Mr. Francis was in circumstances so comfortable, was of a temperament so kind, and had so largely the confidence of his friends, that there can be no doubt of the terrible deed being the result of insanity, symptoms of which had before awakened the fears of his relatives.

The MASON & HAMLIN CABINET ORGANS must not

e confounded with other reed instruments, from which

they vary essentially, their superiority being largely derived from PATENTED IMPROVEMENTS, which cannot be

employed by other makers. Among them are: The AUTOMATIC BELLOWS SWEEL (patented); a

most important invention, and greatly the best swell ever

devised; being much more effective and easily used than any other. The variety and beauty of effect of which it is

capable, cannot be appreciated except from actual use. The many attempts to imitate or find a substitute for this

swell, prove its value. None of them, however, approach

it in excellence and simplicity. IMPROVED SELF ADJUSTING VALVES (patented),

Perry Davis' Vegetable Pain Killer.

THE UNIVERSAL REMEDY FOR INTERNAL AND EXTERNAL COMPLAINTS ! At this period there are but few of the human race unacquainted with the merits of the Pain Killer; but while some extol it as a liniment, they know but little of its power in easing pain when taken internally, while others use it internally with great success, but are equally ignorant of its hearing virtue, when applied externally. We therefore wish to say to all that it is equally successful whether used internally or externally, and it stands alone unrivalled by all the great catalogue of Family Medicines, and its sale is universal and immense. The demand for it from India and other foreign countries is equal to the demand at home, and it has become known in these faroff places by its merits. Present CTENT

The Laws of Health.

It is useless for State Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation, which depends for its enforce-ment upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in this country, who has not seen the testimony in favour of HOSTETTER'S STOMACH BIT-TERS furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspensia, a valuable anti-bilious medicine, a promoter of appetite, a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of activity and vigor, to the vital forces which is not commuicated by any other of the topics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility, or in consequence of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings, HEALTH, the importance of using the BITTERS as a defensive medicine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the bilious and nervous will find nothing in the whole range of official and proprietary medicines which will afford the same relief.
