COLONIAL.

We are glad to see by our exchanges that Hon. Mr. Wilmot, during his recent visit to Canada, expressed himself as favorable to the union of the North American Provinces. He wants changes in the Quebec Scheme, but indicates his desire for Confederation in some form. This is hopeful. All sensible people like Mr. Wilmot must know that it is neither desirable or possible for New Brunswick to resist the tide of moral influence in favor of Confederation which England and Canada are bringing to bear upon this subject. The currents are all sweeping us along in that direction, and the goal will be reached in good time.

Thanks to our Canadian correspondent for his promise to favor us with occasional letters from readers want to know all about Canada. She is our sister, let us hear how she prospers.

A "Countryman" resident on the Grand Lake informs us that bears are very numerous and troublesome in that section. Farmers have lost from four to ten sheep each, by these murderous animals. Some of the captured ones were very large and fat, and when opened were seen to be stuffed with mutton and wool. In one instance a resolute famale recoved an innocent sheep near her dwelling which Bruin had marked for his prey. She boldly met his bearship with her broomstick, and he was glad to back down, Two other ladies drove one of these prowling brutes from a sheep pasture where he had resolved to have a sheep. One reason assigned for these bear visits to the open fields is, the swamps are dry, and they go out in search of water to slake their thirst. The "bear bounty" will propably be much larger this

WESTERN EXTENSION-ALL RIGHT!-We learn that the arrangements neccessary for the construction of the New Brunswick portion of the road have been completed. Messrs. Pierce and Blaisdell, the contractors will arrive here about the 20th inst; ground will be broken not far from the Suspension Bridge about the first of November.

The contractors require to spend of the funds of the American company \$100,000, before any portion of the local stock is raised; it will then be paid in gradually, the proportion being \$7000 of local funds to every \$100,000 of capital expended.

The engineer, Mr. Burpee, will proceed to locate the line immediately, in order that it may be let tolocal contractors with as little delay as possible.

The rock excavations at this end of the line are heavy, and can be carried on advantageously during the winter. This will afford a good deal of employ ment to the Jt. Sohn labouring classes. We have already congratulated the public in pros-

pect of the construction of this work, which is destined to do so much for St. John and New Brunswick, and need not now repeat our former remarks. The President and other office-bearers, stockholders, the Engineer of the line, and such zealous friends of the work as Mr. Wright and Mr. Cudlip, deserve honorable mention. - Journal.

THE EMPRESS. -- Messrs, Hatheway & Small's new steamer left the dock, in Carleton, yesterday morning at high water, and about one o'clock started on her twelve miles, which she made in forty-nine minutes, 6 P. M. and then returned to the city. The reaction was too fine to test the sea-going qualities of the boat, but as she ran along with a very gentle motion and without the slightest jar, and as she is stout, staunch and well built, she will, unquestionably, prove herself the best vessel of her kind we have had on the Windsor route; and if she do not exceed the first performances of the Emperor respecting speed, she will not fall behind. All of the machinery works to a charm; and in every respect the boat answered all the expectations formed of her. The builder, Mr. Retallick the owners, and Messrs. Fleming & Humbert, who furnished the machinery, have good cause to be proud of a steamer that is such a credit to our har-bor; and the travelling public may be congratulated on having such a fine boat in which to cross the Bay. The Empress will probably leave on her first trip to Digby on Thursday morning.—Globe.

Ganter, of the Portland division, was going his rounds in Sheriff street, he found a male child, about one day old, rolled up in a piece of old ffannel blanket. Unlike beartless who could thus expose an infant, Mr. Ganter carried the foundling to his own house, where it has been ever since cared for .- News.

NEW YORK, Oct. 2.

Steamship Allemania from Southamptou 20th, has arrived. Nine hundred thousand pounds in gold is en route rom Australia for England.

The cattle plague was increasing in England. The London cow houses have been decimated. The Army and Navy Gazette says, "Donald Mc-Kay, of Boston, is in close communication with the

Admiralty on the torpedo subject. The authorities intend placing torpedoes in the channels leading into harbours." The police have blockaded Parliament street, Dub-

lin, taking possession of the Irish People newspaper office. Twenty persons have been arrested.

Several arrests have been made at Cork. The Times says the information which the seizure of the Irish People was made derived from Washing-

Earl Russell's letter to British Agents abroad censures the German Powers in reference to the Gastein Convention, and says:-" Force alone is the power which has been consulted and recognized. Violence and conquest are the only basis upon which Austria and Prussia have established the Convention. England deeply deplores this disregard for public rights, and the legitimate claim of the people to be heard when the question affects their destiny.'

ARRIVAL OF THE BELGIAN.

NEW YORK, Oct 3. The steamship Belgian passed Father Point last night with dates to the 22nd Sept. The Fenian excitement still continued, but with no

new developments. The examination of prisoners was assigned for the 23d.

Jas. Murphy, one of those arrested, claimed to be citizen of Boston, and he was set at liberty after an interview between the American Consul and the authorities.

As the 88th Regiment was on parade at the Cork Barracks, the Sergeant-Major was called by the Colonel into the guard room and shown a roll book of members which had been taken from an arrested Fenian. The Sergeant-Major admitted that one of the signatures was his, and he was at once given into custody.

A private soldier belonging to the same regiment was also arrested. These arrests caused great excitement in Cork,

even leading, it is reported, to a run on the Cork A Fenian demonstration was rather anticipated at the Limerick races and the military were held in

readiness, but all passed off quietly. A despatch dated Liverpool, 23rd Sept., says:-Fenian arrests continue. Another non commissioned officer has been arrested in the Cork Garrison. Two arrests have been made in Manchester and one in Sheffield.

It is stated that the evidence is too voluminous to admit of the examination taking place on the 28d. The London money market continued quite steady Consols 894 @ 894 for money. Breadstuffs continued firm with a slight advance

If the tumbler is half-filled with shaved ice, and enough properly charged water is drawn to fill it, a mixture is presented that contains half the requisite amount of Gas, has no exhilarating qualities, no sparkle, no life, no effervescence, and is, in short, stale, flat, and lifeless, requiring a large amount of Syrup to make it palatable.
