ARREST OF KETCHUM, THE FORGER.—The New York *Evening Post* has the following account of the arrest of young Ketchum the gold check forger, on Friday, and of his conduct and demeanor, with the description he gave of his manner of proceeding after his reported flight:

"Edward B. Ketchum, of the firm of Morris Ketchum, Son & Co., whose abstraction of bonds and other securities from the house of which he was a member, and whose forgeries of gold certificates have made him so notorious, was arrested at five o'clock last evening in Twentieth street, between Fifth and Sixth avenues, in this city near a house where he had his lodgings. The arrest was made by detective officer Gilmore, who had been 'working up' the case with detective McDougal, under the direction of Superintendent Kennedy and Serg. Young of the detective force.

Information had been conveyed to the police that young Ketchum could be found in Twentieth street, and officer Gilmore proceeded thither on Friday afternoon. The arrest was made near the place where Ketchum was stopping. It appears that he was walking homeward, and the officer, recognizing him from the description that had been furnished the police, took him into custody. Ketchum made no resistance whatever. He did not seem to be even surprised; but saying it was 'all right,' he accompanied the officer to police headquarters in Mulberry street. Under arrest Ketchum did not exhibit any concern. He spoke of the subject as the end of a rather wild career, but did not apparently apprehend any unpleasant consequences.

Ketchum spoke freely of the manner in which he has lived since his flight. He has not been out of the city. He had lodgings in Twentieth street—there are rumors in regard to this matter it is not proper to print now—and at once retired to his rooms when he left Wall street. Every day except one—Tuesday, nearly two weeks ago, the day in which the disclosures were made—he has been in the street, and has not been once out of New York. During his walks he has often seen persons whom he knew, including brokers and others, who were involved by his forgeries, but he apparently avoided them, so that they should not observe him, and it is not known that he was recognized until he was arrested. On Thursday last Ketchum rode to the Central Park and remained there for a considerable time. He saw there a number of persons with whom he had been acquainted, and it is reported that he spoke with some of them. This, however, is a mere rumor.

After Ketchum was taken to Police headquarters, his father and other members of his family, with the officers of one of the banks which had received a part of the forged paper, and persons who have been chosen as his counsel, were notified of his arrest. In the course of the evening, several of them came to see him. He met them all, except his father, with singular coolness, and spoke with them as though he had been temporarily absent on business. He did not evidently consider himself a criminal, or at least did not acknowledge the fact by his demeanour. The persons who were called spoke to him with kindness, and none of them showed any disposition whatever to prosecute him for his crimes.

The interview of Ketchum and his father was deeply affecting. He had no knowledge whatever that his son had remained in the city, and the announcement of the arrest naturally caused him the greatest surprise, while the safety of young Ketchum not unnaturally gave him pleasure. The meeting cannot be fully described. The father clasped his son, and said to him, 'My son! my son! you have ruined me, but I forgive you!' During the interview, which was protracted, great mutual affection was manifested, and the two were reconciled. Edward Ketchum's wife also saw him. The particulars of this interview have not come to light.

Ketchum speaks with entire freedom of his operations. He says that one time he owned property worth six millions of dollars. His losses began with the decline in the premium on gold. He says that the amount which was involved in his various transactions—his 'liabilities,' as he says—are about four million dollars. He would have found it easy, he declares, to pay off an indebtedness of two and a half millions. The sum found with him was $48,000."

Steamship Ocean Queen brings San Francisco papers of Aug. 3d. The steamship Brother Jonathan, from San Francisco July 25th, for Portland, Oregon and Victoria, with between two and three hundred passengers, was totally lost near Camp Lincoln, Oregon, July 30th. Only fourteen men and one woman were saved. Among the passengers were Brig.-Gen. Wright and family, Lieut. Waite, Surgeon A. Ingraham, of the army, and Capt. Chaddock, of the Revenue service. Also Gov. Henry, of Washington Territory. No particulars received. Gen. Wright was *en route* to take command of the Department of Columbia.

