Province, compared to that of forty years ago, when first entered the Assembly as the only lawyer in that popular body.

Under any circumstances thirty-one years, the time which has passed since my first appointment to the Bench, is a long judicial life. You know that in my case the labours have never been light, and of late, with the growth of the country, have become more and more arduous; but they have been attended with this happy alleviation, that the utmost harmony and mutual confidence have generally prevailed among the Judges, to which the high character and eminent qualities of no one have more conduced than those of my immediate predecessor, Sir James Carter, who, after a service contemporaneous with my own, has retired in full enjoyment of the respect and regard of his brother Judges, of you, gentlemen of the Bar, and of the whole community ; and to whom I sincerely trust Providence may yet vouchsafe many years of health and comfort, and not unmerited nor nuseful leisure.

Permit me as a last word to say, gentlemen, that I trust we may all be guided by a desire to maintain unimpaired the good feeling and confidence which it is so essential to the due administration of justice in British Courts should exist between the Judges and the Bar, and which the controversies and conflict sometimes unavoidable ought not to be allowed to disturb.

Let us always bear in mind the account we are hereafter to give of the talents committed to us, not for our benefit, but for the welfare of others, and seek for light and wisdom to that only source from whom all our blessings flow. ROBERT PARKER.

Mr. Lunt's new and beautiful steamer, "Olive," is now upon the route between Indiantown and Fredericton. She was built in Carleton, by Messrs. J. & 1. W. Olive, who also modelled her, and it is universally admitted that she reflects the highest credit upon her builders. She is 105 feet in length over all, and about 24 feet beam. The joiner work of the "Olive" was done by Mr. Geo. V. Beatteay, of Carleton, to whom much credit is due for the neat style and thoroughly workmanlike appearance which it presents. Her cabins are pannelled and otherwise neatly finished. Messrs. Fleming & Humbert, of this city, built her engines, which perform well. The "Olive" is a fast boat, and is improving in speed every trip. She has made the run from Fredericton to Indiantown in six hours and forty minutes, making her stoppages, which is much in advance of the usual time made by the river boats. When her engines have worked for a time, and have got rid of the extra friction consequent upon their being new, she will government loans.doubtless make the trip in considerably less time. We congratulate all concerned in the "Olive" upon the success that has attended her, and trust that she will prove as remunerative to her owner as she is an accommodation to the public.

MCMILLAN'S NEW BRUNSWICK ALMANACK AND RE-GISTER, FOR 1866, is upon our table, and is a real model both in style and arrangement. In addition to the usual tables, it furnishes information in rich variety on all the governmental, military, naval, educational, social, moral, and ecclesiastical organizations of the day, and though not perfect in all its statements, is nevertheless most valuable as a book for general reference. It will doubtless have a very extended circulation. For sale at J. & A. McMillan's, 78 Prince Wm. Street.

ARRIVAL OF THE "NOVA SCOTIAN."

NFW YORK, Oct. 16. The Nova Scotian has passed Farther Point with

dates to the 6th instant. It is stated that the British Government proposes to guarantee the Canadian Loan for the purchase of

the Hudson Bay Territory. Fenian arrests continue. About 205 persons in all

have thus far been arrested.

A suspicious vessel flying the American flag and supposed to be one of those with arms, had appeared off Queenstown, but again put to sea.

A strange vessel is said to have sent a letter on shore which was opened and found to contain a bill for £1000 in favor of a member of the Fenian organization.

The examination of the six Fenians at Dublin was concluded on the 2nd.

Additional evidences developed nothing new of movement.

Five of the prisoners were committed to take their trial for high treason.

The prisoners denied that the indiscriminate slaughter of the higher classes was ever meditated.

The publication by the American press of the names of the alleged holders of the Confederate loan

caused some fluttering. Laird authorises the Liverpool papers to say that he never held or was interested in any of that stock.

The important American Torpedo experiments took place at Chatham on the 4th inst., under the direction of Donald M'Kay and Mr. Beardsley in the presence of the Lords of the Admiralty.

