

the *Provincial Correspondence*, of this evening, says:—

"Russia, by her position as a great power and also on account of her numerous family ties with the German Courts, takes lively interest in the German question. The relations subsisting between Russia and Prussia might suggest to Russia the expediency and desirability of making confidential communications to the Cabinet in Berlin in relation to views entertained by the Czar's Government upon the recent steps adopted by Prussia. Any apprehensions respecting the motives attributed to Russia by certain German journals will all probably speedily prove to be groundless."

The same journal hopes the Prussian Legislative Chambers, by passing a bill of indemnity, will end the conflict with the Government.

The municipal authorities of Berlin have presented an address to the Crown Prince of Prussia, sympathizing with him in the affliction caused by the death of his infant son, and eulogizing his war glory and military achievements in behalf of Prussia. The Crown Prince, in returning thanks, pointed to the joyous prospect about to be realized, which would fulfill the just hopes of Prussia and the nation.

FLORENCE, Aug. 8.—There was a severe storm in the Adriatic yesterday, by which several vessels of the Italian fleet were damaged. The Italian iron-plated *Affondatore* was sunk in the port of Avonora. Crew saved.

The term of suspension of hostilities has been prolonged. The peace negotiations between Austria and Italy will take place at Prague. Count Bairoli and Gen. Monaldi will be the Italian Plenipotentiaries.

LONDON, Aug. 9.

The war in Europe is probably not ended.

The military preparations of France point to hostile intention on the part of Napoleon III. his demands for the extension of the frontier of France to the Rhine are not peacefully complied with.

Authentic information from private sources confirm the following, just received:—

PARIS, Aug. 9.

The French Cabinet has addressed a note to the Prussian government, pointing out that the great obstacle to the political organization of Germany is the necessity that the French frontier should be rectified by an accession of territory to France.

The French Cabinet made yesterday a further communication to the Cabinet at Berlin, demanding restoration of the French frontier as it existed in 1814. A Berlin despatch of the 10th says there is great excitement there in consequence of the demand of France on Prussia.

M. Benedetti left Berlin for Paris on the evening of the 9th.

A Cronstadt despatch of the 10th says the United States squadron had a grand Imperial and popular reception.

The Czar visited the vessels at Cronstadt and took the chief officers to dinner with him.

After dinner the Emperor toasted the prosperity of the U. S., an uninterrupted friendship with Russia.

LONDON, Aug. 10.

The session of Parliament has been closed.

The Queen's speech on the occasion of the dissolution returns thanks to the Government of the United States for the action taken by it in the matter of the late Fenian raids on Canada.

The speech also expresses the Queen's gratification at the success of the Atlantic Cable.

The remainder of the address from the Throne related to House questions.

Napoleon had asked from Prussia an extension of the frontier of France.

LONDON, Aug. 14.

The Prussian Government has informed the Emperor of France that this demand for the extension of the frontier of his Empire, to the banks of the river Rhine, cannot be complied with, and that the Prussian territory there sitsuate will never be added to France.

PARIS, Aug. 14.

The *Monitor* of this morning argues that the course of Napoleon in the recent negotiations has been guided entirely by his endeavours to preserve the peace of his own Empire and of all Europe.

COMMERCIAL.—*London, 14th.*—Consols are quoted this noon at 98½ for money. American securities—U. S. 5's are quoted at 68½.

UNITED STATES.

EMIGRATION FROM EUROPE.

The rush of people from the old to the new world is rapidly upon the increase. It is estimated that a quarter of a million of immigrants will land at New York alone during the current year.

THE CHOLERA IN NEW YORK.

has been very severe in some of the low tenements where vice of all sorts is rampant. It is said that every case occurring in the better circles of society may be traced to some imprudence in eating or drinking.

THE NEW ORLEANS RIOT.

which occurred on the 28th ult., was a very serious affair. Fire arms were freely used, and martial law proclaimed. About 80 negroes and several white men were killed.

HERMANN WARD BURNER'S NEW ORGAN.

is the largest ever built on this continent. It cost \$21,160. The case covers 3,442 pipes. The machinery and bellows are worked by water-power. Its construction is said to be wonderful, and its tone excellent.

THE WILD LANS.

in the Western States are being taken up by actual settlers at the rate of 40,000 acres per month.

Our American Cousins think it strange that there is no favorable response in the British Provinces to the annexation resolution of General Banks.

