor and the Rev. Isaac were are three Baptist churches at Geerong, only one of which has a regular minister—the Rev. G. Slade. There are two churches at Ballarat, one being most efficiently supplied by the Colony there are many little ones, some of the Rev. J. Sutton; and scattered elsewhere over the colony there are many little ones, some of the Mr. Isaac he colony there are many little ones, some of hem. This is a correct statement of the present

hem. This is a correct statement of the present ondition of the Baptist body. Your correspondent might well ask, "Where are the men?"

Still we are making progress. Though we have vainly sought assistance from our brethren in England, we have recently received help in mother way. The ablest and most popular of the Independent ministers in Victoria, the Rev. W. B. Landells (who was for eighteen years pasor of a Congregational church in Sheffield), has been publicly baptized, and has thrown his whole precises into the interests of our denomitation. energies into the interests of our denomitation.

Mr. Landells has been in the colony over eight years, and by his talents and successful ministry has raised the most prosperous of the Independent churches about Melbourne, which he now cheerfully resigns to follow out his convictions on the subject of baptism. At a special service held at the Collins-street Church on the 15th held at the Collins-street Church on the 15th inst., the ordinance was administered by the Rev. James Taylor, after impressive devotional exercises conducted by the Rev. Isaac New. Mr. Laudells delivered an address, in which he detailed the process of thought, by which he had been ultimately led to the deceision he was about to consummate, and in manly terms vindicated the propriety of his course. Mrs. Landells and their eldest son were also babtized on the same occasion, which was one deeply interesting to the large assemblage of persans present. Mr. Landells has since delivered two elaborate lectures on Baptism, which are about to be published in a separate form. Although the ministers and members of the Independent clurches acknowledge that Mr. Landells can only be actuated by the purest principle in taking this step, it would the purest principle in taking this step, it would hardly be credited with what bitter revilings he has been assailed, and how desperate are the ef-forts made to counteract the influence of his acession to the ranks of the Baptists. Verily, the spirit of intollerance is not dead, even among Independents. Mr. Landells has been invited Independents. Mr. Landells has been invited to the pastorate of the first Baptist Church in Geelong, and he has intimated his willingness to

accept the call. The Rev. James Smith, whose indefatiguable exertions in the cause of Christ at Chitoura and Delhi have made its name eminent, has arrived. and has resolved upon setting in Victoria. If, as is probable, he enters bon the work of an ovangelist in the populated districts of the interior, there can be no doubt he will accomplish great good, and infuse fresh vigour into many of the Infant Baptist churches.

The John Williams, with a number of m aries on board for the South Sea Islands, lately touched here en route, and the opportunity was availed of for holding special services in connection with the auxiliary of the London Missionary Society. The brethren have since proceeded on their way.

### UNITED STATES.

Dr. Cheeven's Views.—A late letter in the Independent, from Dr. Cheever, now in England, states the English people to be cold and indifferent towards the free States in the present struggle, for the reason chiefly that they regard it as gle, for the reason, chiefly, that they regard it as a war for State supremacy and power simply, and not a war against Slavery, nor with any se-rious aims at emancipation. Could the latter be seen by Englishmen to be our great purpose. Dr. C. says they would give us their warm and generous sympathy at once.

We learn from our exchanges that important changes have been made in the Faculties at Hamilton. Prof. Dodge is transferred to the chair of Biblical Theology, Prof. Harvey to that of Biblical Critizism, and Prof. Beebee to that of Ecclesiastical History—leaving Dr. Eaton to devote more time to his responsible duties as President of the University. Prof. Stone lists of ore time to his responsible duties as Pre-of the University. Prof. Stone, late of , is expected to fill the chair of Rhetoric

"The weather for the last ten days has been excessively hot. There have also been several reviving showers. Friday morning last, the warmest rain this year commenced in the morning and continued at intervals throughout the day. The fields and gardens, which were suffering from drought, have been revived. The crops of all kinds now look healthy and vigorous. We have had a schock of wheat, of the bearded kind, sent us by Mr. Losich Tingley as a specimen of what can be Josiah Tingley, as a specimen of what can be done. THE SEASON .- During the last fortuight the veather has been exceedingly favourable to the growing crops. There has been ample sunshine, abundance of rain, and on Wednesday and Thursday afternoon we had some heavy peals of thunder and flashes of light-

The reports respecting the appearance of the grass, are very variable. First the cold weather, then the dry, scorching winds; and subsequently the burning heat of the sun, seriously affected it. The late rains, however, have wonderfully improved it; and the crop on the high lands, it was expected, will be a full average one. On the low lands, and particularly on the intervals, we imagine the yield will be extremely heavy. While we in the North, during the last fortnight, have had rather a superabundance of rain, we are sorry to learn from various sources, the crops in the Southern parts of the Province are suffering

from drought, particularly the grass.

