

# THE CHRISTIAN VISITOR.

The news from Abyssinia is favourable, so far as it goes, but there is not much of it. In Seneca water is abundant, and there seems to be grass sufficient.

The chiefs of the different districts have been friendly enough. Money seems to be the key to their hearts.

The Alabama negotiation is closed for the present. Mr. Seward, in a despatch to Mr. Adams, almost as curt and civil in its style as those Lord Russell used to write to foreign Governments, declines to submit the dispute to arbitration unless Lord Stanley will allow the arbitrators to take into consideration the English proclamation of neutrality in 1861, which he condemns in unmeasured terms.

The cable despaches of the 18th and 20th contain the following intelligence:

When the Cunard steamship *Sofia* from New York for Liverpool entered the port of Queenston late last evening for the usual transfer of the London and Irish passengers and mails, a strong police force quietly went aboard and arrested Messrs. George Francis Train, Grinnell and Gee, three of the passengers who sailed from New York. It is understood that these gentlemen were taken into custody on the charge of being active members of the American wing of the Fenian organization.

A strict search of the person and baggage of G. Francis Train disclosed no proofs of complicity with the Fenian movement or justifying his arrest by the British police on suspicion of being concerned in Fenian ploting.

Train asserts he came over to England as the special correspondent in Ireland of the *New York World*. He has formally protested through the U. S. Consul against his detention, and declared that he was arrested upon no other ground of suspicion than the finding of an Irish paper in his trunk.

The police of Limerick have made a seizure of guns and ammunition found in the shops in that city to put them out of the reach of the Fenians.

Mike Manat, who it is now claimed is positively known to be the party who fired the fuse at the Clerkenwell explosion, has been arrested and brought to London in iron.

A Fenian manifesto was found this morning posted on the wall of the Mansion House, where it had been affixed despite the vigilance of the police, who have no clue to the perpetrator of this daring act. The boldness and audacity of the Fenians, in face of the vigorous measures of repression which have been adopted, excite much uneasiness.

The remains of the late Emperor Maximilian arrived at Vienna on the 18th by special train from Trieste, in charge of a military escort. The train was met upon its arrival by the Austrian officials, a large body of troops, and a vast crowd of people, who had assembled to give expression to their respect for the deceased, and their sympathy with the living. The remains were formally received by the imperial family at the palace. The manifestation of popular feeling is general and intense.

LONDON, Jan. 20.

The Paris *Patrie* in an editorial on the Eastern question, comments on certain mischievous articles on France and Prussia which have recently appeared in Russian papers, and declares that it is the evident desire of these journals to do all in their power to create discord and bring about a rupture between France and Prussia.

The *Epoque* says the Emperor is preparing and will soon cause to be issued a Manifesto assuring Europe that it is the desire and policy of his Government to maintain peace.

The American Minister to Prussia, Hon. George Bancroft, is now engaged in negotiating with the Prussian Government for the establishment of a new commercial treaty between the United States and the North German Confederacy.

The Government is about to commence legal proceeding against the publishers of the Dublin *Nation* for the publication of seditious libels and inflammatory articles in that journal.

The Paris correspondent of the London press say a feeling of uneasiness is perceptible in political and financial circles. Though no one still believes it is threatened from any quarter, still the great activity in the arsenals and dock yards of France, and the pressure brought to bear upon the Corps Legislatif for the passage of the army bill are circumstances which contribute to unsettle the feeling of security on the public mind to impair confidence in the stability of peace.

Since the abdication of the Tycoon, some fears have been entertained that the Japanese Government would refuse to carry out the important treaties concluded last year with the Commissioners of Foreign Powers, but later advice from Japan announces that the new ruler of that country will maintain and enforce the stipulations of Commercial Treaties made by his predecessors.

Later information is received from Africa in regard to Dr. Livingston, which it is thought confirms all previous reports of his safety.

The bill for the ratification of the Treaty transferring the Islands of St. Thomas and St. John to the United States, was taken up-to-day in the Folkstheatre, the popular branch of the Danish Parliament, and without important debate. The whole subject was referred to special committee, the sessions of which are to be strictly private.