The pirate Shenandoah is still at work destroying whalers. The crew of six more vessels, destroyed by her, had arrived in San Francisco. It was expected that she would destroy fifty more which were near by when these were burnt.

BOSTON, Aug. 26.

A despatch from Quebec says:—"In the Canadian Parliament last night the Opposition offered the following resolution, which after a fierce debate, the Ministerial party voted down by 20 ayes to 78 nays.

Resolved, That the renewal of the Reciprocity treaty with the United States is regarded by the people of this Province as an object of the utmost importance. To secure that object, as well as to cement the trade and advance the prosperity of the Province, it is expedient that the work of enlarging the Welland and St. Lawrence canal should not be postponed but should be pressed in preference to any other work involving any considerable expense to the country."

While certain portions of the evidence in the Wirtz trial yesterday were somewhat favorable to the prisoner, the general tenor was very much against him; the evidence yet to come will be still more damaging to Wirtz.

The *Tribune's* despatch says that General Grant remarked recently that sufficient evidence had been adduced during the late Conspiracy Trial and since to convict Jeff. Davis of complicity in the assassination of President Lincoln, and that the fate of the Conspirators settled that of Jeff. Gold 144.

BOSTON, Aug. 28.

The present strength of the United States army is 46,000.

It is reported from Mexico that the Liberals had been defeated near Puebla previous to the 14th inst.

It is expected that the rebel Vice-President Stephens, will soon be released or pardoned by the President.

A Washington despatch says the order relative to the passports for paroled rebel prisoners, is the signal for a general emigration of prominent rebels led by Lee, who will go to London, and there finish his history of his military campaigns. Among others preparing to go are Gens. Longstreet, Ewell, Beauregard and D. H. Hill, Wheeler, Malone, Buckner and Gardner, and it is probable they will be accompanied by hundreds of others of less rank.

Edward B. Ketchum, the forger, was arraigned in New York this forenoon. At the request of the prisoner a full hearing in the case was postponed until Monday next. Meantime he is committed to the Tombs prison.

An accident occurred on the Long Island Railroad this forenoon, by which five persons were killed and several wounded. Gold 144.

BOSTON, Aug. 29.

The Counsel for Wirtz withdrew from the case yesterday, which caused considerable excitement; and the prisoner seemed to be much affected by it.

Mrs. Ex-Senator Hunter to-day received the promise from the President that her husband should be pardoned at an early day.

Alexander H. Stephen's brother also had an interview with the President on a similar mission. The result of the interview is unknown.

The President will soon issue a proclamation for the admission of ammunition and firearms into all the Southern States.

The *Tribune's* Brownsville, Texas, Correspondence says Senor Robles, the Mexican minister of Public Works, crossed the river on the 5th inst., and took dinner with General Steele. Among the guests were Generals Weitzel, and Draper. Generals Ortega and Roners are said to be on their way to Brownsville. The visit of these distinguished officials was construed to point to some movement on the Rio Grande.

The *Herald's* Vera Cruz Correspondence says the town of Zongoleur, the principal place in the State of Vera Cruz, has declared in favor of the republic, and it is defended by a force considered adequate to hold it. A force of Austrians marching against it was drawn into an ambuscade, and put to flight—losing quite a number.

The Austrians had also met with a reverse north of Puebla.

PURE SODA WATER.—**No Shaved Ice!**—Pure Cool Soda Water, with Syrups from the Fruit, is still drawn from the Old Fountain. All aerated waters should contain a certain volume of Carbonic Acid Gas; that it is which gives them life and pungency. If the tumbler is half-filled with shaved ice, and enough properly charged water is drawn to fill it, a mixture is presented that contains half the requisite amount of Gas, has no exhilarating qualities, no sparkle, no life, no effervescence, and is, in short, stale, flat, and lifeless, requiring a large amount of Syrup to make it palatable. Call and try it, at No. 1 North Market Wharf.