The Comet is still visible, but at a great distance, and much reduced in size and brilliancy. It is much further to the south and west than w'en it first appeared.

Had the catch of Gaspereaux this spring been usually great instead of being unusually small, there would he been a fine display; but as it was, the Exhibition gave unmistakable proof of a growing desire on the part of Fishermen to prepare a much better article for export than beretofore.

NEWS FROM THE SEAT OF WAR.

The American papers of Monday come to filled with an amount of exultation and glorification at the onward movement of the "Grand Army," and their assumed brilliant achievements, which contrasts sadly and terribly with the telegraphic despatenes which preceded them

The first movement from Washington took place on Wednesday morning, July 17th, when General McDowell advanced toward Manassas with 55,000 men, equipped with everything necessary to a successful campaign. The corespondent of the Boston Transcript says :-

" During the last week a continuous train of army wagons and ambulances has been passing on Pennsylvania Avenue and F street, varied occasionally by a runaway and smash up. An idea of the immense amount of machinery required to keep in the field a great army, can only be gained by witnessing what is here transpiring. On the streets named, a ceaseless rumble is heard from early morning intil late at night.

While I am writing the news has been prought in that our army has taken possession of Centerville, the enemy leaving in such haste that all the materiel of their camp fell nto our hands, and their pickets came into our camps by mistake, not knowing that their own men had left. There is a report, too, that fighting is now going on between here and Manassas, and the town is wild with excite-

On Thursday July 18th, the advanced Guard of the army were making a reconnoisance in force when the rebel batteries at Bull's Run opened upon them and "after several hours" firing, the attacking forces retired beyond the range of the rebel batteries, while vigorous preparations were made for flank movements, attacking the secession batteries on all sides. A umber of members of congress witnessed the engagement, in which about four thousand troops on either side participated."

In this engagement the Federal forces lost about 100 men killed and wounded. The "Grand Army" being reinforced and every preparation made for an overwhelming attack, the battle lowing is the telegraphic report to the Associ-

"Washington, July 21 .- It is not doubted here in military quarters that Gen. Johnston was enabled to effect a junction with Gen. Beauregard some time yesterday. The New York Thirty-seventh passed into

Virginia this morning.

The Secretary of War has received a dispatch that fighting was renewed at Bull's Run this morning. Our troops engaged the enemy with a large force, silenced their batteries and drove the revels to the Junction. The city of Wash-

ington is wild with joy.

Firing was heard in this city to-day, from the direction of Bull's Run, from 11 until about 3 clock. There was then a cessation until neary 5 o'clock, and at 7 this evening the reverbe ration of cannon is still heard.

A gentleman arrived to-night says that at

clock this afternoon the 2d and 3d New Jersey egiments were ordered to march forward from Vienna. The First regiment were sending back their baggage to Camp Trenton. Other troops were hurrying forward to the scence of hostili-ties, and there was much military excitement and bustle in the direction of all the camps.

The cannonading can occasionally be heard in Washington from Georgetown Heights. The headquarters of the army is inaccessible to-night, the President and Cabinet being privately with Gen. Scott and staff and other dis-

tinguished gentlemen.
There is most intense excitement existing throughout the city of Washington to hear fur-ther from the field of battle. Every returning spectator of events is immediately surrounde and compelled to relate his observations. The many unauthenticated rumors which prevail serve to confuse the truth.

The smoke of the battle could be seen from

minences in Washington. A number of members of Congress, and even ladies went to the neighborhood of Bull's Run

o witness the battle. One of them reports that Col. Hunter of the 3d cavalry, acting, as Major General, was mortally wounded.

It is stated with confidence in all quarters that Col. Cameron of the 79th New York regiment. brother of the Secretary of War, and Col. Slocum of the 2d Rhode Island regiment, were killed.

SECOND-DESPATCH.

WASHINGTON, July 21. A most severe battle was fought to-day a Bull's Run bridge. The conflict was desperate, lasting nine hours. The programme as stated in our first dispatch was carried out, until our troops met with a succession of masked batteries, which were attacked with vigor and success, after a severe loss of life.

At this apparent success we are told that Washington was wild with joy." But what the feelings of Washington and of the North were shortly after, we are not yet informed. The Rebels having renewed the conflict the same evening, reinforced it is said by Gen. Johnston, with 15.000 men, completely defeated and routed the Federal army, following them in their flight almost up to Arlington heights, (opposite Washington). The loss of men and of war material must be very great, and with the consequent noralization of the army leaves Washington press that the Capitol of the United States has already been surrendered to the Confederate
