Such is the experience of thousands. Fow enjoy continuous health. To what does the occasional invalid attribute his uncertain condition? Not to himself, of course. He lays the blame on the climate, perhaps. It is too hot, or too cold, or too damp, or too dry, or too variable. But does he take the proper course to fortify the constitution and bodily organs against the extremes and changes of which he complains? No. He says, perhaps, that only an iron man could bear such great heat, or such violent cold, or such sudden vicissitudes. Why then does he not resort to the great Tonic and Preventive, which if it will not make him an iron man, will at least quadruple the capacity of his system to repel all external agencies that tend to produce disease? Hostetten's Celebrated Storections, will so strengthen the stomach, brace the nerves, tone the liver, and regulate and invigorate the whole animal machinery, that the system, instead of being at the mercy of the weather, and liable to be prostrated by every change of temperature, will become case-hardened, as it were, and almost impervious to climate influences. It is to this preventive principle that Hostetter's Bitters owe their great popularity in the West Indies, British America, and Australia

Among the problems of high science which Doctor presents is it, is the startling assertion that the friction of the tides upon its surface, retards the earth's revolution upon its axis, or holds it back with a force of six thousand millions of horse powers. Hence it is easy to see that without some counter force, the globe must rotate slower and slower, until ts revolutions wholly cease. Then with perpetual night on one side, and a degree of cold far below any now known, we should have on the other a " fervent at" from the sun, which would melt the rocks and te the mountains run like water. I am happy to say, that "Larookah's Indian Vegetable Pulmonic Syrap," which was kindly sent me, for the relief of the Bronchitis, from which I sedered so much during six years, seems to have completely restored me to health. Previous to taking this Syrup, had consulted many eminent physicians and tried a multitude of remedies prescribed by the medical faculty, and a great variety of patent medicines, with ittle permanent effect. Last winter and spring my strength was nearly exhausted; my cough and sore throat continued, and pains came on my left side, which were sometimes so distressing that I could not sleep nights. Hope of recovery almost expired -When I looked upon the dear partner of my life, then in tears for me, and the three precious jewels but recently set in the golden chain of affection, my heart sank within me at the thought that I must soon eave them, no more to return. But, unexpected as it was, this remedy was providentially sent me, and after taking about ten bottles, I find myself entirely relieved of my cough, sore throat, bleeding, pain in the side, and I feel as strong, vigorous, healthy, and happy, as I have been these twenty years. It seems, also, to have greatly fortified me against taking cold, o which I was extremely subject before. I can therefore, with the greatest pleasure and confidence, ecommend this medicine as preeminently adapted to restore to health and vigor those who are suffering from colds, coughs, throat and lung diseases, and consumptive tendencies. In my/judgment Dr. Larookah's I. V. P. Syrup, for Pulmonary Diseases, stand unrivalled by any medicine yet discovered .-From Rev. John C. Ingalls, Metrose, Mass.

We have been at some pains to ascertain what in strument of the many new soliciting the public favor combines the greatest amount of real excellence. We have prosecuted this inquiry entirely independently of aid or direction, from interested, parties. The opinions of some of the best musical critics, composers and performers have been obtained; reports of experiments made in the ordinary use of various instruments in churches, schools, and families, have been compared, all of which, with singular unanimity, concur in assigning the first place to the Cabinet Organ of Mason & Hamlin, a decision that corres ponds with our previously formed convictions received from personal observations, - New York Christian OLOTHES TRINGE STROADA

of their tones; in power and quickness of action, and capacity for expression.

Their success has been entirely beyond precedent, and proves how greatly such an instrument was needed. Again and again the manufacturers have been compelled to double their manufacturing facilities, until they have increased six-fold. From the most eminent of the musical profession, the most distinguished planists, organists, composers and musical directors, the Mason & Hamiin Cabinet Organs have received an amount and degree of commendation never before bestowed upon any similar musical instrument. More than two hundred and fifty of the most eminent musicians in the country have given written testimonials to

sicians in the country have given written testimonials to the value of the improvements contained in them, and that the value of the improvements contained in them, and that they excel all other instruments of this class.

