alluding to the European Conference on the Roman question proposed by France, said he could not see that any good would result from a meeting of the European Powers in General Conference without a previous agreement as to the business upon which their deliberations should be conducted.

11. Obsequies of Allen, Gould, and Larkin were performed here to-day, and were the occasion of an immense manifestation of sympathy.

The proceedings were similar to those reported in London, Manchester, and Cork, but in numbers far exceeded any previous one. It is estimated that 50,000 men marched in the funeral procession. Good order was maintained all along the line, and the whole affair passed off quietly.

London, Dec. 9.—A despatch from Florence denies

the story that Garabaldi has again escaped from The North American Steamship Line and the In-

man Steamship Line will carry the English mail to America as well as the Cunarders. It is thought that the scheme of the European Conference for the settlement of the Roman question will be defeated by the speech of M. Rouher, which

indicates that the French Government has already prejudged the whole case. At a large meeting held in Dublin on Sunday a powerful speech was made by John Martin of Killarney, which is generally considered to have contained sentiments of a treasonable nature. Martin was formerly a prominent member of the Young Ireland Party, and was so associated with John Mitchell in the publication of the United Irishmen, and was exiled for participation in the Re-

the repeal of the Union, and is Chief of the Irish National League, an organization but indirectly, if at all, connected with the Fenian movement. His arrest is Funeral obsequies in honor of Allen, Gould, and Larkin, who were executed at Manchester took place at Limerick yesterday. The proceedings were quite imposing, over ten thousand persons walked in pro-

of President Johnson, and his expulsion from office, was seriously entertained by the extreme wing of the Republican party; hence a majority of the House Committee on the Judiciary reported in favour of such a measure; but, we are glad to learn, it has been frowned down by the good sense of the nation. The religious journals of the country, with but few exceptions, took a very decided stand against the movement. Had the vote for impeachment passed the Lower House, it is believed the Senate would not have sustained it. But a late telegram from Washington assures us that the resolve for the impeachment of President Johnson was defeated in the

ted attempts to get a foothold in the West Indies, is part of a scheme for the acquisition of all the West India Islands, as a future home for the freedmen of the Southern States. The great bulk of the inhabitants of Cuba, St. Domingo, Jamaica, and adjacent islands, are blacks; and the proximity of these countries to the Southern coast, would make it an easy matter to bring about the migration or deportation of the two or three millions of persons of color located in the States of the Southern sea-board. The tropical climate and luxuriant soil of these sunny isles would suit them exactly, and they would have a great advantage in settling down among people of their own race and nature. At the same time, the South would be glad to get rid of what many of them feel to be a dangerous and antagonistic element, and the fear of what they term "negro supremacy," they think, would then pass away from the whole country-or rather, we had said, from the Democratic party. In commenting on this, the New York Times observes: "We don't believe that Mr. Seward ever had any such idea in his territorial negotiations, either in Sitka (Russia) or St. Thomas (West Indies)."

In the House of Commons to-night Lord Stanley FELLOWS' COMPOUND SYRUP OF HYPO-PHOSPHITES.

For Nervous and General Debility, whether arising from a sedentary life, unhealthy occupation, a tropical climate, For Pulmonary Consumption, Bronchitis, Inward Wast-

For Dyspepsia or Indigestion.
For Rickets, Weakness of the Joints and Muscles, Loss of Appetite, Lowness of Spirits, Impurity of the Blood.
The effects produced are return of appetite, improved digestion, increase of flesh, good spirits, rosy cheeks and red lips, returning strength to the nervous and muscular system, and gradually all the functions of the body are restored to regularity, health and vigor. Its actions on the secretions of the respiratory organs are manifest in a very short time, the mucous and morbid matters are easily voided; it assists expectoration without depressing the pa-tient, (this alone is a very valuable discovery, as we have not in the history of medicine an expectorant which is not also a depressant,) hence the patient is relieved from those racking paroxysms of cough without being subjected to debilitating influences.

THE GENUINE FELLOWS' COMPOUND SYRUP OF HYPOPHOS-PHITES is put in pint bottles with our name blown on them, and sold at \$1.50 per bottle, or six bottles for \$7.50.

