Royal family, the representatives of foreign Courts the members of the Cabinet, and other high officials. The Royal infant was named by the Qucen, Albert Victor Christian Edward. Among the illustrious personages present was the King of the Belgians, who acted as one of the sponsors, her Majesty being the other. Our lady readers may like to know that the Princess of Wales wore a white satin dress with ruches of tulle and two flounces of rich Brussels lace Becked with flowers, water lilies, ferns, and grasses; a tiara of diamonds, necklace, brooch, and earrings of pearls and diamonds, and a coreage of the City dia-monds round the top of the dress. The Queen wore a black silk dress covered with deep black crape, and edged with jet gimp; a cap of white crape lisse, in the style of the cap of Mary Queen of Scots, with diamonds round it and a long white crape lisse weil attached to it. Her Majesty wore the riband, star, and badge of the Garter, a diamond necklace, and large cross containing the Prince Consort's miniature The ceremonial having concluded, the visitors pro-ceeded to the Green Drawing room and Picture Gal lery, and shortly afterwards partook of a collation with the Royal family in the supper-room. Much of the most curious and costly of the plate belonging to the Palace was displayed upon the tables and upon the buffet, and conspicnous among the viands was a superb christening cake,

DEATH OF THE KING OF BAVARIA.-King Maxi-milian of Bavaria is dead. His sudden illness, produced by erysipelas of the lungs, terminated in death on Friday. The King was in his fifty-third year, and duced by erysipelas of the lungs, terminated in death on Friday. The King was in his fifty-third year, and succeeded to the throne in 1848, when, as all the world recollects, his father, Louis, the well meaning and the unwise, the perplexed and petiticoat-governed, abdicated his throne. King Maximilian was a highly educated man, had in youth studied under Schelling, had travelled much, and was proud of his accomplish-ments as a linguist. He was brother to Otho, the we have a finguist. ex-King of Greece. His home policy was not liberal, but of late he had become popular in Germany by taking a leading part in the Sleswig Holstein move-ment. He had two sons, of whom the elder, Louis Otho, born in 1845, was next day proclaimed his successor with the title of Ludwig II.

MAXIMILIAN IN ENGLAND .- The Archdoke, Maxi-MAXIMULAN IN ENGLAND. -- The Archdoke Maxi-milian, of Austria, arrived in London on March 13, and immediately proceeded to Mariborough House to pay a visit to the King of the Belgians, the father of the Archdochess. Later in the day the Princess of Wales drove cut with the Archdochess. Her imperial highness dined with the Prince and Princess of Wales, to meet the King of the Belgians at Marlborough House.

This agree-ment settles the two questions of the French occupa-tion and the claims of France on Mexico. The latter will probably amount to \$25,000,000, and are to be

The bill is regarded with alarm in many quarters; and hopes are entertained that it will be defeated in its subsequent stages. The principle of it is to dis-sociate the governing body of the University from the Church of England.

Maximilian, the new Emperor of Mexico, was to embark on the 30th ulitimo; so that, ere long, we may hear of his arrival at Vera Cruz. The Northern papers state their government will not recognize him, or accredit any Minister to his Court. The Southern papers, on the other hand, state that he will be immediately recognized by their government, and that the Ambassador, or Minister Plenipotentiary, is al-ready appointed.

CITY OF GLASGOW LIFE ASSURANCE COMPANY OF GLASGOW.

ESTABLISHED IN 1838. Incorporated by Act of Parliament. GOVERNOR—The Right Honorable the Earl of Glasgow. Governoe Leona Leo HENRY DUNLOP, Esq., Chairman. W. F. BIRKAYES, Esq., Manager.

Distinctive Features in the Company's Business System :-Annual Division of Profits.

Policy holders participate in profits from first year of entry.

Bonus Assurance at the smallest outlay. Seven Years Half Credit Assurance.

Exemptions—Foreign Travel and Foreign Residence. THIS Company was the first Life Assurance Institution in Scotland which adopted the system of making an Annual Division of Profits amongst the Assured; and it is now the only Company which so divides annually, and al-lows the assured to participate from the outset of the Po-licy. By this system each Policy holder receives his own share of profits the first year of his membership, and con-tinues to do so annually thereafter. There is no stipulation that the Assurance must run a certain number of years before being admitted to this privilege; and older policies are not allowed to monopolize any undue share of the pro-tist arising from the contributions of younger members. All who are Assured on the equal Atnual Scale of Pre-miums may at once receive the cash value of their Bonus additions; and as this is allocated annually, it becomes cutalent to an annual reduction of the premium. Cancer and Scrofula Remedy,

Persons afflicted with CANCER, TUMOUR, SCROFU-A, ULCERS, ERYSIPELAS, BINGWORM, SCALD HEAD, PILES, SALT RHEUM, and OLD SORES, of any description, should at once obtain a supply of this medicine.

Four Dollars (\$4) enclosed to ROGERS & CO., Amherst. Nova Scotia, with full description of disease, and Post Office, will secure the medicine, pre-paid, with full directions for use and hit

We have removed our place of business from Pugwash Amherst, N. S., to obtain a more central location for the Provinces.

In bad cases of Cancer, Tumour, and Scrofula, we use auxiliary remedies which cannot be sent by mail, hence the necessity for personal attendance; and in order that the poor as well as the rich may be able to avail themselves of the personal attendance of Mrs. Rogers-the original discoverer who has had a long experience in the treat-ment of those diseases. We are prepared to board and treat patients, at Am-

herst, for from \$4 to \$6 per week. This charge will include all expenses, except the fee for curing, which will vary according to the nature of the case, &c.

We do not deem it necessary to say much in the way of uffing our preparations in the usual patent medicine style, but the following cures already made will speak for themselves. We publish nothing but facts, and the incredulous are most cheerfully invited to inquire into the truth of our representations.

Messrs. Rogers & Co.-Yours of the 16th, with medimessrs. Rogers & Co.-Yours of the 16th, with medi-cine, came to hand. I want another box of Ointment. I have a sufficient supply of the powders for the present. I am happy to say the symptoms are very favorable, and my leg and my general health is much improved. Since I wrote last, the lump on my leg is nearly half gone ; I find it is wholly composed of a bony substance, resembling the peth of a cow's horn ; it comes off in particles some small-er and some larger ; there is a kind of crust or fleshy sub-stance outside--it does not waste so quick as the inside. stance outside--it does not waste so quick as the inside. It still discharges freely the same watery stuff; I mentioned it comes from underneath this outside shell. I enclose you 20s., and believe me.

Sincerely yours, ALEX. FRIERS. Mr. Friers got his leg severely injured about the knee oint some years ago, by getting it jammed, while rolling ogs, we think. A large lump subsequently grew on the side of his knee; his leg above the knee became very small-be has suffered much. His general health became very much impaired. Doctors nor medicine seemed to give him no relief. He now speaks for hunself.

The foregoing we believe to be sufficient in the way of estimonials, but our stock is by no means exhausted. Persons afflicted with these diseases should obtain, without delay, a Medicine that is working such wonders. We wish it to be distinctly understood that this is no Drawing or Burning process, but an alterative, possessing a SPECIFIC EFFECT over Cancerous and Scrofulous diseases, effectually and perfectly removing them, without pain or inconvenience.
