ASSASSINATION OF D'ARCY M'GEE. We condense from numerous telegrams received by our city press during the week. An Ottawa despatch. 

arrested on suspicion of murdering M'Gee.

Adjourned inquest resumed in the afternoon, and a large number of witnesses examined. Evidence mainly in connection with finding of the body after murder. The ease against Whelan deepens hourly. The loaded revolver found on his person when arrest ed, and the cartridge in one of the chambers were evidently new. This chamber bore traces of having been recently discharged, the other chambers were bright and clear. The bullets with which it was loaded exactly the same as that which killed Mr. M'Gee. It is generally believed that a gang of ruffians are mixed up in the assassination.

A man named James Ryan, has been arrested in Toronto by the Government detective. A despatch to the Globe from Ottawa, of April 10th says :---

The two planks in the sidewalk, saturated by blood of Mr. McGee when he was shot, were removed by Desbaratus, Queen's Printer, and are held subject to the order of the Mayor or competent authorities to make disposition of them. Whelan has been remanded for a week. A strong

military guard on the Gaol where he is confined. Rumored that P. Buckley has given clue to facts which will convict Whelan.

than any received here. It says :--The Government will propose a penson of £400 or £500 to Mrs. McGee as a gratuity, or an annuity for a term of years to each of her daughters. Very little business has been done since Tuesday by the Privy Council, except to direct enquiry for the discovery of McGee's murderer. James Whelan was brought up before the Police Magistrate this morning, charged with the murder of Hon. Thomas D'Arcy McGee. The evidence taken proves the following facts [besides what had before been telegraphed]:--That Whelan was at the House of Commons on Monday night. That he went into the gallery and out again four times in the course of the gallery and out again four times in the course of the gallery and out again four times in the course of the evening. That each time he passed in and out he was seen talking at the foot of the stairs with John Buckley, a messenger to the House of Commons, who was also arrested on suspicion of being concern-ed in the murder. That he, Whelan, was near the House at which McGee resided shortly after the murder was committed. \* \* \* \* On his person were also found a copy of the Irish American, a Fenian paper published in New Yors, and other docu-ments not yet produced in Court, which prove that he was connected with the Fenian organization. Detective O'Neil says he has positive proof of Whe-lan's guilt. Other detectives deposed under oath last night before the Police Magistrate that Slattery, another of the parties under arrest, is actually a mem-ber of a branch of the Fenian organization which exists in Canada, and that they believe Doyle is also connected with it.

The Government has full information of these secret organizations and of the persons connected with

The whole subject will be brought to light when the court re-opens. There are other parties at liberty whom it is desired to secure in the meantime, and the Government will keep their information secret until all suspected parties are arrested and the chain of evidence completed. The prisoners now lying in jail are Whelan, Doyle, Slattery and Mitchell.

A Montreal despatch of the 9th, says :- At the meeting of the City Council this P. M., it was unamimously resolved that the funeral expenses of Mr. Mc-Gee be borne by the City. Also resolved that the Mayor be authorized to offer a reward of five thousand dollars for the arrest of the murderer.

The wife of Whelen was arrested last night at her residence. Alexander, foreman in a large manufactoring esta-

blishment here, disappeared on Saturday night. He. was of well-known Fenian proclivities, and is sus-

A fire broke out Tuesday afternoon in the roof of house owned by Mr. W. Ennis, corner of Mecklenburg and Pitt streets, but it was speedily extinguished.

SIR-For several months past I have used your Compound Syrup in the treatment of Incipient Phthisis, Chronic, Bron-chitis, and other affections of the Chest, and I have no he-sitation in stating that it ranks foremost an ongst the reme-dies used in those diseases. Being an excellent nervous tonic, it exerts a direct influence on the nervous system, and through it invigorates the body. It affords me pleasure to recommend a remedy which is really good in cases for which it is intended, when so many advertised are worse than useless.

FELLOWS'

COMPOUND SYRUP

We, the undersigned, have much pleasure in recommend-ing your Compound Syrup. After a fair and protracted trial of the same, we consider your preparation a very va-luable nervous tonic, far surpassing many others of consid-erable repute, and well worthy the confidence of the pro-fession generally.

