By the Treasurer's report it will be seen that the necessary repairs and alterations, and the introduction of hot water, &c., has exceeded the sum placed at the disposal of the Board from the Ladies' Bazaar. The liberality of individuals, however, has enabled them to meet all demands.

The Board would take this opportunity to cordially thank the Ladies' Committee, for their assistance during the year, and to express their hearty approval of the management evinced in the Institution.

To the Medical Gentlemen who have so kindly and gratuitously given their services, they return their grateful thanks.

And to the Proprietors of the several newspapers who have inserted the notices in connection with the Institution, they tender their grateful acknowledgments.

In conclusion, they would remind the donors and public generally that the Institution is open to visitors every Thursday from 2 to 5 P.M., and they trust a personal inspection of the "St. John Protestant Orphan Asylum," may lead to the continued liberality of our appreciative and discerning public.

W. SCOVIL, Sec. P. O. Asylum.

JOHN BOYD, Treas.

Deaths in the Halifax Ministry.

The *Messenger* and *Witness* bring to us the painful intelligence that Rev. J. J. Joplin, pastor of the Tabernacle Church in Halifax, and Rev. Thos. Crisp, curate of St. George's Church, Halifax, have both been suddenly summoned to their reward. The former was a native of Lynn, England, and educated in Mr. Spurgeon's college. He came from England some year and a half ago, to take charge of the Tabernacle church. We saw him last summer; he was then the image of perfect health. His ministry was highly acceptable; his sudden death is deeply regretted. He has left a widow and helpless famiy. May God be their support!

Rev. Thomas Crisp departed this life on the same day. He fell a victim to typhoid fever. He was only 36 years of age, and has thus gone to his rest in the prime of his manhood. *Be ye also ready!*

The Noon-day Prayer Meeting

called a great many people together from day to day during the week, in the Institute, and the varied exercises were well adapted to quicken religious thought, to strengthen the bonds of christian union, and to stimulate to earnest endeavours to win souls to Jesus. We should like to see these meetings continued in some form throughout the year.

Union Services

commenced in Germain street Baptist Church on Tuesday evening; will be held in Brussels street Baptist Church this (Wednesday) evening; and in Germain street again on Thursday evening. May the Spirit descend upon these services in mighty power, to make them effective in the saving many precious souls.

AUSTRALIA.

Our papers by the last mail from Australia, inform us that the political embroglio, to which reference was made by our Australian Correspondent some weeks ago, still continues in all its force. The prospect of reconciliation between the lower and upper Houses is as distant as ever. Governor Darling takes part with his constitutional advisers and with the representative Branch, and has thereby subjected himself to a most violent opposition from the Upper House. They have carried matters so far as to enter a criminal prosecution at law against the Treasurer, the Attorney-General, and His Excellency Governor Darling. But by an arrangement with one of the Banks the Government is able to go forward with the public business, and meet the demands upon the Treasury; and sustained as they are by an overwhelming majority of the people, they will probably in the issue come off victorious. Both parties appeal to the Home Government, and thus the case rests at present.

The fact is, constitutional government by the voice of the people has always had to fight its way into existence. This is a well known fact in the political history of these Provinces, and as here so it will be at the antipodes; but in all free countries like Australia, all attempts to build up an oligarchy must prove abortive. The "sovereign people" will rule.

