

RESOLVED by the New Brunswick Baptist Western Association, at its Annual Session, at Kenwick, Sept. 24th 1862...

New Brunswick Baptist AND CHRISTIAN VISITOR.

ST. JOHN, WEDNESDAY, JAN. 29, 1862.

The N. B. Baptist and Christian Visitor for 1862.

The New Volume of the BAPTIST AND VISITOR for 1862 commences with this issue.

To accommodate our friends, in view of the hardness of the times, we will receive \$0.75 for Six Months, \$1.00 for Eight Months.

And will take CENTRAL BANK NOTES until further notice, at the rate of \$2 a year.

Subscribers whose term expires with this number will be notified by an + marked against their names on the wrapper...

We have no travelling Agent. Our Local Agents remain as formerly: but where one is not convenient the money enclosed to us by mail will reach us safely.

We continue the N. B. BAPTIST AND CHRISTIAN VISITOR, to all our last year's subscribers this week, to give them an opportunity to renew their subscriptions before the 1st February...

As the Baptist and Visitor will be sent weekly, except to those who are marked on our books as paid in advance...

Sympathy with the South. The Christian Times, an able conducted exchange of Chicago, Illinois, of the 15th inst., complains bitterly of England and her colonies for withholding sympathy from the North...

Where did the Missouri compromise and the Fugitive Slave Law have their origin? With those who have now leagued against the Government its destruction...

Beligion in a Palace. Christianity in all the conditions of human life is the supreme good, but it shines with peculiar lustre when it makes its power and glory manifest in kingly courts and in gorgeous palaces.

The Union between the Northern and Southern States was based upon the law of compromise between slavery and freedom...

Blame him not, for he well knew that the state of feeling in the South was such, that without a national law to protect slavery, secession would soon become a fixed fact...

The Times, in supposing that we want President Lincoln and his Cabinet to "violate their oath of office, revolutionize the Government, trample the Constitution under their feet, and destroy the Republic by introducing slavery," is simply...

crushed it to atoms. President Lincoln and his Cabinet have been striving for long months to mend it, but there it is a broken reed, and all the powder and balls, and swords, and bayonets in creation can never mend it, upon its original basis...

It is a fact patent to the world that, up to the present hour, there is not a foot of ground in all the United States upon which a poor fugitive from the South can constitutionally plant his foot and feel that he is a free man.

The South has given the North the golden opportunity of remodeling the Constitution upon an anti-slavery basis...

The Hon. and Rev. Baptist W. Noel said, in a recent speech, that he had heard that the clergyman, whose ministry the Royal Family attended, at Osborne, was a good man...

President Lincoln and his Cabinet may be anti-slavery men, for aught we know; but so long as they fight for the old Constitution as it was, so long will they be regarded by disinterested spectators as fighting for the perpetuation of human thralldom.

The following from the British Thunderer, is a striking illustration of English sympathy with the slavery of the South. We commend it to the special attention of all those who are engaged in the cause.

The Times has strong editorial on reception due to Mason and Slidell. It says they are about the most worthless booty it would be possible to extract from the jaws of American lions...

During the session a public meeting was held when eloquent addresses were delivered by J. D. B. Fraser, Esq., the President, Ezra Churchill Esq., Rev. S. T. Rand, D. Mosher Esq., and others.

A New Church Organized. The Christian Messenger of the 22d inst., reports the formation of a new Baptist Church on the 13th inst., in Canning and Peraux, Cornwallis, composed of 15 members...

The Philanthropist. This valuable accession to our Temperance literature should have been noticed by us at an earlier day. We learn from its Prospectus that the main object of the paper is, "the advancement of True Temperance Principles, the most stringent form of Total Abstinence Pledge, as now adopted and universally approved by all existing Associations..."

The British Standard says of him:—"Public writers who are capable of dealing with the subject of religion avow their belief that the Prince was a man who feared God, and 'walked in his holy ways.' Of late years it is supposed that he embraced those views that are denominated evangelical—in other words, the Gospel of the grace of God."

The Religious Intelligencer. We have been delighted with the decided improvement in the typographical appearance of this Journal since its publication passed into the hands of Mr. Barnes.

Parties accepting this proposition will please notify the proprietor by mail as soon as possible.

