OUR INFANT has been brought safely through the critical period of teething by the aid of Mrs. Winslow's Soothing Syrup. We advise all parents to procure it - Mississippi Baptist.

It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and, by giving rest and health to the child, comforts the mother.

Improvements are continually being made in everything else, why not in medicine? We believe they are not exempt. Try a bottle of Blood's Rheumatic Compound and be convinced.

COUGHS AND COLDS. - Those who are suffering from Coughs, Colds, Hoarseness, Sore Throat, &c., should try " Brown's Brenchial Troches," a simple remedy, which is in almost every case effectual. The Troches have been tested by time, and pronounced universally superior to all other articles for the same purpose.

The Pain Killer Abroad.

The following correspondence will show something of the estimation in which Perry Davis' Pain Killer is held on the shores of the Mediterranean. It is not surprising that a medicine that receives such testimonials as this from abroad, should find well sustained and increasing appreciation at home.

U. S. Consulate. Tunis, Dec. 27, 1865.

To the Proprietors of Davis' Pain Killer, GENTLEMEN-The enclosed note has just been received from/my friend Tulin, late Consul General of Norway, Sweden and of Prussia in this place. No

Genoa, Dec. 16, 1865. DEAR SIR-Accept my thanks for this third supply of Davis' Pain Killer. This medicine has often relieved me of serious indisposition, and I would not on any account consent to be without it, both for myself and my family.

comment is needed. Truly yours, AMOS PERRY.

I have recommended it to my late colleagues and friends in Tunis and Genoa, and at my request one of the largest druggists of this city has sent an order to New-York to meet the demand in this place. Yours truly, G. A. TULIN,

Ex-Consul General of Sweden and Norway and of Prussia in Tunis. Hon. Amos Perry, United States Consul General,

At Buctouche, on the 24th ult., Meracious Atkinson, Esq., aged 62 years, deeply regretted.

On the 19th of March, et the residence of his nephew, Mr. Thomas A. Currie, for many years Governor of the Marine Hospital, Rachibucto, N. B.

At her late residence, in Wickham, on the 12th ultimo, Mrs. Susan Macdonald, wife of T. Earl Macdonald, Esq., aged 48 years. Sister Macdonald professed religion in her 21st year, was immersed by Rev. Wm. Beckwith; after which she lived 27 years an ornament to her profession, exerting a healthy influence in the Church of Christ, of which she was a member. It was remarked on her funeral occasion, by one who knew her, that she lived a blameless life. Our sister has left a sorrowing husband, two sons and four daughters, with the hope of meeting them where sorrow and sighing shall be no more. The funeral sermon was preached from these words, "Blessed are the dead which die in the Lord," &c. Rev. xiv. 13. John M. Curax.

The subject of the following obituary, Peter McEwen, jun., was born in Perthshire, Scotland, on the estate of Sir John Campbell, Marquis of Breadsibane. He emigrated to this Province with a relative, thirty years age; his father, Peter McEwen, was a lay preacher among the Scotch Baptists in his own country; he also came to this family with him. After ten years residence in St. George, he moved to Canada, and there died. His son, Peter, and one sister, remained in this country until death was commissioned to remove him to the spirit world. Bro. McEwen professed faith in the Saviour about 25 years ago, and was immersed by Rider Walker, with many more; he united with the church at St. George, and continued in its fellowmen to turn to the Lord. He died on the Fist of March, in the sure and certain hope of a glorious immertality. The day previous to his death he had great enlargement of soulinspiring influence, and exhorted, yea even preached to all around him, and at

brother, where he remained until the month of March, and was then suddenly taken sick. After remaining a few weeks, he left for home, and through much fatigue, he arrived, and lived but two weeks after. His sufferings were great, but were borne patiently. The occasion was improved by Rev. B. N. Hughes, from Eccles. xit. I, to a large congregation of mourners and friends.

