If our commerce increases during the next half century as it has done during the past thirty years, it will be considerably in excess of even what the commerce of the United States was before the war, and almost equal to the present commerce of Great Britain. This may startle some of our readers who have been inclined to imagine that Canada was slow-going place, lacking in enterprise and spirit. Our progress has been slow as compared with that of the United States, but is all the more likely to be table and continuous.

in the Institute, on Tuesday evening, was well received. He sketched briefly the gradual development of the wondrous powers of electricity, and their application to the telegraphic operations of the nations; gave a condensed history of the Atlantic Cable, from its first inception to its completion; unfolded with graphic distinctness the part which the Great Eastern performed in placing this work of consummate art upon its ocean bed; dwelt upon the salutary influence of this great international achievement upon the commerce, peace, happiness, and religion of the world, and closed with some well timed observations upon the progressive future of St. John, as one of the great commercial emperiums of British America. The lecture occupied some two hours in its delivery, and contained an immense amount of valuable information, which, though not quite new to all present, was thrown into a form which chained the attention of the audience from the beginning to the end. All per of the Charitable Association, for whose especial benefit the treat was given, we tender to Mr. Judd our most hearty thanks. OTOING GRAT

Wherever Hostetter's Stomach Bitters, the celebrated American prevention of Climate Diseases, have been introduced into unhealthy regions their effect in sustaining the health, vigor and animal spirits of those whose pursuits subjected them to extraordinary risks from exposure and privation, have been wonderful. In the army, the superiority of this article over every other invigorating and alterative medicine. has become so manifest where used, that it is relied upon, exclusively, as a protection against bilious fever, and bowel complaints of every kind. The soldiers say it is the only stimulant which produces and keeps up a healthy habit of body in unwholesome locations. For the unacclimated pioneer and settler it. is the most reliable of all safeguards against sickness. Throughout the United States it is considered the mos healthful and agreeable of all tonics, and altogether unequalled as a remedy for dyspepsia. The medicinal ingredients are all vegetable, and are held in solution by the most wholesome stimulant knownthe essence of rye. "Hostetter's Bitters," are manuactured at Pittsburgh, Pennsylvania, and no less than 40,000 dozen bottles are sold annually. For sale by all Druggists.

Her death-bed afforded scenes which well accorded with her Christian life and character, which well accorded with her Christian life and character, and which we trust will be long remembered by surviving friends. She seemed to experience the greatest delight in the visits and conversation of christian people, and her own conversation at such times was such as might be expected from one who had the better land full in view. She manifested the deepest interest in the spiritual welfare of those who appeared to be living in neglect of religion, calling them to her bedside, and in the most affectionate and earnest manner, exhorting them to attend to the concerns of their souls. As an affectionate wife and mother, she took the most tender leave of those nearest and dearest to her, and having commended them to the care of Him who is rich in mercy, she gave up all that pertains to earth, and her happy spirit took its flight to enjoy the presence of that Blessed Redeemer, whom she had loved and served on earth. The stain upon linen from its use is readily removed by washing with a little alcohol.

This Medicine is just celebrated for the cure of so many of the afflictions incident to the human family, has now been before the public over TWENTY YEARS. and has found its way into almost every corner of the world; and wherever it has been used, the same opinion is expressed of its medical properties. In any attack, where prompt action upon the sys-

tem is required, the Pain Killer is invaluable. Its

almost instantaneous effect in Relieving Pain is truly wonderful; and when used according to directions, is true to its name, a PAIN KILLER. It is, in truth, a Family Medicine, and should be kept in every family for immediate use. Persons travelling should always have a bottle of this remedy with them. It is not unfrequently the case when persons are attacked with disease, and before medical aid can be procured, the patient is beyond the hope of recovery. It has been used in Severe Cases the CHOLERA, and never has failed in a single case, where it was thoroughly applied on the first appear

Taken internally, should be adulterated with milk or water, and sweetened with sugar, if desired, or made into a syrup with molasses. For a Cough and Bronchitis, a few drops on sugar, eaten, will be found more effective than anything else. For Sore Throat, gargle the Throat with a mixture of Pain Killer and water, and the relief is immediate and the cure

ance of the symptoms.

It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with full directions for its use. Please Read the Printed Directions. Buy none but the Genuine, Manufactured by

The Mason & Hamiin Cabinet Organs were introduced four years since, and are a great improvement upon the Melodeon, Harmonium, and other reed organs, greatly excelling them, especially in the excellent quality and variety of their tones; in power and quickness of action, and capacity for expression.

Their success has been entirely beyond precedent, and proves how greatly such an instrument was needed.

For churches, sunday echools, &c., the MASON & HAM-LIN CABINET ORGANS are the instruments long wanted, of the very best quality, abundant power, not too expensive, nor liable to get out of order.

For private use, in drawing rooms, &c., they are not less desirable, and are finding a place in the musical families of the principal cities.

They are adapted to a wider range of music than the Plano, being better fitted for all sacred music and for much secular music, while their quickness of action is such that the most lively, rapid music can be played on them. Then their cost is greatly less, as well as their liability to get