The Missing Man! We regret to learn by the Carleton Sentinel of last Saturday, that no traces have been discovered of John Caldwell, who is known to have left his hotel in Boston, with some \$10,000 or \$15,000 on his person...

The Storm of Monday so completely blocked up the Railway that no train has since arrived from the Eastward. The train which left for Moncton is stuck somewhere on the road.

LEGISLATIVE COUNCIL CHAMBER. WEDNESDAY, 4th April, 1860. Resolved, That the 34th Standing Order of this House be rescinded, and in lieu thereof the following be adopted...

Naval and Military. In consequence of the severe South-easterly gale on Sunday, the "Orpheus" came farther up the harbour, and anchored abreast the Custom House for greater convenience.

THE "ORPHEUS." The Orpheus, 21, screw, Commander W. F. Burnett, C. B., steamed out of Portsmouth Harbour yesterday morning on the completion of her outfit for foreign service.

Census of Nova Scotia. The Monthly Record of the Church of Scotland gives the whole population of the Province as amounting to 330,857; that of 1851 having been 276,117; thus showing an increase of some 20 per cent all over.

Temperance. This good cause presents a bold and strong front, to King Alcohol in Nova Scotia. A recent meeting of the Grand Division in Hanport resolved to petition the Legislature for \$400, to aid in paying the salary of a travelling lecturer to advocate the cause of Temperance.

Correspondence. For the Baptist and Visitor. "Baptizo" Defined. In ascertaining the meaning of Scripture, as well as other writings, much depends on the correct definition of words.

ographers as one of its meanings, it is not warranted by a single decisive example, either in the Scriptures or in classical authorities. It not only signifies to dip, or immerse, but it never has any other meaning.

What we have been delighted with the decided improvement in the typographical appearance of this Journal since its publication passed into the hands of Mr. Barnes. It is somewhat reduced in size, but it is richly worth the price charged for it, and justly merits the confidence and support of the denomination it represents.

But that if it did, it must have been a mere idle phantasy having no meaning. And then, strange to say, the "Times" proves Mr. Seward did not even know of it, until the deed was done, and then the moment it comes into his hands for adjustment he removes all the difficulty by giving up to England Mason and Slidell.

The Nova Scotia Gold Mines. The Yarmouth Herald publishes the following extracts from a letter received by a gentleman of Yarmouth, dated Truro, Jan. 31:—"I believe our gold fields are going to be very remunerative. The quartz in most of the places is very rich, and some veins will yield gold in quantities, but will require capital to work to advantage, as the alluvial washings are not large, owing to the want of high mountain ranges and large rivers; but some washings are rich. It is found in paying quantities at Wine, Isaac, and St. Mary's Harbours, and at Upper and Lower of the quartz very rich; also at St. Peter's Harbour, Poppe's, Indian, Spry, Tangier and Laurenceville Harbours, and all along the Halifax coast to Truro, nearly to Steviacook, very rich at Allen's bucket factory on the Guysboro' Road, at a little south of the falls, and at Guysboro' Falls. St. George also has been found at Truro Falls. No doubt now exists but that rich veins of quartz exist, with various deposits, from Cape Canso to Cape Sable, and far inland; but likely the south shore will prove the richest. I am interested with a company, and make it my object, and it goes well, we will have to pay nothing for it. \$200 will prove it, and if indications are realized, it will be inexhaustible, and worth millions. Col. Ross says that no quartz can be found in California. It is prepared to invest largely in quartz in this country, and to arrange to get the best persons to take shares with him. There is also a large and wealthy English Company in the field represented by Mr. Bell. Powerful quartz crushers are rapidly going up in all quarters. Coyne, of the quarries of an acre, worth \$250, could not be bought for less than \$25,000 and some are calculated to be worth \$100,000. Two barrels of quartz (621 lbs.) in a claim near our yields 240 of pure gold (viz. 900z). It is not likely that the richest places are yet found. One of six weeks it will be proved, and if no doubt in the river 5 or 6 on one time. Three tons (out of 40 or 50 on one claim in one day, and it is found deeper they go the richer it is getting. If the above statement prove to be true, Nova Scotia will rival the far famed Cariboo country in richness of quartz, and we shall be glad to hear that it is so."
