Patented February, 1867.

ONE OF THE BEST PHOTOGRAPHIC IMPROVEMENTS OF THE DAY.—Since the discovery of
Photographic paper printing, it has always been a great
desideratum to obtain an adhesive harmless substance as a medium for mounting Prints. Gum Arabic, Dextrine and other Gums have each had their day and have been reject-

ed for various reasons.

After great labour and expense we have succeeded in in venting and perfecting a purely Vegetable, Gum of most extraordinary adhesive properties, containing no deleterious ingredients whatever. It is in every respect superior to Guin Arabic for mounting prints. We beg to state it has the following advantages over every other Gum now in use in Photography ;
1st. Troos not Sour, Mould, Ferment or Decay by Age

2d. It dries very quickly and thoroughly. 3rd. Its light color, perfectly white when applied to paper. 4th. It will not injure the most delicate picture or color. 5th. It being sold in a liquid form saves all the trouble of boiling. 6th. Being very thinly applied, makes a saving of fifty per cent.
7th. The mounted print is much more brilliant than with any other Gum, Many other qualities makes it the ne p'us ultra of adhe sive Photographic Gums. One trial will convince all the extraordinary properties of this Gum. BOBINSON BROTHERS,

MASON & HAMLIN, MANUFACTURERS OF CABINET ORGANS AND PORTABLE ORGANS,
Adapted to Secular and Sucred Music, for Draw-

ing-Rooms, Churches, Sunday and Day-Schools, Uniting to a considerable extent the capacity of the Piano-Forte with that of the Pipe Organ, and costing much less

They occupy little space; are elegant as furniture; not liable to get out of order, and are securely boxed, so that they can be sent anywhere by ordinary freight routes, all Forty Styles, plain or elegant cases; one to twelve stops

Prices, \$75, \$90, \$110, \$125, \$130, \$140, \$150, \$160, \$170, \$200, \$225, \$250, \$800, \$425, \$500, \$500, \$600, and upwards The Mason & Hamlin Cabinet Organs were introduced four years since, and are a great improvement upon the Melodeon, Harmonium, and other reed organs, greatly excelling them, especially in the excellent quality and variety of their tones; in power and quickness of action, and capacity for expression.

Their success has been cutirely beyond precedent, and

proves how greatly such an instrument was needed. Again and again the manufacturers have been compelled to donble their manufacturing facilities, until they have increased six-fold. From the most eminent of the musical profession, the most distinguished plantsts, organists, composers and musical directors, the Mason & Hamlin Cabinet Organs er before bestowed upon any similar mosical instrument. More than two hundred and fifty of the most eminent musicians in the country have given written testimonials to the value of the improvements contained in them, and that they excel all other instruments of this classic Fifty-five Gold or Siver Medals, or other highest Premiums, have been awarded to Mason & Hamlin for the important improvements effected by them, and for the supe-

Constantly exhibiting their instruments in competition with others, they have been awarded the highest premium In every instance, but three or four.

For churches, sunday schools, &c., the MASON & HAM-LIN CABINET ORGANS are the instruments long wanted, of the very best quality, abundant power, not too expensive, nor hable to get out of order:

For private use, an drawing rooms, &c., they are not less desirable, and are finding a place in the musical families of They are adapted to a wider range of music than the Piano, being better fitted for all sacred music and for mach secular music, while their quickness of action is such that

the most lively, rapid music can be played on them. Then their cost is greatly less, as well as their liability to get BRIEF EXTRACTS FROM OPINIONS OF DISTIN-

I should think they would become very much sought after as parlor instruments as well as for public perfor mance.—Sigismond Thalberg, the world-renowned Pianist. Sure to find its way into every household of taste and refinement which can possibly afford its moderate expense \* \* Far superior to everything of its class I have seen L. M. Gottschalk, the eminent Plants. Such pure musical tones, promptness and smoothness of action and fine variety of effect, I have not found in any other instru-ment of the class.—S. B. Mills, the entirent Plants. Really so excellent that there can hardly be much difference of opinion respecting them. William Mason, the eminent Plantst. The best instrument of its class with which I am acquanted, and worthy a place in every drawing room.
Harry Sanderson, the eminent Plantst. In every respect
far superior to everything I have ever seen of the kind, whether in Europe or America. George Washbourne Morgan, the eminent Organist, N. Y. I can only reiterate what so many in the musical profession have said, that for equality, promptness and exquisite tone, they are medicalled and John H. Witcox, the eminent Organist, Boston, Surpasses everything in this lime I have even, whether French and American and Education of Trench and American and India of Tandel French or American .- John Zundel, the eminent Organist N. Y. The best reed instruments in the world are made in the United Mates, and your Cabinet Organs are greatly Carl Zerrahn, Musical Conductor, Boston: Exceeds in my-estimation every other instrument of this general class. Thes. Bastings. I can recommend them with confidence. Lowell Mason. As soon as the public become acquainted with the superior merits of your instruments, your only trouble will be to supply the demand.—Wm. B. Bradbury.
I have never seen anything of the kind which interested me so much.—Geo. F. Boot.—Exciting much interest in musical circles, and already becoming the fashion.—N. V. Home Journal. The highest accomplishment of industria this department. This is not our opinion, but the unan in our verdict of the organists.—Boston Advertiser. A glod-rious instrument for the temple service, so readily secured as to be available for any congregation, and effective and beautiful as to meet the desires of the most refined and fastidious. J.N. Y. Obserper. H. The MASON & HAMLIN CABINET ORGANS must not

be confounded with other seed instruments, from which they vary essentially, their superiority being largely derived from PATENTISD IMPROVEMENTS, which cannot be most important invention, and greatly the best swell ever devised; being much more effective and easily used than any other. The variety and beauty of effect of which it is most important invention, and greatly the best swell ever devised; being much more effective and easily used than any other. The variety and beauty of effect of which it is capable, cannot be appreciated except from actual use. The many attempts to imitate or find a substitute for this swell, prove its value. None of them, however, approach it in excellence and simplicity.
