Pain Killer.

Northampton, March 11, 1867. DEAR SIR: - I wish to add to your numerous testimonials. Last Sep ember, while at work cutting sole-leather with a die and a heavy iron mallet, I made a mis-strike, and the mallet came down with its whole force on my thumb, splitting it from the first joint entirely open, and laid the bone bare. I supposed that I had roined my thumb forever; but I thought of your Pain Killer, as I had often heard of its healing qualities. I went about half a mile, and obtained a small bottle. I saturated a little cotton batting, first winding a wax thread around the wound, and applied the Pain Killer, saturating the bandage two or three times a day. In five minutes the pain ceased, and in a week it entirely healed up; and I will say that I have never seen any thing for healing qualities that equalled it; and I would earnestly recommend it to the public as a pain killer and a healing. Yours truly, B. T. CLAFLIN. January 2nd, 1867.

In this we are their superiors. The tendency of the modern civilization is to elevate the whole human race—to educate, to improve, physically, mentally and morally the inhabitants of the whole world.