If they five Gold or Siyer Medals, or other highest Premiums, have been awarded to Mason & Hamilin for the important improvements effected by them, and for the superiority of their instruments to all others.

Constantly exhibiting their instruments in competition with others, they have been awarded the highest premium

in every instance, but three or four.

For churches, sunday, schools, &c., the MASON & HAM-LIN CABINET ORGANS are the instruments long wanted, of the very best quality, abundant power, not too expensive, nor liable to get out of order.

For private use, in drawing rooms, &c., they are not less desirable, and are finding a place in the musical families of

They are adapted to a wider range of music than the Pi-

ano, being better fitted for all sacred music and for much secular music, while their quickness of action is such that the most lively, rapid music can be played on them. Then their cost is greatly less, as well as their liability to get BRIEF EXTRACTS FROM OPINIONS OF DISTIN-

GUISHED MUSICIANS: I should think they would become very much sought after as parlor instruments as well as for public performance.—Sigismond Thalberg, the world-renowned Pianist.
Sure to find its way into every household of taste and refinement which can possibly afford its moderate expense.

seep.—L. M. Gottschalk, the eminent Pianist. Such pure seep.—L. M. Gottschalk, the eminent Pianist. Such pure musical tones, promptaess and smoothness of action and fine variety of effect, I have not found in any other instrument of the class.—S. B. Mills, the eminent Pianist. Really so excellent that there can hardly be much difference of opinion respecting them.—William Mason, the eminent Pianist. The best instrument of its class with which I am acquainted, and worthy a place in every drawing room.—Harry Sanderson, the eminent Pianist. In every respect far superior to everything I have ever seen of the kind, whether in Europe or America.—George Washbourne Morgan, the eminent Organist, N. Y. I can only reliterate what so many in the musical profession have said, that for equality, promptness and exquisite tone, they are unequalequality, promptness and exquisite tone, they are unequal-led.—John H. Wilcox, the eminent Organist, Boston. Sur-passes everything in this line I have ever seen, whether French or American.—John Zundel, the eminent Organist, N. Y. The best reed instruments in the world ere made N. Y. The best reed instruments in the world are made in the United States, and your Cabinet Organs are greatly superior, and by far the best made here.—Max Maretzek, Musical Conductor, N. Y. Far surpasses all other similar instruments which have come under my observation.—Carl Zerrahn, Musical Conductor, Boston. Exceeds in my estimation every other instrument of this general class.—Thos. Hastings. I can recommend them with confidence.—Lowell Mason. As soon as the public become acquainted with the superior merits of your instruments, your only trouble will be to supply the demand.—Wm. B. Bradbury. I have never seen anything of the kind which interested me so much.—Geo. F. Root. Exciting much interest in musical circles, and already becoming the fashion.—N. Y. Home Journal. The highest accomplishment of industry in this department. This is not our opinion, but the unanimous verdict of the organists.—Boston Advertiser. A glorious instrument for the temple service, so readily secured as to be available for any congregation, and effective and beautiful as to meet the desires of the most refined and fastidious.—N. Y. Observer.

The MASON & HAMLIN CABINET ORGANS must not be confounded with other reed instruments, from which they vary essentially, their superiority being largely deri-ved from PATENTED IMPROVEMENTS, which cannot be employed by other makers. Among them are: The AUTOMATIC BELLOWS SWELL (patented),

The AUTOMATIC BELLOWS SWELL (patented), a most important invention, and greatly the best swell ever devised; being much more effective and easily used than any other. The variety and beauty of effect of which it is capable, cannot be appreciated except from actual use. The many attempts to imitate or find a substitute for this swell, prove its value. None of them, however, approach it in excellence and simplicity.

IMPROVED SELF ADJUSTING VALVES (patented), secure much more perfect action, durability and freedom from liability to get out of order.

WOOD'S OCTAVE COUPLET (patented), in effect nearly doubles the power of the instrument in which it is used.

NOISELESS SAFETY VALVES (patented), prevent the hissing sound often heard.

saing sound often heard.
The IMPROVED COMBINATION REGISTER (patented), gives great facility in drawing stops.
