WHEREAS it is amongst other things enacted by the 58th section of the Act 31 Vic., Cap. 6, entitled:—An Act respecting the Customs," that the Importer "o any cattle or swine, may slaughter and cure and pact the same (and if such cattle or swine are imported in the carcass, may cure and pack the same) in bond," provid ing such slaughtering, curing and packing be done and conducted under such Regulations and restrictions as the Governor in Council may from time to time make for this purpose; which said Regulations may exceed to the substitution of Beef and Pork in quantities equivalent to the produce of such cattle and swine.

And whereas it has been found expedient to give effect to the said section 58, so far as regards the importation o

His Excellency in Council on the recommendation of the Honorable the Minister of Customs, and under the author pleased to order a d it is hereby ordered that the slaughtering, curing and packing of Swine in bond shall be done and conducted under the Regulations and Restrictions fol-

The Importer of live hogs or swine intending to avail himself of the privilege conferred by the said section 58 of the Act hereinbefore mentioned, shall apply to the Collector of Customs at or nearest the place at which he intends importing or entering such swine, and shall furnish such Collector with a brief description in writing of the premises intended to be used as a killing pen, and curing and packing house for the purpose aforesaid; and should the Collector approve of such premises, he will constitute the same constructively into a Warehouse for the special o' ject, and the said premises shall to all legal intents and purposes be and be dealt with as one of the Queen's Warehouses; and the Importer shall enter into and execute the usual Bond given by the owners of Warehouses placed under the Crown's lock.

2. Upon every importation of swine, the Importer shall enter the same in the usual way to be warehoused, and shall live the s.id swine taken to the premises hereinbefore referred to, and approved as a Customs Warehouse, where t'e same shall be counted on arrival, and the Importer shall give bond on each such Importation in double the amount of the duties payable under the Tariff on such importation, the condition of which bond shall be that upon the due exportation within one year of the products of the sa'd swine converted into Pork, Bacon, Hams or Lard, the said Bond shall be and become null and void, otherwise shall be and remain in full force and virtue.

3. And whereas, the duty imposed upon swine is a specific daty on each animal at so much per head, without reference to weight or size, and that it is necessary in order to facilitate the balancing of the accounts of what goes into warehouse, and what comes out in another form for expor-tation, that a ratio should be e tablished between the weight of the live animal warehoused and the equivalent weight of the merchantable products of such animal after he has been slaughtered,—it is considered that the average weight of a live hog may be taken at 200 lbs., and that the equivalent of such live hog in Pork, Bacon, Hams or Lard is 113 lbs., that every 113 lbs. weight of Pork, Bacon, Hams or Lard taken out of the warehouse shall be deemed Hams or Lard taken out of the warehouse shall be deemed to represent one live hog put into the warehouse, and the exportation of that quantity of Pork, Bacon, Hams or Lard will be equivalent to the exportation of one of the live hogs bonded, and if the same, instead of being imported, should go into consumption in this Dominion, it shall be charged with a duty of \$2 as being the merchantable manufactured equivalent of the live animal chargeable with that duty on importation.

FELLOWS'

COMPOUND SYRUP

TO MR. JAMES I. FELLOWS, Manufacturing Chemist, Saint John, N. B.

fession generally.

We beg to remain, yours, very truly,

A. H. CHANDLER, M. D.

H. A. JACOBS, M. D.

MR. JAMES I. FELLOWS, Manufacturing Chemist. SIR—For several months past I have used your Compound Syrup in the treatment of Incipient Phthisis, Chronic, Bronchitis, and other affections of the Chest, and I have no hesitation in stating that it ranks foremost amongst the remedies used in those diseases. Being an excellent nervous tonic, it exerts a direct influence on the nervous system, and through it invigorates the body.

It affords me pleasure to recommend a remedy which is really good in cases for which it is intended, when so many

advertised are worse than useless.

I am, Sir, yours truly,
S. Z. EARLE, Jr., M. D.
St. John, N. B., January 1868.

MR. JAMES I. FELLOWS, Chemist, St. John, N. B. DEAR SIR-Having used your Compound Syrup for some time in my practice, I have no hesitation in recommending it to my patients who are suffering from general debility, or any disease of the lungs, knowing that even

in cases utterly hopeless it affords relief.
I am, Sir, yours truly, H. G. ADLY, M. D.

St. John, N. B., January 1868.

MR. JAMES I. FELLOWS, St. John, N. B. #Sir-Having, while at your Establishment, carefully examined your prescription, and the method of preparing your Compound Syrup, I felt anxious to give it a fair trial in my practice. For the last twelve months I have done so, and I find that in Incipient Consumption, and other diseases of the Threat and Lung it has done wonders. In restoring persons sufering from the effects of Diptheria, and the cough following Typhoid Tever prevalent in this legion, it is the best remedial agence have ever used. But for pe so 's suffering from exhaustion of the powers of the brain and nervous system, fom long continued study or teaching, or in those cases of exhaustion from which so naby young men suffer, I know of no better medicine for

estoration to health than your Compound Syrup.

If you think this letter of any service you are at liberty use it as you see fit. I remain, yours, &c., EDWIN CLAY, M. D.