Numerous operations took place, the most important being the destruction of the sailing frigate Terpischore. Two hundred and seventy-five pounder torpedoes were placed at the depth of seven feet below the keel when the electric shock was communicated. There was a dull report, the vessel quivered and in a few minutes settled down on an even keel: not a splinter was shot in the air.

PROGRESS IN ALBERT COUNTY .- We are glad to learn that through the laudable exertions of Mr. T. McHenry and other friends of progress, the telegraphic track has been extended from Hillsboro' to Harvey. The good friends of Hopewell and Harvey will soon feel, therefore, that the lightning tongue of flame condescends to speak to them as well as to those who dwell in the great centres of social and commercial Worth M. C.

It will be seen by a card in another column that Dr. J. R. Fitch, formerly of this city, has returned to his post to bring the influence of his acknowledged skill and long experience in medical life, to bear upon the healing art in all cases requiring his services. His old friends are delighted to see him so full of vigor and hope, and we doubt not success will attend his pathway.

FIRES .- Two fires occurred on Sunday-one between 5 and 6 o'clock, a.m. in a house near the corner of Mecklenburgh and Wentworth streets, owned b Mr. Hill, and the other about 4 o'clock in the after noon, in an unoccupied house on the corner of Princes and Water streets, owned by Rev. Mr. Disbrow. The damage resulting from the tirst fire amounted to th destruction of the rear part of two dwellings, and several outhouses, one of the latter being owned by Mr. Jas. McNichol, whose property adjoined Mr. Hill's. The fire originated from causes purely accidental. The engines did good service. From the second fire which was caused by the burning of some shavings under a stairway, no damage to property was caused - IVeros.

FIRE !- From the Fredericton Reporter we learn that a rather destructive fire broke out there on the morning of the 13th inst. It originated in or near the blacksmith shop of Mr. H. Estabrooks, and was not got under till it had destroyed not only that building, but another house owned by Mr. McGuire shoemker, also one in which live a number of Mr Scott's workmen. Great praise is given to the mili-tary for the manner in which they exerted themselves in their endeavors to stay the destroying element.

ACCIDENT AND LOSS OF LIFE .- On Friday evening ACCIDENT AND LOSS OF LIFE.—On Friday evening a sad accident, which shortly afterwards proved fatal, occurred in the city. As Mr. Crothers, who had charge of one of the deal yards near Pettingill's Slip, was coming up the stairs leading from the deal yard, being about to open the gate, he fell back, receiving a very bad fall. He only lived a short time after-wards, his back having been broken by the fall. Mr. Crothers was a highly respectable man, advanced in years, and by trade a boot and shoe-maker.—Journal.

PRODIGIOUS SQUASH .- On Friday last we saw quash which weighs 178 lbs., and girts seven feet. It is of a delicate cream color, and is beautifully ribbed in longitudinal lives from stem to the opposit pole. It was grown by W. H. O. Haliburton, Esq on the homestead farm of the late Judge Ritchie The squash is one of a species called the "Frence Mammoth." Mr. Haliburton is both a scientific and tion far practical farmer, as his crops this Autumn unmis takeably indicate. He has raised this season an en mous crop of Indian corn on a small piece ound.-Free Press.

At Tampico and along the coast Imperialism was decidedly declining. Gold 146.

> POLAND WHITE PINE COMPOUND .- Dr. Poland has built up a large and lucrative business in the manufacture and sale of his well-known compound. It is said to be unfailing remedy for many of the ills which flesh is heir to, and is especially efficacious in complaints of the kidney, and also for coughs and common colds. No medicine can keep possession of the market for a very long time unless it has some real virtue to commend it. The public verdict in regard to this has been favorable, and the White Pine Compound is sold throughout the United States .- Boston Journal.

THE MOTHER'S REMEDY-For all diseases with which children are afflicted is MRS. WINSLOW'S SOOTH-ING SYRUP.