The Hypophosphites and Cod Liver Oil, \$1.25 per bottle, or six for \$6.

Prepared only by FELLOWS & CO., Chemists, St. John, N. B., who are the sole Proprietors and Manufacturers.

VICTORY COMPLETE. THE best families in St. John are full of praise in regard to SELEE'S HAIR LIFE. They say it restores grey hair so beautifully to its original color, removes all scurf and dandruff, and so effectually stops the falling of scurr and dandruff, and so effectually stops the failing of the hair; also that it is a most splendid HAIR DRESSING, rendering dry and brashy hair soft, glossy, and youthful. The Druggists also speak very highly of it, and do not besitate to say it is the very best Preparation sold. It is very popular too, in Nova Scotia; in fact, SELEE'S HAIR LIFE is the choice of all ladies of nice taste. Its superior neatness makes it a favorite. Sold by all Medicine Dealers.

ROGERS' MEDICINES A FTER a test of Four Years before the public, are still increasing in popularity, because they con inue to make cures unparalleled in the history of Medicines, as abundantly appears by the following, among hundreds of similar testimonials, from people of the highest respectability from all parts of the Lower Provinces.

CERTIFICATES: CANCER OF THE WOMB CURED. MESSES. Rogers & Co.—Gents: I have been cured by our wonderful Medicine of one of the worst diseases, as

I had been afflicted for several years with an internal Enmor, and four years ago I was taken sick with a fever ; the old complaint also revived. I had a Doctor attending me, but continued to get worse; we sent for another Doctor He pronounced it a hopeless case, and said I could not live long. He said the Tumor was then as large as a pint bowl, and was assuming a cancerous nature. I suffered more than tongue can tell. My friends expected me to die daily. They were called in to see me die, and I was reduced to a mere skeleton. I suffered in this dreadful manner for up-wards of two years. I at length, as a forlorn hope, was in-duced to try your medicine. The first lot seemed to make me worse, and I became discouraged; but the Rev. A. W. Barss advised me to continue. I did so, and soon begun to improve, and I am now well again, and a wonder to my-self and neighbours. I feel is one raised from the dead self and neighbours. I feel as one raised from the dead. I am a young woman of 26 years of age. I state these things for the benefit of suffering humanity, and I cannot begin to describe the severity of my case—it is widely known in

the County of Yarmouth, Nova Scotia.
Yours, with much gratitude, Lois A. Hatfield. We, the undersigned, friends of Miss Hatfield, have much pleasure in endorsing all she says above, and much more might be said of this most extraordinary case. MARIAH GAVILL.

ULCERATED CANCER CURED!

Who needs better proof than the following voluntary estimony of Mrs. HANNAH BALMAIN, of Wickham, N. B. : Some four years since there came a lump in my breast. ing it to three Doctors, they told me it was a "CANCER," and for which the knife would have to be applied; then again, I went to a female Doctor, who has been in the habit of curing Cancers by drawing them out, but she informed me that it was deep in the flesh and too long seated, and nust be done, I concluded to try your medicine, which w advertised in the Visiron. Accordingly, I sent for s w advertised in the Visiron. Accordingly, I sent for a can of Cintment and Powders for making the Syrup, which I used without the slightest change at the time. I began to think it was a failure, but concluded to give it another trial; consequently I procured another can of Cintment and Powders, and from its use it gathered and broke in two places, and discharged very freely for about six months, after which time it broke again in another place, and one of the old Ulcers healed up, the remaining two still remaining, one of which ran for two and a hall years, the other healing up in about two months after it broke, during other healing up in about two months after it broke, during which time I used your medicine regularly. I may here state, that the last Ulcer healed up about thirteen months ago, since which time I have enjoyed good health! Yes, I may say better health than I have enjoyed for years.

I remain yours, respectfully,
Mrs. Hannah Balmain.

The above was a very severe case of Scrofula of four of five years standing, and after having baffled the skill of the best Physicians and almost every other Patent Medicing and the child appeared to be on the verge of the grave, and the parents having lost confidence in every thing in the medical line, we undertook the cure for a certain sum, and if we failed were to get nothing; but we succeeded, as we do in every case of Scrofula we undertake.
