October, 1865, cost \$724, Mr. Smith's delegation to Washington cost \$723.11, and the delegation to the West Indies, \$2,175.93. The returns of the last delegation to England show that \$6,419.99 was paid by the Province, and £2,400 sterling advanced by Baring Brothers. This makes a sum of \$25,000 spent in delegations during the last two years. Verily, as Sancho Panza would have observed, "Delegation is a costly horse to ride and not always a sure;" yet I doubt if any one will grumble at the cost of the last, which was in every sense of the word a marked success, and the expense of which falls on the whole

FREDERICTON, May 31.

A long debate on the County Court Bill, opposed in some of its provisions by Kerr and Johnston as well as Smith; but supported by the friends of the

Government generally.

Skinner moved the House into Committee on papers relating to the claims of P. E. I. Steam Navigation Company arising out of arrangement made by the Smith Government in 1865 with the Company to place the steamer Princess of Wales on the North

Skinner moved that a blank sum be given to the Company in liquidation of the claim, he supported in

a speech of great length.

After a long discussion the claim was negatived by a vote of 16 against 14.

FREDERICTON, June 1. On motion of Mr. Wetmore and Committee, was appointed to prepare a joint address from both Houses to be submitted to Her Majesty relating to trade be-

tween this Province and the United States. Botsford introduced a bill to incorporate per styled the President and Directors of the Eastern Bank. [We presume this is to take the place of the defunct Westmorland Bank. - ED. C. VISITOR. Skinner asked for a bill to incorporate a new Bank

The County Court bill was again resumed and oc cupied considerable time. Mr. Tilley gave notice that the House would go into supply next week.

IN THE LEGISLATIVE COUNCIL Mr. Hazen put a question to the member of the Government as to the course the Government had taken in reference to Western Extension. Rumors were rife out of doors on the subject.

Mr. Mitchell replied that the Government had decided to take stock on Western Road to the extent of \$300,000, on condition that Company got at least \$300,000 more taken up. They expected to get \$450,000. The subsidy at \$10,000 per mile was \$800,000. Government stock \$300,000. The Stock Company believe they could get subscribed \$450,000. The original subscriptions was \$200,000, making in all \$1,750,009. The estimate of cost was \$300,000. 000. The company should have no difficulty in floating bonds to make up the balance. Had this application been made to a Government three years go, he would have resisted it, not from opposition to the scheme, but because he would not have considered it right to obsorb revenues that might be necessary to build the Intercolonial; but that now that the British guarantee had secured that he felt re lieved and could support the appropriation, and he hoped the line would be built.

Steeves was pleased at the course the Government had pursued. He gave statistics of cost and indicated that western route for the Intercolonial Railway might be adopted.

Hazen also approved of course the Government

oursued. He thought they had acted liberally, and felt that the road would be built, and therefore it was now, so far as St. John was concerned, of less connce where the International was located. He believed it would be by Major Robinson's route; the western one was out of the question, and as for the central route it was a visionary scheme. Mitchell thought that Steeves ought not to desire

all the road to the South and West. There were two sides to the Province. Todd thought care should be taken to keep the

control of the western line in our own hands, and that the work could be done for less than was esti-

would be adopted.

Mitchell said the Company would have control of Western Extension, and that he was glad to find that

The most of the company would have control of Western Extension, and that he was glad to find that the Major Robinson line was admitted to be the best by his hon. friends from St. John, and his friends

House then adjourned, the whole debate having been both agreeable and instructive. FREDERICTON, June 3.

Bill relating to paved sidewalks in St. John, pas-sed in Committee.

Bill to authorize assessment in St. John on account of Agricultural Exhibition, agreed to in Committee. On motion of Fisher House went into Committee on Bill to establish County Courts. Botsford in the

Fisher explained provisions of the Bill which was intended to make justice cheap and relieve the Supreme Court. He thought they would all agree as to principle of the bill and matters of detail could easily be settled. This matter was discussed at Conference at London, and it was understood that such a Bill should be introduced. FREDERICTON, June 4.

The dual Representation Bill was read a third time House went into Committee on Bill to extend Gaol

limits in St. John over the entire County Skinner moved that it be postponed for three months; which was carried by a vote of 16 to 14.

Mr. Tilley introduced a bill relating to the tariff; Skinner a bill to incorporate the Merchant's Bank of St. John. Bill relating to Woodstock Railway agreed

Bill relating to collection of taxes and small debts in the Parish of Portland, agreed to in Committee

after striking out second section.

A messenger from the Legislative Council announced that they had agreed to the following bills:

Bill to authorize the Trustees of St. Andrews Church, Chatham to sell the old Church. Bill to revive and continue certain Acts relating to highways in the Woodstock road district.

Bill to amend the Act for the Extension of Water

Bill to incorporate Richibucto Boom Company.

Bill to provide for establishment of an Alms House in Northumberland.

Bill relating to admission of Attorneys.

Who appreciates the fact that there is any great importance attached to such a commodity as a PILL? It is generally supposed that any body can make them, as all can take them. But visit the laboratory of Dr. J. C. Ayer, and you will be disabused of the idea, that it is a trifle to make any medicine and adapt it to the wants of millions of mento so adjust it to their needs, and so cure their complaints, as to make them its constant customers in all the zones. Physicians find it requires some skill to adapt their doses to a single patient : ask them if it is not an intricate problem to adjust a purgative pill to the necessities of untold numbers, so that it shall benefit them nearly all. Dr. Ayre's laboratory supplies 60,000 doses of his pills per diem, 19,000,-000 a year. Think of that Esculapius! Well may it whiten the head of any man to administer to that amount of suffering, and especially when, as is here evident, everything is done with the extremest nicety and care. - Randolph (Vt.) THE MASON & HAMLIN CABINET ORGAN. - The most successful manufacturers of reed instruments are the Messrs. Mason & Hamlin, of New-York and Boston, whose Cabinet Organs have received upwards of fifty first prizes at the American Fairs, and are pronounced unsurpassed by a list of musical celebrities as long as from here to France. The beauty of the cabinet work displayed in these valuable instruments is calculated to arrest the attention of even the most casual observer, being far richer and more ornamental than anything shown in the manufacture of pianofortes. The Cabinet Organ is designed for the use of schools, churches, and chapels, and for parlour purposes .- New York World.

For Pulmonary Consumption, Bronchitis, Inward Wastings.

For Dyspepsia or Indigestion.

For Rickets, Weakness of the Joints and Muscles, Loss of Appetite, Lowness of Spirits, Impurity of the Blood.

The effects produced are return of appetite, improyed digestion, increase of fiesh, good spirits, rosy cheeks and red lips, returning strength to the nervous and muscular system, and gradually all the functions of the body are restored to regularity, health and vigor. Its actions on the secretions of the respiratory organs are manifest in a very short time, the mucous and morbid matters are easily voided; it assists expectoration without depressing the patient, (this alone is a very valuable discovery, as we have not in the history of medicine an expectorant which is not also a depressant,) hence the patient is relieved from those racking paroxysms of cough without being subjected to debuitating influences.

The Genuine Fellows' Compound Syrup of Hypophosphites is put in pint bottles with our name blown on them, and sold at \$1.50 per bottle, or six bottles for \$7.50.