Sim-Having, while at your Establishment, carefully ex-amined your prescription, and the method of preparing your Compound Syrup, I felt anxious to give it a fair trial in my practice. For the last twelve months I have done so, and I find that in Incipient Consumption, and other di-seases of the Throat and Lungs, it has done wonders. In restoring persons suffering from the effects of Diptheria, and the cough following Typhoid Fever prevalent in this region, it is the best remedial agent I have ever used. But for persons suffering from exhaustion of the powers of the brain and nervous system, from long continued study or teaching, or in those cases of exhaustion from which so many young men suffer, I know of no better medicine for restoration to health than your Compound Syrup. If you think this letter of any service you are at liberty to use it as you see fit.

I remain, yours, &c., EDWIN CLAY, M. D.

To MR. JAMES I. FELLOWS,

At a meeting of the St. Patrick's Society, Mr. De-velin denounced the assassination in strong terms. Resolutions were passed expressing sorrow and in-dignation at the crime, and heartfelt sympathy with the widow. Other National Societies passed similar

April 8.-Whelan requested an interview with the Police Magistrate yesterday, and it is understood that he desires the Hon. J. H. Cameron to act as Coun-

sel. It is not likely Mr. Cameron will accept. Hon. B. Wier, of Halilax, Senator, died this morn-ing at the Russell House about 6 o'clock. He return-ed last evening from Chicago, and was in good health. Cause supposed to be disease of the heart. House will meet this evening, but not likely any

business will be done.

Senate has adjourned out of respect for memory of Hon. Mr. Wier. Recent sad events cast profound gloom over Ottawa.

FUNERAL OF MR. MCGEE. Funeral of the late Mr. McGee took place in Mon-treal on the 13th, and was one of the most impressive ceremonies ever witnessed in Canada. All classes. creeds, and nationalities united to pay the last tribute of respect to the lamented statesman. Business en-tirely suspended throughout the city. Flags at half-mast, many buildings draped inmourning, and others mottoes in black and white letters. Procession reached St. Patrick's Cathedral at 10 o'clock, where Rev. Father Farr. Il preached an eloquent sermon. Procession alterwards proceeded to French Parish Church, where, alter singing, a short address was made by the Bishop; it then reformed and took up a line of march to the Roman Catholic Cemetery, where the boly was interred and minute guns fired. Bells tolled during the entire services, which lasted until 5 o'clock. It is estimated that not less than 40,000 persons were in the streets, and 80,000 in pro-

Monday last, the day of Mr. McGee's funeral, was his 43rd birthday. ONTARIO.

A despatch from Ottawa of April 10th, by way of

New York, says: "Plot been discovered to blow up Houses of Par liament by means of nitro-glycerine. It produced most intense excitement in every circle, and extreme vigilance is maintained by Military and Civil authori-

ties to prevent any outbreak. "Government and English Cabinet constantly ex-changing long cable despatches concerning events of past and possible events of future."

### QUECEC.

A Montreal despatch of the 10th says that at St. Eustache a man named Leban and his wife, who were in the habit of robbing and murdering wayfarers and travellers who stopped at their house, attacked a traveller, the man with an axe and the wife with a razor. The traveller knocked down his assailants, and the wife mistaking her husband for him, cut his throat. She has been arrested and confessed all her past horrible transactions. Three skeletons were found in the house. The Montreal Banks have exported \$120,000 Ame-

rican silver, in order to lesson the inconvenience oc-casioned by the excessive quantity in circulation.

NOVA SCOTIA. Archbishop Connolly is said to have been so much affected by the intelligence of the murder of Hon. Mr. McGee, at Ottawa, as to be unable to attend the services in the Cathedral last week. The Halifax services in the Cathedral last week. The Halifax Express says: "His Grace regrets very much that the Rubrics of the Catholic Church do not permit him to have solemn obsequies for the dead during this and the ensuing week; he is therefore most re-luctantly obliged to deter paying this public tribute to the mighty dead until Wednusday, the 22d April, when he hopes the church will be suitably decora-ted, and all the preparations will be worthy the so-home accession

OR WORM LOZENGES. - MUCI SICKNESS undoubtedly, with children, attributed to other causes, is occasioned by worms. The " VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure

in eradicating worms, so hurtful to children. Children having Worms require immediate atteation, as neglect of the trouble often causes prolonged sickness.

Symptoms of Worms in Children are often over looked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remeay.-The combination of ingredients, used in making BROWN'S "VERMIFUGE COMPILE" is such as to give the best possible effect with safety.
