LONDON, March 13. The House went into Committee of the Whole and

resumed the debate on the state of Ireland. The O'Donoghue, member for Tralee, said the dis-satisfaction among the Irish people was wide spread, and reached all classes of society, paralysing trade with the constant fear of its consequences. The Church and Land questions were the leading causes of discontent, but the principal cause of all was the refusal of independence in legislation. Ireland is now voiceless and helpless. The first remedies to be applied should be to deprive the Church establishment of its endowments, and grant to tenants leases of not less duration than thirty-one years.

LONDON, March 15. The Prince of Wales will make his expected visit to Ireland during the Easter holdidays. It is intimated that the occasion will be signalled by a Royal Proclamation granting partial amnesty to political offenders in Ireland.

Despatches were received last night from Abysin nia. Gen. Napier was about to send out a reconnoitering party to Lake Ashangee in the Tigre district. The Pacha of Egypt showed no disposition to withdraw his force from Abyssinia, as requested by the British Government; on the contrary, the Egyptians in camp at Massowah had received considerable reinforcements from the North.

LONDON, March 16. Despatches from the South announce that the Grand Vizier had returned to Constantinople from Crete. He reports to the Turkish Government that the war between the Turks and Cretan insurgents had at length ended-there were a few guerillas still operating in the mountain districts; they were hardly a bundred strong, and no fears were enter-tained of any fresh outbreaks.

The Corps Legislatiff was engaged last week in a

discussion of the new law in relation to holding public meetings, which was introduced by the Government. An important and comprehensive amendment to the bill has been offered by Liberal members. It proposes to remove all restrictions from the rights of the people to meet in public assemblies when and where they please.

Advices from Berlin state that Prince Napoleon after a series of flattering entertainments in his hon-or, has left for Paris. His visit to Germany has given rise to many surmises and rumors, and is exten sively commented upon by the Press; but his mission has not been divulged. His reception everywhere in Germany has been most cordial.

New York, March 09 .- Serious freshets are reported in various parts of the country, caused by the breaking up of river ice.

Late advices report the general situation of affairs in Mexico as unsatisfactory and fears of trouble are unavoidable. Incendiary fires, robberies and murders are of frequent occurrence in the capital, and the streets of the city are unsafe at night. Gold remains steady at about 1391.

ensed from telegrams to the morning papers ;-Unforescen expenses was passed, and the House went into Committee on the University bill.

Moore continued his speech, giving a history of the College from the foundation to the present time. He contended that its process had not been such as would justify the expenditure which had already been made for it. He made the statement that the whole number of students that had graduated there was 600, and the total cost to the Province £58,680 8s.

At the request of Moore, the debate, was adjourned.

At the request of Moore, the debate was adjourned before his speech was finished.

McAdam introduced a bill authorizing St. Stephen to take \$60,000 in the Branch Railway. He also presented two petitions against and one for it.

Beckwith introduced a bill relating to Central Bank of New Brunswick.

FREDERICTOR, March 14.

The University bill was then proceeded with, and after a lengthy debate, McQueen moved that the bill be postponed three months. House divided as fol-

Hibbard's Bill to facilitate the recovery of damages efore magistrates for the destruction of sheep by dogs, was agreed to. Lindsay's Bill to exempt Railways from County rates and taxes was committed and progress reported.

House in Committee on Homestead Bill which was

agreed to with a few verbal alterations, a Section being added to explain that the term Homestead should mean Leasehold as well as Freehold property. Peck gave notice of a resolution for the loaning to the Board of Agriculture the sum of seventeen thousand dollars for the establishment of a breeding farm. Dow's Want of Confidence Resolution then came up, who commented severely on extravagance of Tilley Government and sums of money improperly drawn, and that present Government was but a continuation of the Tilley Government, and therefore responsible for all their acts; they not having produced the accounts properly audited to the House according to law, had acknowledged themselves unfit

to govern the country, therefore they should resign. The Secretary said that necessary accounts had been before the House. How could they be held responsible for the acts of their predecessors? They had introduced measures of economy, grappled with questions other Governments had not dared to touch, now an attempt was being made to destroy them with a side wind. They could confidently appeal to the House and country for an endorsement of their acts since they came into office.