THE ANNUAL ELECTION.

in the several States of the American Union will occupy the next three months and will produce intense excitement. The policy of President Johnson will pass under review, to be approved or condemned according to the political sentiments of contending parties. The Republican party is expecting to triumph by overwhelming majorities.

GREAT FRAUDS.

upon the government have been practised recently by the whiskey distillers of Philadelphia. What is the whole liquor business but a consummate fraud from beginning to end.

THE CROPS.

in the Western States are highly satisfactory.

HEAD CENTER STEPHENS.

has addressed a proclamation from his headquarters, New York, telling his dupes that the battle for Irish freedom will come off this very year on Irish soil.

QUICK PASSAGE.—The steamer *New England*, Capt. Field, which arrived here on Saturday from St. John, N. B., made the passage in twenty-three hours, which is said to be the quickest time on record. *Boston Journal*, Aug. 18.

NEW YORK, Aug. 12.—The official returns of the Board of Health for yesterday show a gratifying decrease of the cholera in this city. Only three new cases were reported. The majority report for the week it is believed will not exceed 800 deaths from the same cause. There had been no deaths for the 24 hours preceding at the public institutions from cholera.

Twenty-eight cases and eleven deaths were reported in Brooklyn for the same period, with a slight increase in the number of the sick on Governor's Island.

PHILADELPHIA, Aug. 12.—The report of the Board of Health shows 43 cases of cholera, and 9 deaths for the week ending yesterday. The disease has almost entirely disappeared within the last two days.

ST. LOUIS, Aug. 11.—Twenty-four cases of cholera, six of which were fatal, were reported to the Board of Health for the twenty-four hours ending at noon to-day.

This is the season of the year when children teething are almost sure to have dysentery and diarrhoea. Mrs. Winslow's *Soothing Syrup* is a never-failing remedy. It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly cure griping in the bowels and wind colic. Mothers, don't fail to procure it.

This want of a good Condition Powder has long been felt by horsemen, which we are pleased to announce has been fully met by the proprietors of Sheridan's Ovary Condition Powder.

Thirty Lines of Common Sense.

Reader, having glanced over the editorials and the news in this journal, you turn to the advertisements, saying to yourself, "These are published by the writers to serve their own interests."

Perhaps so. But it is no less true that it concerns your interest to read these thirty lines. If you are healthy it is presumed that you wish to continue so. If sick, of course you desire to be relieved. In either case it is important to you to know that *HOSWICK'S BITTERS* are the safest, surest, and best tonic and alterative ever advertised in any country. This is a period of the year when the strongest need an invigorant, for the oppressed heat drains the system of strength faster than the most potent and vigorous organism can recruit it. Therefore as a preservative of health, as a protection against the devastating action of heat and the malaria it produces, you should sustain the good constitution and sound stamina with which Nature has blessed you with this *PERFECTLY VEGETABLE TONIC*.

It can scarcely be necessary to urge upon the weak and ailing the importance of securing by safe means the strength which unassisted Nature denies them. All who are thus circumstanced are invited to give the bitters a trial. Before they have taken the elixir three days, in conformity with the directions, they will acknowledge with gratitude its genial operation. They will find that it imparts mental as well as nervous energy, and regulates all the internal functions admirably. This is the experience of the debilitated and depressed, and in making these statements the proprietors only echo the language of innumerable testimonials.

THE PEOPLE'S FRIEND.

PERRY DAVIS' VEGETABLE PAIN KILLER possesses virtue which no other removes pain instantly, but regulates the stomach, gives strength, tone, and vigor to the system. It is one of the medicines that it is worth more than gold.

Don't experiment in testing new remedies, when you can buy the genuine *Pain Killer*, which everybody knows to be good.

The *Woodstock* (C. W.) *Sentinel* says: "It is a generally admitted fact, that the medicine manufactured by Messrs. Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommends the *Pain Killer*, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain."

For THROAT DISEASES and Affections of the Chest, *Brown's Bronchial Trochee*, or Cough Lozenges, are of great value. In Coughs, Irritation of the Throat caused by cold, or Unusual Exertion of the vocal organs, in speaking, in public, or singing, they produce the most beneficial results. The Trochee has proved their efficacy.

An ESTABLISHED REMEDY.—Johnson's Anodyne Liniment is extensively known, as an established remedy for Coughs, Colds, Bronchitis, Hoarseness, and other troubles of the Throat and Lungs.

Special Notices.

The Western N. B. Baptist Association will hold its next Anniversary with the Baptist Church of Newcastle, Miramichi, commencing September 20th.