At Centreville, on the 15th ult., Samuel Grage, in the 22d year of his age. This young man leaves a large family to mourn their loss, an aged father and mother, and several brothers and sisters; but they are comforted with the assurance that the Saviour was precious to him during the struggle of sickness and death. The funeral was largely attended, and a sermon preached to the youthful companious and friends of the deceased by Bev. B. N. MASON & HAMLIN, MANUFACTURERS OF CABINET ORGANS AND PORTABLE ORGANS,

Lodges, doc. Uniting to a considerable extent the capacity of the Piane Forte with that of the Pipe-Organ, and costing much less

ready for use.

Forty Styles, plain or elegant cases; one to twelve stops; Prices, \$75, \$90, \$110, \$125, \$180, \$140, \$150, \$160, \$170, \$200, \$225, \$250, \$300, \$485, \$500, \$550, \$600, and upwards. The Mason & Hamlin Cabinet Organs were introduced four years since, and are a great improvement upon the Melodeon, Harmonium, and other reed organs, greatly excelling them, especially in the excellent quality and variety of their tones; in power and quickness of action, and canacity for expression.

LIN CABINET ORGANS are the instruments long wanted,
—of the very best quality, abundant power, not too expensive, nor liable to get out of order.

For private use, in drawing rooms, &c., they are not less desirable, and are finding a place in the musical families of the principal cities.

They are adapted to a wider range of music than the Piano, being better fitted for all sacred music and for much secular music, while their quickness of action is such that the most lively, rapid music can be played on them. Then their cost is greatly less, as well as their liability to get out of order.

their cost is greatly less, as well as their liability to get out of order.

BRIEF EXTRACTS FROM OPINIONS OF DISTINGUISHED MUSICIANS:

I should think they would become very much sought after as parlor instruments as well as for public performance,—Sigismond Thalberg, the world-renowned Pianist. Sure to find its way into every household of taste and refinement which can possibly afford its moderate expense.

* * Far superior to everything of its class I have seen.—L. M. Gottschalk, the eminent Pianist. Such pure musical tones, promptness and smoothness of action and fine variety of effect, I have not found it any other instrument of the class.—S. B. Mills, the eminent Pianist. Really so excellent that there can hardly be much difference of opinion respecting them.—William Mason, the eminent Planist. The hast instrument of its class with which I am sequainted, and worthy a place in every drawing-room.—Harry Sanderson, the eminent Pianist. In every respect far superior te everything I have ever seen of the kind, whether in Europe or America.—George Washbourne Morgan, the eminent Organist, N. Y. I can only reiterate what so many in the musical profession have said, that for equality, promptness and exquisite tone, they are unequalled.—John H. Wilcox, the eminent Organist, Boston. Surpasses everything in this line I have ever seen, whether French or American.—John Zundel, the eminent Organist, N. Y. The best reed instruments in the world are made in the United States, and your Cabinet Organs are greatly superior, and by far the best made here.—Max Marettol, Musical Conductor, Boston. Exceeds in my estimation every other instrument of this general class.—Thos. Hastings.—I can recommend them with confidence.—Lowell Mason: As soon as the public become acquainted with the superior merits of your instruments, your only trouble will be to supply the demand.—Wm. B. Bradbary. I have never seen anything of the kind which interested mes os much.—Geo. F. Root. Exciting much interest in musical circles, and already becoming the

swell, prove its value. None of them, however, approach it in excellence and simplicity.

IMPROVED SELF-ADJUSTING VALVES (patented), secure much more perfect action, durability and freedom from liability to get out of order.

WOOD'S OUTAVE COUPLET (patented), in effect nearly doubles the power of the instrument in which it is used.

NOISELESS SAFETY VALVES (patented), prevent the hissing sound often heard.

The IMPROVED COMBINATION REGISTER (patented), gives great facility in drawing stops.

Their success has been entirely beyond precedent, and proves how greatly such an instrument was needed. Again and again the manufacturers have been compelled to double their manufacturing facilities, until they have increased six-fold.