Mr. King said that no responsibility could attach to the present Government constitutionally for acts previous to 1st July last. At that time the constitution of the Province was wholly changed, the former responsibility of Executive Councillors ceased because their functions were altered; the Legislature denuded of its powers was only preserved in existence by a section of the Union Act. The central authority was changed; and as the former responsibility could not be carried over to the new regime, the responsibility ceased. He concluded by saying that the present Government had proved themselves worthy of confidence; they had been sparing of promises, but pro-

lific in good measures. Mr. Hibbard combatted this view of the case, and contended that responsibility still remained, for it was to the people that Governments were responsible. He read largely from the constitutional contest of 1851, to prove his position. The people's money had been squandered. Some one must take the re-sponsibility. He was not afraid to take the responsibility before the people of spending time in this discussion, for it would not do to have precedents or no responsibility created. He would appeal from Philip to Philip's master, and did not fear the result.

FREDERICTON, March 17.

A Bill to establish additional polling place in King's County was agreed to in Committee.

The Legislative Council have agreed to the Bill relating to the appointment of Coroners for the City of St. John without amendment. The Attorney General introduced a Bill to amend

the Act to establish County Courts. The Bill to abolish the office of Solicitor General passed in Committee. King introduced resolution to give premium for the

construction of composite ships. Moore introduced a Bill to appoint some of the graduates of the University to seats in the Senate of he same. A resolution to make an appropriation for the con-

struction of a public wharf at Richibucto was agreed to in Committee, The order of the day was then taken up.

Mr. Hibbard continued, and occupied nearly the whole afternoon. Mr. McQueen moved as an amendment that the House while it does not exonerate the Government from responsibility declines to express any opinion

To MR. JAMES I. FELLOWS,

Manufacturing Chemist, Saint John, N. B. We, the undersigned, have much pleasure in recommend-ing your Compound Syrup. After a fair and protracted trial of the same, we consider your preparation a very va-luable nervous tonic, far surpassing many others of consid-erable repute, and well worthy the confidence of the pro-

fession generally.

We beg to remain, yours, very truly,

Ma. JAMES I. FELLOWS, Manufacturing Chemist. SIR-For several months past I have used your Compour Sire—For several months past I have used your Compound Syrup in the treatment of Incipient Phthisis, Chronic, Bronchitis, and other affections of the Chest, and I have no hesitation in stating that it ranks foremost amongst the remedies used in those diseases. Being an excellent nervous tonic, it exerts a direct influence on the nervous system, and through it invigorates the body.

It affords me pleasure to recommend a remedy which is really good in cases for which it is intended, when so many advertised are worse than useless.

MR. JAMES I. FELLOWS, Chemist, St. John, N. B. DEAR SIR—Having used your Compound Syrup for some time in my practice. I have no hesitation in recommending it to my patients who are suffering from general debility, or any disease of the lungs, knowing that even in cases utterly hopeless it affords relief.

I am, Sir, yours truly,

H. G. ADLY, M. D. St. John, N. B., January 1868.

MR. JAMES I. FELLOWS, St. John, N. B.

Sir.—Having, while at your Establishment, carefully examined your prescription, and the method of preparing your Compound Syrup, I felt anxious to give it a fair trial in my practice. For the last twelve months I have done so, and I find that in Incipient Consumption, and other diseases of the Throat and Lungs, it has done wonders. In seases of the Throat and Lungs, it has done wonders. In restoring persons suffering from the effects of Diptheria, and the cough following Typhoid Fever prevalent in this region, it is the best remedial agent I have ever used. But for persons suffering from exhaustion of the powers of the brain and nervous system, from long continued study or teaching, or in those cases of exhaustion from which so many young men suffer, I know of no better medicine for restoration to health than your Compound Syrup. estoration to health than your Compound Syrup.

If you think this letter of any service you are at liberty

to use it as you see fit. I remain, yours, &c., EDWIN CLAY, M. D.
