FEINIANS ON THE MOVE.

New York papers report preparations in that city by the Fenians on a mammoth scale, to assail Canada. In one factory guns of small and large calibre are being manufactured at the rate of 300 a day. This has been going on since January, 1866. Besides this, three or four tons of grape and canister shot have been manufactured daily—a good pile by this time. In New York alone the Fenians, it is said, have stored away artillery and ammunition enough to supply 100,000 men for six months. Dame Rumour says that a grand Fenian movement on Canada is shortly to be made from New York.—Hay has been selling in Concord, New Hampshire, for \$35 per ton. Dear keeping stock at this rate.—Arch-bishop Kenrick, of St. Louis, has bought a lot of land, on which he intends building a cathedral at the enormous cost of two millions of dollars.—A demon in St. Paul, Minn., murdered his young bride for the sake of pocketing an insurance upon her life.—Grasshoppers are committing fearful ravages in Kansas and Western Missouri.—Political meetings in the South are producing trouble in the prominent cities.—It is said that Jeff Davis is writing a history of the late war.—The majority report of the Legislative Committee recommends the issuing of licenses to innkeepers, victuallers, apothecaries, and wholesale dealers.—Harvard College has bought of the Baptist Society a lot for \$29,000—a lot which sold a few years ago for \$3,000.—A woman by the name of Davis, of Salem, Mass., was frightened to death the other day by thunder.—A circus was lately refused to exhibit at Lee, Mass., lest it should disturb the current of deep religious feeling prevailing in that place.—The Vermont Methodist Conference recently resolved to admit no one to membership who used tobacco in any form.—Fifty-two persons were recently baptized in the river St. Auburn, Me., in the presence of 3,000 spectators.—The Peabody portrait of Queen Victoria is on exhibition in the great cities of the American Union.—New Orleans exported last year \$57,000,000 worth of cotton.

MEXICO.

If we are to believe Telegraphic despatches, poor Maximilian and his supporters are in serious trouble. A telegram from New York of the 24th inst., says: City of Mexico correspondence dated May 6th, says the bombardment was going on and the city was in a fearful condition. No water was to be obtained, except from artesian wells, which rendered only a scanty supply. Forced levies of men and loans of money were continually being made by Marquez; \$10,000 a day being required from various business houses, nearly all of which were closed in consequence. \$800 a day was demanded of one family. Provisions were scarce. The enemy did not care to prevent supplies from coming, but they were turned away at the gates by the exorbitant duties demanded by the Imperia officers. The rumored surrender of Queretaro is untrue—Maximilian was desirous to surrender but Mejia and Miramon, who virtually hold him as a prisoner in their hands prevented. A despatch of the 27th inst., says: The capture of Queretaro, Mexico, together with Maximilian and all his army is officially announced. The Liberal army had started for the City of Mexico. It is reported Juarez has ordered Maximilian to be shot. Advice from Peru state that the country is without an Executive. The President still refused to accept the resignation of the ministry, and Congress has passed a provisional law prohibiting the President from appointing any minister whose conduct had been censured by them. The yellow fever has broken out in Quaquilly and Lunaverano, causing great alarm and driving the residents to the interior. WASHINGTON, May 28.—The news of the capture of Queretaro, Emperor Maximilian and several of his officers by Juarez, creates considerable excitement in this city, particularly the report that Juarez has ordered the captives to be shot. Although Juarez did not give positive assurance to the United States messenger that Maximilian and his officers should not be shot, it is believed in official circles that he will regard the wishes of the United States authorities in this matter and spare the lives of his prisoners.

Perry Davis' Pain Killer. Rev. H. N. Van Meter, of Baseline, Ind., writes:—"Here let me assure you that we prize your Pain Killer very highly. For the first two or three years of our residence in India, we were ignorant of its valuable properties, and did not use it, but now would hardly feel safe to be without it for a single day. Only a few nights since Mrs. Van Meter was stung by a scorpion, and intense pain was instantaneous throughout the arm, and soon a numbness of all the fingers followed. By the continued application of the Pain Killer for an hour or more, and at intervals during the night, the alarming symptoms were subdued, and in the morning only a slight soreness was felt in the finger. I gave in a severe case of Fever and Ague, according to directions, and it acted like a charm, breaking it up at once. The Karens have great confidence in it."

Mr. W. L. Carpenter writes from Calcutta, "Perry Davis' Vegetable Pain Killer is a very valuable medicine, and most people here that have used it entertain a high opinion of its worth."

Ladies of Delicate Constitution and uncertain health, are strenuously advised to throw aside the nauseous and useless preparations with which they are accustomed to drug themselves, and test the hygienic, body-and-mind strengthening virtues of Hostetter's Celebrated Stomach Bitters. Its regulating properties are wonderful, and as a remedy for the languor, nausea, tremors, convulsions, hysteria, etc., which often accompany the development of womanhood, it has no equal either among the prescriptions of the faculty or advertised medicines. For the many distressing feelings which usher in and often follow the period of maturity, and also for the painful and dangerous symptoms which sometimes accompany "change of life," Hostetter's Bitters are earnestly recommended. No other restorative seems to suit so well the constitutions and organizations of the feebler sex. In all cases of female debility, where there is a want of bristal vitality, the Bitters produce a most important change—relieving local weaknesses, and re-establishing the general health. For sale by all Druggists.

Don't Fail to Procure Mrs. Worslow's Soothing Syrup for children's teething. It has been used for 30 years with never failing safety and success by millions of mothers for their children. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, and gives rest, health and comfort to mother and child. Thirty-five cents a bottle. Office, No. 45 Day Street, New-York, and No. 206 High Holborn, London, England.

WHAT DOCTORS, MINISTERS, AND PROFESSORS think of them.—"I recommend their use to public speakers."—Rev. E. H. Chapin. "I have never changed my mind respecting 'Brown's Bronchial Troches' from the first, expecting to think better of that which I began thinking well of."—Rev. Henry Ward Beecher. "Grant service in subduing hoarseness."—Rev. Daniel Wise, New-York. "The Troches are a staff of life to me."—Prof. Edward North, President of Hamilton College, Clifton, N. Y. "A simple and elegant combination for Coughs, etc."—Dr. G. F. Bishop, Boston.

Probably no disease (except epidemic diseases) has been more fatal than the Diphtheria. For a time it baffled the skill of physicians everywhere, and is still causing them careful and anxious study. The Acadian Recorder, published at Halifax, N. S., in speaking upon the ravages of Diphtheria in that Province, says: "As an internal and external remedy for that fatal scourge of our Province, Diphtheria, we are told that Johnson's Anodyne Liniment has no equal; effectually preventing, when used in season, and affording great relief to, and seldom failing to cure the most stubborn cases. No family should be without it."

Seminary Exhibition. We hope to see a good representation at the anniversary of our Seminary at Fredericton, on Thursday the 6th inst. We presume the river boats will grant the usual accommodation of going and returning for one fare. It is a splendid season of the year to visit Fredericton, and a delightful time is expected. Remember the meeting of the Executive Committee at the Seminary on Wednesday evening. It is understood that the ministers of the City, generally, will be in attendance. It is highly important that they should take as many of their members with them as possible. See what is said by the Principal about the alumni organization. Let us have a large gathering from city and country.