Michael Barrat, (not Marryatt, as incorrectly reported) was placed under examination at Bow street to day. He was identified by three of the Government witnesses; they testified that he assisted in preparing the explosion in Clerkenwell House of Detention, and swore he was the man who actually lit the fuse attached to the barrel of powder which was rolled against the prison walls. In the course of the investigation it was ascertained that Barratt had frequently been seen in company with the well known Fenians Burke and Casey.

He narrowly escaped capture when the latter were arrested, having parted from them only the moment before the officers came upon them with their warrants.

Paul Killer.

Norwich, March 11, 1867.

DEAR SIR:—I wish to add to your numerous testimonials. Last September, while at war cutting sole-leather with a die and a heavy iron mallet, I made a mis-strike, and the mallet came down with its whole force on my thumb, splitting it from the first joint entirely open, and laid the bone bare. I supposed that I had ruined my thumb forever; but I thought of your Pain Killer, as I had often heard of its healing qualities. I went about half a mile, and obtained a small bottle. I saturated a little cotton batting, first winding a wax thread around the wound, and applied the Pain Killer, saturating the bandage two or three times a day. In five minutes the pain ceased, and in a week it entirely healed up; and I will say that I have never seen any thing for healing qualities that equalled it; and I would earnestly recommend it to the public as a pain killer and a healing. Yours truly,

B. T. CLAYTON.

MUCH SICKNESS WITH CHILDREN as well as adults, attributed to other causes, is occasioned by worms. Brown's "Vermifuge Comfits," are effectual in destroying worms, and can do no possible injury to the most delicate child.

Dec. 26.

TWENTY two years ago Mendelsson wrote to his sister in Rome, "God be praised, there is nothing new with us, which means that we are all well and happy, and thinking of you." He should have added in a postscript, that the eradicating nature of Grace's Salve had removed from one of his fingers a severe felon.

UNITED STATES.

The Hamburg emigrant ship "Leibnitz" has arrived at New York with cholera on board. The disease had made rapid progress during the voyage, 105 passengers had died. The scourge is said to be of the most malignant type out of 145 persons attacked only forty survived.

There is great excitement among American politicians caused by the Senate's having reinstated Mr. Stanton as Secretary of War. General Grant, who had been appointed to the office by the president resigned his charge without any attempt at resistance. It is not known how the president will act.

QUEBEC.

A Montreal telegram states that Henry, who recently absconded to the States, had defrauded the Customs to the amount of \$120,000. A portion of his cellar was used as a bonded warehouse, and it is supposed that he drew liquor by means of a suction pump, disposing of it in the ground floor, and substituting water for the liquor.

ONTARIO.

The Ontario and Quebec papers make strong appeals on behalf of Nova Scotia fisherman.

The local Government of Ontario has set its face against all extravagance. The feeling among mem-

bers of the House of Assembly is very strongly in favor of economy in all departments.

TORONTO, Jan. 20.—Sentries have been placed over magazines, and guards have been doubled in consequence of the discovery of pyrotechnics being inserted through the door and other suspicious indications of an attempt to blow it up.

In the House of Assembly to-day, Hon. J. S. McDonald stated that the Government intended to bring in a measure to-morrow for the relief of the distressed fishermen of Nova Scotia.

KINGSTON, Canada, Jan. 20.—On Sunday morning a fire broke out in the rectifying house connected with Kingston brewery and distillery, which together with three large storeroom was entirely destroyed. The barque John Breedon was considerably damaged. The fire is attributed to incandescence.

The cable despaches of the 18th and 20th contain the following intelligence:

A new brewery has been opened at Halifax. The tariff and tax do not appear to have affected this business very materially, at least in Nova Scotia.

Hanifax police state that two bricks of gold weighing together 600 oz., were brought in the other day from the mines at Goldenville. The value of the gold is about \$12,600, and it is the yield of 200 tons of quartz.

The Bridgetown *Free Press* announces the establishment at Granville Ferry of a boat and shore factory on an extensive scale.

