The Times says that in the absence of precise information concerning Fenianism, it is impossible to determine what significance is to be attributed to the reported movements of the Order; that the amount of dissipation will be very slight, as the feeling of dissatisfaction is entirely confined to the lowest class of the Irish people.

## ARRIVAL OF THE "CUBA"

HALIFAX, Sept. 26th, 1865.

An extraordinary general meeting of Atlantic Telegraph Company was held in London on the 14th. The Directors presented a report setting forth the results of late effort and sanguine anticipations for the future to be deduced therefrom, expressing determination to press forward with the work and announcing that they had already entered into a contract for renewed operations.

Under this contract the Telegraph Construction Company undertakes for the sum of £500,000 sterling to lay down a new cable next year, and if successful, will not otherwise, they are to have in shares and cash profit of 20 per cent on this cost. They also undertake without any further charge whatever, to see to sea with sufficient cable to complete present broken cable and use their best endeavor to that end.

Carrying out this contract requires that Atlantic Company should raise a minimum of a quarter million to a maximum of half a million pounds sterling in cash, upon which new capital a preferential dividend of 12 per cent is proposed, with a share in profits after dividends to which they are entitled have been paid on old shares.

The report was unanimously adopted. The question of raising the capital being left to the final decision of the meeting called for the 12th October.

On invitation Lord Bunsby, the Lord Lieutenant of County Cork, a meeting of more than 150 magistrates took place at Cork to consider the security of the public peace as menaced by Fenian movement. The proceedings were private, but the Cork "Examiner" says they resulted in unanimous adoption of memorial to Government praying for the immediate increase of police and military force of country.

The existence of a secret organization dangerous to the public peace was generally admitted, and it was supposed the adoption of proposed steps would be sufficient to maintain public order.

On Friday evening, 15th, in Dublin, a large force of police proceeded from the Castle to Parliament Street, where they divided into two bodies, one at either end of the street, while the other body, which was at the door of the paper called the "Irish People," an alleged Fenian organ, it was refused admittance. The police then broke open the door, took possession of the premises and secured twelve or fourteen prisoners—said not to be compositors—and conveyed them to Castle. The police retained possession of the premises. No information as to cause of seizure, but there are rumors of concealed weapons and documents with the names of leaders, they are not generally admitted.

The government was supposed to be acting on information. The police kept the street clear and there was no disturbance.

The "Irish People" is a weekly journal and was about to be published that evening.

The "Skibbereen Eagle" of 15th announces the British fleet off Cape Clear—some hovering round the coast.

Great consternation at first among the coast population, but the people were satisfied on hearing they were the Queen's ships.

The "Eagle" says now that help is at hand in the event of Fenian invasion, those inclined to sympathize with the rebels are rather disheartened.

The New York correspondent of the London "Times" enlarges upon the fact that the South is most anxious for reconciliation with the North, and quotes sundry Southern journals in support of loyal and friendly feeling which was being evinced.

UNITED STATES.

Boston, Sept. 25.

Information was received here on Saturday evening that the full amount of stock required for the completion of the European and North American Railway through New Brunswick was raised. The agreement with the Government was executed and the approval of the contract with the American Company given, thus insuring a gift of \$10,000 per mile from the Province of New Brunswick for the line from St. John to the boundary in Maine, where it is to connect with the line from the boundary to Bangor. The contract for the line east of St. John from Moncton to Truro, one hundred and nine miles, was also ratified by the

Government, so that the unfinished sections of the entire route from Bangor to Halifax is under contract, to be completed in four years. The work of building the line from Bangor to the boundary, will not commence, however, until a subscription to the stock of \$400,000 or \$500,000 is secured at this end. The prospect is now favorable.