THE JAMAICA DISTURBANCES.—The resolution of the Government—says the *Christian World*—to send out a Commission of Inquiry to Jamaica, and to suspend Mr. Eyre, while the investigation proceeded, naturally had the immediate effect of quieting the public mind, and of leading to the postponement of many projected meetings. But for this tolerably prompt action on the part of the Queen's Ministers, the whole country would by this time have been in a painful state of excitement, the more so that fresh communications from the West Indes represent the number of negroes whose lives have been taken, as nearer four or five thousand than that number of hundreds. Every possible effort is being made by the defenders of Governor EYRE to blacken the character of Mr. Gordon in order to justify his murder. Even the editor of an English journal, who would rather the charges against Mr. Gordon, should be substantiated than disproved, remarks that, when we remember the infamous libels heaped by the Jamaica planters on the great Abolitionists, Zachary Macaulay, Mr. James Stephen, and others, we must accept these allegations with some reserve. Sir Henry Storks, the head of the Commission, left England for Jamaica on Monday, accompanied by Mr. C. S. Roundell, a barrister, as his secretary. The Government appears to find much difficulty in the selection of the other members of the commission. We are glad to hear of the formation of a very influential committee to watch the official inquiry. Its members include Mr. Charles Buxton, M. P., Mr. J. S. Mill, M. P., Mr. Bright, M. P., Lord A. Churchill, Sir T. F. Buxton, and Professors Cairness and Goldwin Smith. At a meeting consisting of gentlemen belonging to the Independent, Baptist, Wesleyan, Moravian, and Presbyterian denominations of the metropolis, held at Freemason's Hall, on Friday last, the Rev. Dr. Raleigh, in the chair, it was resolved—"That this meeting has heard with surprise and indignation, that a bill has been laid before the Legislature of Jamaica, by the Government of the island, for the regulation of religious worship—a bill which would destroy the liberty of worship and teaching hitherto enjoyed by the people of that island. That, nothwithstanding the withdrawal of the bill by the Government there is reason to believe that another of somewhat similar tenor will be brought forward. This meeting, therefore, begs respectfully to request of Her Majesty's Government that they will, in this and every such case, instruct Her Majesty's representative, the Governor of Jamaica, to refuse his sanction to any interference with the religious privileges of the people, and that Her Majesty's Government will continue impartially to secure to every class of Her Majesty's subjects in that island equal religious and educational priveleges."

☞ The opposition papers assert most positively that the Hon. Mr. Wilmot, having adopted Confederation views, has resigned his seat at the Council Board. The *Freeman* declares he has not. Time will soon settled the question in dispute.

☞ The destruction of the Sackville Academy by fire is a matter for deep regret. The following telegram contains the particulars as far as known here:

"A fire broke out at six this evening in the Male Academy, a large three story building. It is now 8.30, the building is completely consumed. There is nothing saved except the stores in the larder.

The students are all safe; no other buildings damaged."

The revenue received at the port of Halifax, N. S., is $880,478.01, being an increase of $68,517.44 beyond that of last year.

ENGLISH AND FOREIGN.

THE FUNERAL OF KING LEOPOLD.—The London daily papers all sent special correspondents to Brussels to record the funeral ceremonies attending the burial of Leopold, first King of the Belgians, which took place on Saturday. We thus learn that the late monarch was interred at Laeken, four miles from Brussels, with every mark of respect a loyal and affectionate people could pay, and with every circumstance of pomp upon which the esteem of neighbouring sovereigns and the attachment of home and foreign dignitaries could shed a lustre. The procession itself was upwards of a mile long. The Prince of Wales was dressed in field-marshal's uniform, and Prince Arthur and Prince Louis of Hesse in the Highland costume. The chamber of death, we are told, was lit up with dazzling brightness, with innumerable wax candles from crape-covered chandeliers and candelabras. Leopold was a Protestant, but yet a large silver crucifix had prominent place under the gorgeous canopy at the coffin's head. The late Queen having been a member of the Romish Church, arrangements had to be made for interring the body of the King by her side without going into the Romish chapel, because the Protestant Burial service might not be read within its walls. So Leopold's coffin was let down into the grave from the Protestant side of the little cemetery. The service was simple and solemn, and at its close the huge cavalcade turned homewards. The procession left Brussels in mourning, but on its return nearly all symbols of sorrow had disappeared, for immediate preparations had to be made for the inauguration of Leopold II., which took place next day in the presence of foreign representatives and of royal guests.

