NEWFOUNDLAND .- Late St. John's papers speak with regret of the departure of the 62nd, as they consider that a military force is an absolute necessity at Harbor Grace, not only to keep peace among the people, but also to pro-tect the large amount of produce of the fisheries, merchandize and provisions deposited there, and at Carbonear, on which thousands of the population of the Colony are dependent for the means of subsistence. A disturbance took place in the former district on the night of the 25th inst. A clegyman in company with a friend, while quietly walking home, was fiercely attacked by four scoundrels, disguised as mummers. Two of the guilty parties were arrested by the police, and on an attempt being made by their comrades to liberate them, the assistance of the military had to be obtained.

Arrival of the "Arabia" off Cape Race!

ST. John's, N. F., Jan. 15th. The Steamship "Arabia" from Liverpool at 10 A. M. 4th inst., and from Queenstown on the 5th, was intercepted off Cape Race, on Tuesday, at 11 P. M.

"The " Anglo Saxon" arrived at Derry early on the morning of the 3d inst., and at Liverpool the same night. The "Hansa" arrived at Southampton on the morning of the 3d, and the "Glasgow" at Queensrown on the evening of the same day. The "Arabia" has on board troops for Canada, comprising two Battalions of 15th Bri-

gade Royal Artillery.

The news received in England by the "Anglo Saxon" and the "Hansa" materially strengthened confidence in peace. Consols shewed great buoyancy, and further advanced a half per cent, closing firm at quotations cur-rent before the "Trent" affair, and showing an advance of three-eighths since the 1st inst.

The Times says, from the character of the rise in consols on the 3rd inst,, it was inferred that the "Hansa" may have brought advices to Government, from Lord Lyons, of some intimation having been given by Washington Government that Messrs. Mason and Stidell

The Herald says, speculations appeared to be guided by private information from American diplomatic circles. The same Journal says it behoves both England and France to consider whether the whether the time has not arrived for recognizing

the Southern Confederacy.

The Daily News remarks, as yet the Washington Government has not spoken, but if the theories of some of its contemporaries be correct. that Government really resides in the New York Press. The question of peace was really decided when the "Hansa" left. The same paper says, the arbitration principle has been ridden to death by injudicious friends and condemns the policy of dividing English opinion at the present

The Times, proposes to expose some of the strange delusions entertained by the American people in their own omaipotence and invulnera-bility. It also gives place to a letter from T. M. McKay, of Liverpool, showing the difficulties which Americans would experience in carrying

out prevailing schemes.

The coupons for January dividends, Virginia Bonds, have been returned by Barring Bros., with answer, "no advice to pay." The same answer is anticipated relative to debts of other Southern

The Morning Post regrets that the Washington Cabinet evinces no alacrity to avail themselves of respite granted by England and draws unfavorable deductions therefrom. The Daily News, per contra, finds in delay encouraging signs of moderation and general disposition to act with reason and justice.

A suspicious steamer has been seen cruising in the English Channel, off Dover, believed to be the Privateer "Sumter."

A meeting was held at Birmingham, under auspices of the Mayor, for the purpose of memorializing Government in favor of arbitration in the "Trent" affair. After very turbulent proceedings the memorial was defeated, and an amendment was carried, leaving the matter in the hands of the Government. Nobody of importance took part in the meeting.

The General spoke of devotion to the Pope, the latter thanked Gyon for his sentiments, expressed confidence that French soldiers at Rome would not permit fulfilment of any irreligious or impolitic act and concluded by bestowing apostolic benedic-tion on Emperor Napoleon, Imperial Family and whole French Company. The National Roman Committee placarded Bills at Rome declaring consols by Pontificial Government after 20th March 1862, would never be recognized by the Italian Government, as from the moment the Italian Parliament declared Rome the Capital of Italy, the temporal power of the Pope would

The King in addressing Ministry on New Years day said, the year had commenced with serious aspect throughout the world, rendering it the duty of Prussians to be prepared for any eventualities, and he asserted this should be done. In answer to congratulations from the army, the King said, Prussia could calmly behold what events may arise from the state of things in non-European countries, because her army stands ready formed and armed.
