Our next Provincial Exhibition is to be held in this city in October next. We hope our farmers, tradesmen, mechanics and all concerned will show a laudable ambition to make the affair a success.

We are not advised of any preparation to represent the products and skill of New Brunswick in the World's Exhibition to come off in Paris next summer. Not so with our sister Provinces. Why should New Brunswick remain in the shade !

The Freeman of Tuesday honors the Visitor with an extended notice of its editorial remarks of last week on the Reformatory question. If the Freeman has any arguments to offer in reply to the statements put forth by the Visitor, we shall be most happy to treat them with all due respect and attention; but

#### ENGLISH AND FOREIGN.

The Londoners have had their full share of snow for January, and have been subjected thereby to very serious inconvenience. For three whole days, we are told, the streets were rendered well nigh impassable for conveyances; by one night's fall of snow the pathways became exceedingly dangerous. The blocking up of the great thoroughfares of mighty London was such as to completely paralyze, for a time, the general business of the city, and subject all classes of the people to great inconvenience and loss. The London storms and cold extended to the country districts with such severity, that the farmers lost great numbers of sheep and pigs.

It is authoritatively stated that the Queen will open Parliament in person.

During the year 1866, the National Lifeboat Institution, London, rescued, it is said, eight hundred and sixty six lives, and fifteen vessels from shipwreck.

LONDON, Jan. 80. - It is stated that members of the British Cabinet freely express the hope that peace of Europe will be preserved in spite of threatening ap-pearance of affairs in the East. Search of baggage of foreign travellers in England and France will, hereafter, be merely oominal.

#### A Family Medicine.

Davis' Pain Killer is a purely vegetable compound, and while it is a most efficient remedy for pain, it is a perfectly safe medicine, even in the most unskilful hands. For summer complaint, or any other form of bowel disease in children or adults, it is an almost certain cure, and has, without doubt, been more successful in curing the various kinds of CHOLERA than any other known remedy, or the most skilful physician. In India, Africa, and China, where this dreadful disease is ever more or less prevalent, the Pain Killer is considered by the natives, as well as European residents in those climates, A SURE REMEDY. Sold by all medicine dealers.

Dr. A. Johnson, in an extensive practice of over twenty years, invented and used Johnson's Anodyne he will not expect us to reply to mere personal vitu- Liniment. It has now been in use more than forty years, and has established a reputation unsurpassed by any other medicine.

THE BEST MUSICAL INSTRUMENT FOR THE FAMILY .--The piano-forte," says the American Baptist, "extensively as it is used, is not so well adapted to all the purposes of sacred and secular music as another instrument which is now justly claiming a large share of public attention, and which has already been extensively introduced into schools, churches, and families, and received the endorsement of the chief organists, musicians, and artists of America-we mean Mason & Hamlin's Cabinet Organs."

IT WORKS TO PERFECTION .- Mrs. Winslow's Soothing Syrup, for children teething, is perfectly harmless. It produces natural, quiet sleep, by relieving the child from pain, and the little cherub awakes as · bright as a button." It cures wind colic, regulates the bowels-gives rest to the mother and health to the child. Offices, No. 48 Dey Street, New York, and No. 205 High Holborn, London, England.

CATABBH. - The origin of Catarrh is in most cases A Neglected Cold, which can be relieved by the use of "Brown's Bronchial Troches," by soothing the irritated and inflamed membrane extending from the nose to the throat. For Couglis, and Throat Diseases the Troches are of great service.

not possess that power over disease which at one time it was credited with, but combined with other and more powerful remedial agents its use is often followed by astonishing results. It is acknowledged by the medical faculty that Dry Larookah's Sarsaparilla Compound is not only the best but the cheapest combination of Sarsaparilla ever made available to the public. For Pulmonary Consumption, Bronchitis, Inward Wast-ings. For Dyspepsia or Indigestion. For Rickets, Weakness of the Joints and Muscles, Loss of Appetite, Lowness of Spirits, Impurity of the Blood. The effects produced are return of appetite, improved digestion, increase of flesh, good spirits, rosy cheeks and red lips, returning strength to the nervous and muscular system, and gradually all the functions of the body are re-stored to regularity, health and vigor. Its actions on the secretions of the respiratory organs are manifest in a very short time, the nuccus and morbid matters are easily void-ed ; it assists expectoration without depressing the pa-tient, (this alone is a very valuable discovery, as we have not in the history of medicine an expectorant which is not also a depressant, hence the patient is relieved from those racking paroxysms of cough without being subjected to debilitating influences. Again and again the manufacturers have been compelled to dou-ble their manufacturing facilities, until they have increased six fold. From the most eminent of the musical profes-sion, the most distinguished minists organizes, composers six-fold. From the most eminent of the musical profes-sion, the most distinguished pianists, organists, composers and musical directors, the Mason & Hamlin Cabinet Organs have received an amount and degree of commendation nev-er before bestowed upon any similar musical instrument. More than two hundred and fifty of the most eminent ma-sicians in the country have given written testimonials to the value of the improvements contained in them, and that

they excel all other instruments of this class. Fifty five Gold or Siver Medals, or other highest Premi-ums, have been awarded to Mason & Hamlin for the im-

For private use, in drawing rooms, &c., they are not less desirable, and are finding a place in the musical families of the principal cities. They are adapted to a wider range of music than the Pi-ano, being better fitted for all sacred music and for much secular music, while their quickness of action is such that the most lively, rapid music can be played on them.