THE ATLANTIC TELEGRAPH.—Several hundred miles of the core or interior portion of the new Atlantic telegraph cable are completed. The *Great Eastern* is chartered to go to sea in June, 1866, for the double purpose of laying an entirely new cable and of raising the broken end of the 1,100 miles of cable laid this year, so as to splice additional cable thereto, and thus, if successful, furnish to the public a second means of communication. This 1,100 miles of submerged cable is ascertained to be in the most perfect order by daily tests taken from the time it broke, and still continued daily. The buoys at the end of it are washed away, "but this," writes Mr. Saward, "is of no consequence, as they were intended only for a temporary purpose, the spot for grapnelling having been laid down by solar observations, so that a good navigator can at any time sail to within half a mile of the broken cable."

Her Royal Highness the Princess of Wales has been pleased to show her interest in the Hospital for Consumption and Diseases of the Chest, Brompton, by a donation of £50 in aid of the funds of that useful charity.

The private fortune left by King Leopold is estimated at £3,200,000 sterling.

The *Times* announces the death, from cholera, at Paris, on Tuesday morning, of the Hon. William Grey, Secretary of Embassy at the Court of the Tuileries. Mr. Grey was a brother of Lord Grey.

ARRIVAL OF THE "SCOTIA."

NEW YORK, Jan. 12th.

Scotia with Liverpool dates 31st Dec., arrived.

Fenian trials were again progressing at Cork.

Another prisoner, James Mounlaine had been acquitted. Two regiments had been hastily sent from England to Dublin. One of them in garrison at Manchester was arroused at 3 a.m., and conveyed to Liverpool, 1,200 strong, early the same morning, and forthwith embarked for Dublin. Such energetic movements, of course, gave rise to rumors of serious danger.

La France denies the report from America that the French Minister has sent his first Secretary of Legation for instructions on the Mexican Question, and that he has given notice that he will withdraw if America sends a representative to Juarez.

Three Spanish frigates were about to sail for the Pacific.

There were rumors that peace between Spain and Chili was about to be concluded by European Mediation.

The Army and Navy Gazette believes the British Government has resolved on a very considerable decrease in the army. The leading feature will be the reduction of two companies in each battalion of the line, amounting in the aggregate to about 850 officers and some 16,000 men. One regiment of Cavalry is also expected to disappear.

The Board of Trade returns for November exhibit the extraordinary increase in exports of £3,500,000 sterling or 29 per cent over November 1864.

The *Times*, as usual, in its extended editorial is a resume of events of the year, a large portion being devoted to a favorable criticism on American affairs.

UNITED STATES.

CATTLE IMPORTATION FORBIDDEN.

The law against the importation of cattle, says the *Examiner*, of course affects Canada, and orders have been given to allow no more animals to cross the *line*. The Canadian dealers are greatly affected by this, as a very large number of beef and other cattle were constantly drawn from the Provinces to feed the great Northern cities. More than 40,000, already purchased by American dealers, will have to stay in Canada on account of this law. The rinderpest, or cattle disease, is still spreading in England, and every week enough cattle die to supply ten million persons with meat for one day. More than two millions of dollars' worth of animals have died in a few months from this mysterious disease. In the general ignorance concerning the strange malady, it has been suggested that it is caused by the Tsetse fly, which in Africa will kill a domestic animal in a few days. England has large dealings with Africa, importing, among other things, a great number of wild animals, and which could easily bring over the little pest, as they are not affected by the bite of the Tsetse, though it is certain death to a domestic animal. The fly is almost exactly like a common gadfly in appearance, and would not be noticed. Such is one suggestion, among a thousond which have no more reason in them.

THE NATIONAL DEBT.

The statement of the public debt on the first of January shows that there then was of debt bearing coin interest $1,167,148,291 80; of debt bearing currency interest, $1,179,475,245, 50; of matured debt not presented for payment, $1,166,880 32, and of debt bearing no interest, $459,519,950 37, making a total of $2,807,310,357 99. Deducting the cash in the Treasury, the public debt on New Year's day was $2,716,581,28619. Compared with the monthly statement of November last, the debt bearing coin interest has incressed $21,650; the debt bearing currency intererest has increased $1,944,086 40, and the debt bearing no interest has increased $90,775,206 84.

NEW YORK, Jan. 13.

