The notorious Whalen was removed from jail last night under a writ of *Habeas Corpus*, to be present in the Toronto Court at the argument on Friday—application for a new trial in his case. He will return to jail here, whatever the decision of the Court may be at Toronto.

HUDSON BAY TERRITORY.—It seems that the mission of Sir George Cartier and Mr. McDougall to England has been a success. Upon the representation of these gentlemen the Imperial Government declined to recognize the proprietory interest of the Hudson's Bay Company in the territory now occupied by it, and lying between the western boundary of Canada and the British colonies on the Pacific.

We are informed that the whole territory now held by the Hudson's Bay Company—all of it that is fit for cultivation, and that it is desirable to obtain—will come into the possession of the Canadian government without the payment of a single shilling to the company. The only cost that will devolve upon the Dominion will be in connection with the establishment of a Crown Colony in Rupert's Land. This will be trifling at the most, but as the country becomes more settled the charge upon the Dominion will gradually lessen and finally disappear altogether.

There is a great scarcity of small change in the city, caused by the reluctance of the Banks to issue small notes and the hoarding of silver by persons having it.

The *Telegraph* says that during the early part of last week so great was the feeling of distrust in money, that in one of the hotels in Fredericton a twenty dollar gold piece was offered (in jest) at $15, and not one of a considerable number of persons present would accept the offer.

There has never been known in St. John a period of greater depression and gloom than that through which we have just passed. Events the most calamitous have followed one another in quick succession, involving thousands of persons in loss to a greater or less extent. The failure of the Commercial Bank, together with the flight of its Cashier, Mr. George P. Sancton, a defaulter to the amount of $90,000, created unbounded excitement for a time. Almost every one in the community was a loser; for the notes of the Bank were largely circulated. The stockholders lost their property in the Bank, and many of them their sole means of support. But far more disastrous was the disgraceful failure of Mr. S. J. Scovil's Bank of Deposit. He was the agent of the St. Stephen's Bank, and the run on the agency by the noteholders of that Bank on Saturday week, was followed on Tuesday by his own suspension. His liabilities are estimated as high as $500,000, including deposits to more than half that sum. The deposits were of all amounts, ranging from ten or fifteen dollars to upwards of $15,000. These bore six per cent. interest, and it was the rate which had induced so many persons to place their property here. Hundreds of the poorer classes have lost all their savings; and the narrations of some of the depositors are heart-rending. Mr. Scovil has as yet made no explanation of his difficulties, though it is beyond a doubt that all he assets of his Bank have been transferred to the St. Stephen's Bank, and his real estate has been deeded to a few of his friends. Writs by the dozen have been served on him, and meetings of the creditors have been held, preparatory to compelling him, if possible, to render some statement. The suspension of the St. Stephen's Bank followed Mr. Scovil's failure, on Thursday last. The position of the Bank is good, however, and it is supposed that the suspension will be only for a few days. The notes of that Bank, which were selling for a short time at from twenty to thirty per cent. discount, are now worth over 90 cents on the dollar. The notes of the Commercial sell for about 70 cents.

☞ It is confidently expected that St. Stephen's Bank notes will be all right in a few days.

☞ A barn belonging to Mr. Olive, of King Street Carleton, was consumed by fire on Tuesday last.

MR. SCOVIL AND HIS CREDITORS.—Messrs. Boyd, Cudlip and Maher, have been appointed a Committee to make all needful enquiries and to take such steps as may be found necessary to bring Mr. Scovil to terms. The *Journal* of Wednesday says that the Committee saw Mr. Scovil yesterday, and that he gave them a written assurance that he would give them access to his books, and render them every assistance in his power. Nothing can satisfy the public but a full explanation of all the main points of this extraordinary case. We are glad to know that the business has been committed to safe hands.
