destructive character. That the blessing of peace may speedily be restored to that country, is, I feel we lassured, your earnest hope and desire, as it is

I have received a communication from the Administrator of the Government of Nova Scotia on the subject of the Legislative and Administrative Union of the Provinces of New Brunswick, Nova Scotia and Prince Edward Island. I have directed this com-munication to be laid before you, and I entertain no doubt that its contents will receive from you that attentive consideration which their importance de-

The correspondence which has taken place on the subject of the Inter-Colonial Railway since the close of the last Session will also be laid before you. These papers will fully explain the nature of the negotiations which have taken place between the different Provinces interested in this undertaking. Any action in this matter has hitherto-unfortunately roved impracticable, but I cannot bring myself to believe that temporary misunderstandings will be allowed ultimately to frustrate the completion of a work so necessary to the political and material progress and security of British North America.

I felt myself compelled to reserve for the signifi-cation of Her Majesty's pleasure a bill passed by you during the last session, entitled a bill relating to cer-tain exemptions from duty at the Port of Saint Stephen. It is with satisfaction that I am enabled to inform you that Her Majesty has been pleased to confirm this Bill, which has consequently now become law. I have directed the correspondence on this subject to be laid before you.

I recommend you to consider whether provision might not advantageously be made for the winding up, in certain cases, of trade corporations and joint

I desire to call your attention to the existing state of the law relating to Steam Navigation; and you will no doubt consider whether it may not be so amended as to afford greater security to life and property.
The deposits in the St. John Savings' Bank had, at

the close of the fiscal year, fully reached the amount now authorized by law, and for a time the Trustees of that Institution were compelled to refuse to receive any additional sums. It is worthy of your consideration whether, without loss to the public Revenue, increased facilities may not be afforded to the industrious classes, for availing themselves of this mode of nvestment for their earnings.

The freight traffic on the Provincial Railroad has teadily increased in amount, and great difficulty and xpense now attend the delivery of lumber and other ulky goods which have been conveyed to St John by its means. I recommend you to consider whether these inconveniences might not be surmounted by rolonging the Railway to a terminus in close proxi-

Measures for the amendment of some portion of the criminal law will shortly be submitted to you. . I have continued to give my attention to the re-organization of the Provincial Militia. The task has been attended with many difficulties, but on the whole I am not dissatisfied with the result. The conduct of those who have gratuitously aided me in this work, whether as officers of Militia or as memers of Volunteer Companies, demands my warmest cknowledgments. The report of the Adjutant General of Militia will be immediately laid before you.

Mr. Speaker and Gentlemen of the House of Assembly : The Estimates for the current year have been framed with a strict regard te economy, but not with-out due reference to the exigencies of the public

They will shortly be laid before you together with the accounts of the income and expenditure of the past I rejoice to be enabled to inform you not only that

during that period the expenditure fell within the estimated amount, but that the income execeeded the disbursement, and was in excess of that ever received in any previous year.

Mr. President and Hon. Gentlemen: Mr. Speaker and Gentlemen:

e to be able to speak of the general cond ion of the Province with satisfaction and confidence Commerce has revived and is flourishing. Agri ultural pursuits have been successfully followed.

The Coast and River Fisheries are still remunerative, and I trust that the measures adopted by you for their protection during the last Session will, if strictly carried out, avert the gradual but certain extinction with which they were at one time threatened. I have reason to hope that some increased attention has been paid to the mineral wealth of the Province. imple room is however, still left for further exertion in connection with this branch of our resources.

During the recess I directed a report on the Mines and Minerals of New Brunswick to be prepared. The report will shortly be laid before you.

Great activity prevails in our shipyards, and this important branch of industry has, during the past year, been most vigorously and successfully prose-

During the course of the Summer and Autumn, risited various localities in the Province where I had not previously been, and there are now but few parishes in the Province with the appearance of which I am not in some degree acquainted. Everywhere I have found a loyal and contented population, who have on all occasions given a cordial and hearty welcome to the Representative of their Sovereign.

My residence in this Province has endeared New Brunswick and its people to me, and must ever cause me to entertain a deep and lasting personal interest

in its future prosperity and welfare.

I rest assured that your deliberations will tend to
the advancement of the publice good, and I rejoice to reflect that the condition of the Province is such as to nable you to devote your calmattention to the questions which may come under your consideration, undisturbed by the passions of popular turbulence and unruffled by the animositty and bitterness of party faction.

Sister Vanwart was the third daughter of the late Robert Golding, Esq., of Wickham. She was baptized on profession of her faith about twenty-five years ago, by Elder Cronkite, and became a member of the F. C. Baptist church at Hampstead. For the last five years of her life she was a resident of Newcastle, where she was respected and beloved by all who were acquainted with her. During her last filness, which was very severe, she was enabled to rejoice in God, the rock of her soul's salvation, and she bade her friends adieu, firmly trusting in that Saviour who had spoken peace to her in trusting in that Saviour who had spoken peace to her in other days. Her inneral was largely attended, and the coasion was improved by the writer, assisted by Rev. P. Reece, from 2 Cor. v. 1. May the Lord sustain and comort the sorrowing relatives. ISAAC LAWRENCE.

The Charleston Courier makes a timely suggestion in recommending the attention of our government to the naturalization and cultivation of Calisaya, for the preservation of the health of our soldiers. This article has a peculiar effect upon the liver, and guards the system against disease by exposure and frreguar diet. It is said that the great success of the Plantation Bi ters of Dr. Drake, which, previous to our unhappy difficulties, was found in most Southern homes, was owing to the extract o Calisaya Bark which it contained as one of its principal ingredients .- "In confirmation of this, we have heard one of our most distinguished physicians remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved himself by-Plantation Bitters. Now that these Bitters cannot be obtained, a substitute should be prepared We understand our government has opened negotiations with Dr. Drake, through a secret agent, but with what truth, we do not know." We are exceedingly obliged to the Richmond Whig for its re-

embrance of "Auld Lang Syne," but we can assure "Our Gorernment" that the Plantation Bitters are not for sale to any 'secret agent," North or South. There is probably several other things that "Our Government" will yet want. We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of. Physicians are compelled to recommend it. / Calisaya Bask has been celebrated for over two hundred

years, and was sold during the reign of Louis XVI., King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.