A despatch from St. Louis says the ice in the Mississippi and Missouri Rivers broke up yesterday destroying and sinking four large steamers and a ferry boat. Loss $225,000, partially insured.

A Washington despatch says an unknown man called on Senator Wade, of Ohio, at his residence, Wednesday evening, and attempted to assassinate the Senator, but was foiled by the coolness and courage of Wade, who drew a revolver on the would-be assassin and drove him from the house.

Advices from Mexica state that the Imperialists had surprised a small camp of Liberals, killing 12 and capturing 30, who were to be executed under Maximilian's order.

Gen. Crawford addressed Gen. Witzel on the subject, asking him to prevent the murder; the latter replied that he had entered a solemn protest against this, but Gen. Wejin informed him that he was compelled to execute them by the orders of his government.

Col O'Mahony, yesterday, received a letter from Head Centre Stephens, cordially endorsing his action during the late trouble, and appointing a representative and financial agent of the so-called "Irish Republic" in this country.

WHO IS MRS. WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup, for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race: children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it mothers—try it now.—*Ladies' Visitor*, New York City. Sold by all Druggists. 25 cents a bottle.

BROWN'S BRONCHIAL TROCHES.—The beneficial effects resulting from the use of this remedy and its extensive use for Coughs, Cold, and Throat affections, has brought out many imitations, most of which contain injurious ingredients. The Troches have *proved* their efficacy.

POLAND WHITE PINE COMPOUND.—Dr. Poland has built up a large and lucrative business in the manufacture and sale of his well-known compound. It is said to be unfailing remedy for many of the ills which flesh is heir to, and is especially efficacious in complaints of the kidney, and also for coughs and common colds. No medicine can keep possession of the market for a very long time unless it has some real virtue to commend it. The public verdict in regard to this has been favorable, and the White Pine Compound is sold throughout the United States.—*Boston Journal.*

Thy will be done! I will not fear
The fate provided by thy love;
Though clouds and darkness shroud me here,
I know that all is bright above.

At Southampton, Jan. 1st, Miss Mary Akerley, aged 20 years. She was the subject of religious impressions at the age of 10 years. She mourned under a sense of sin for some time, but at last found peace in believing in Jesus. About four years after she professed religion, and was baptized by Rev. Daniel Outhouse, and united with the Baptist Church at Southampton, of which she was a consistent member until her death. She died of consumption, and although her sufferings were very great, yet she murmured not, but waited patiently until her change should come. She felt that to depart and be with Christ would be far better; then, far from a world of toil and strife, she would be present with the Lord; and when it came, she was ready. She raised her hands and said, "Come, Lord Jesus, come quickly!" and she was taken up to the throne, to share in the joys of her Lord. The occasion was improved by the writer, from Psalm cxvi. 16. May the Lord sustain the mourning relatives by his grace, until they meet in the kingdom of God!

GEORGE BURNS.

At Jemseg, November 28th, Martha, the beloved wife of Mr. Joshua Dykeman, aged 61 years. For many years our departed sister has been a consistent member of the Baptist Church in Jemseg. Possessing a somewhat retiring disposition, she was not often found on the mount of rejoicing, nor never found without a fixed resolution to cherish the pure principles of the Gospel. Her happy disposition and amiable manners endeared her to all who knew her. She was a kind and loving wife, devoted to the interests of her husband and family; an affectionate and indulgent mother, and an obliging neighbour. During her last illness, she was remarkably sustained by divine grace—her will completely swallowed up in the will of Christ, neither desiring to live nor die apart from the will of God. As she neared the closing hour of this life, and her faith looked full upon her Saviour and the glories of heaven, she longed to be gone, and her eye beamed with heavenly lustre. She exclaimed, "Come, Lord Jesus, come quickly," then pillowing her head on his breast, she sweetly fell asleep in Jesus—

Blessed sleep!
From which none ever wakes to weep!
A calm and undisturbed repose,
Unbroken by the last of foes.

She has left a sorrowing husband, two sons and three daughters, to mourn their loss. The funeral services were conducted by the writer, assisted by the Rev. Thomas Lockey. May God sustain the mourners.