A repeat agitation is going forward in Nova Scotia with considerable energy. Meetings numerously attended, have been held in Halifax, Dartmouth and Yarmouth; and resolutions adopted expressive of great dissatisfaction, and urging an immediate repeal of the union. Meetings are appointed in other sections of the Province, for the discussion of this grave matter, and petitions very numerously signed, will doubtless be sent to the Home Government, asking that Nova Scotia may retire peacefully from Confederation.

Eight vessels are in course of construction at Summerside, P. E. I. Their aggregate tonnage will be about 2,100 tons.

NEW BRUNSWICK.

Hon. Mr. McAdam has so far recovered from the effects of his accident as to have resumed his official duties.

A lucifer was recently killed in the vicinity of Fredericton. The local papers are quite facious over the event.

Hon. Victor York, recently attached to a battery of Artillery stationed in St. John and well known in the Province, has died suddenly in England.

W. H. Needham, Esq., was, on Monday last, re-elected Mayor of Fredericton by acclamation.

The University of New Brunswick contains 39 under-graduates—the same number, thirteen, being in each of the three classes. There are five professors in the Faculty.

An Association in favor of a Homœ for the Aged, has been started in this city. \$350 have been already collected and deposited in the Bank, in aid of the Fund.

It is said that upwards of fifty young men have volunteered for a company, now being raised in this city, to serve in the army of the Pope.

\$100,000 of the half million Dominion Government paper intended for circulation in this Province, arrived here by express the other day. The remainder of the amount is expected shortly.

Madame Carritt, whose recent concert in the Institute gave so much satisfaction, has presented the proceeds amounting to nearly two hundred dollars to the two orphan asylums in St. John.

W. A. CHANZON.

Sheridan's Cavalry Condition Powders may be given to cattle whenever a need of condition medicine is indicated by loss of coat, horn oil, and for red water in cows.

Should we be so unfortunate as to be visited by the Cholera this summer, every individual should guard against an attack by all means at command, one of the most effective of which would be a frequent use of Blood's Rheumatic Compound.

NEW BAPTIST.

The new Baptist Meeting-house in Richmond, will be dedicated (P. V.) at 10 a. m., on the morning of the 5th of February. S. SYKES, C. Clerk.

FELLOWS' COMPOUND SYRUP OF HYDROPHOSPHITES.

For Nervous and General Debility, whether arising from a sedentary life, unhealthy occupation, a tropical climate, or any other cause.

For Pulmonary Consumption, Bronchitis, Inward Weakness, &c.

For Dyspepsia or Indigestion. For the Diseases of the Joints and Muscles, Loss of Appetite, Loss of Spies, Impaired Vision.

The effects produced are return of appetite, improved digestion, increase of flesh, good spirits, rosy cheeks and red lips, returning strength to the nervous and muscular system, and gradually all the functions of the body are restored to regularity and vigor. Its actions on the system of the respiratory organs are in a very short time, the mucous and serous membranes are restored; it assists expectoration without depressing the patient, (this alone is a valuable discovery, as we have not in the history of medicine an expectorant which is not also a depressant,) hence the patient is relieved from those attacks of cough without being subjected to debilitating indisposition.

The GENUINE FELLOWS' COMPOUND SYRUP OF HYDROPHOSPHITES is put in pint bottles with our name blown on them, and sold at \$1.50 per bottle, or six bottles for \$7.50.

THE HYDROPHOSPHITES AND COD LIVER OIL, \$1.25 per bottle, is made by FELLOWS & CO., Chemists, St. John, N. B., who are the Proprietors and Manufacturers.

AN EFFECTUAL WORM MEDICINE, Brown's Vermifuge Comfits.

Ov. Worm Lozenges. Much sickness undoubtedly, with children, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children!

Children having Worms require immediate attention, as neglect of the trouble often causes protracted sickness.

Symptoms of Worms in Children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a remedy.

The combination of ingredients used in making Brown's "VERMIFUGE COMFITS" is such as to give the best possible effect with safety.
