From our Halifax Correspondent.

DEAR VISITOR: -Our political waters have com enced to be moved. A number of the Dominion abinet, Sir John A. McDonald, Sir George Cartier, he Hon. Sandfield McDonald and McDougall, &c., stensibly on a visit of pleasure and observation and o escape the heat of Canada, in reality to find out hat are the grievances complained of by the anti-nionists, and, if possible, to remedy and remove nem. That there is not the slightest chance for renem. That there is not the slightest chance for re-eal is being admitted by the strongest of the antis, and with the knowledge that the integrity of the nien will be preserved at all hazards, the question as arisen, and a most pertinent one it is, What ext? Are we prepared for rebellion, and to bring lown upon us all the horrors of civil war? If not, s it wise to keep up an agitation that can only re-ult in injury to the Province, and retard all progress

and advancement? Such are the questions of the hour; the solution is not many days distant. The nembers of the Dominion and Local Parliaments have been in session for a day or two, and, as the reand, have nominated a committee of senators upon the state of the Province. Of this committee Mr. Howe is Chairman. They will confer with the memand the Local Legislature which met on Thursday last, has adjourned over to Monday the 10th, to await the result. If it were worth while to speculate on a matter so soon to be decided I should say that there would be a split in the camp, some of the mem-bers of the Dominion Parliament, with a few of the Local House, being in favor of falling into line, while others, including the Local Government, will be for holding out. Mr. Howe's letter, bespeaking courteous treatment for the Canadian visitors, your readers have all before this seen; it has been variously commented upon, but whatever the object of the writer, the fulminations of a portion of the anti press richly deserved a rebuke.

The scull race for the championship of the harbour f Halifax has been again won by Mr. George Brown who becomes the owner of the belt.

Tom Thumb and suite have drawn crowded houses.

A prospectus is affeat for establishing a paper mill on a large scale at Riverdale, County of Colchester. The capital required is \$150,000, in shares of \$500. The mill is to be capable of turning out twenty-six tons of printing paper weekly. Coal and straw are to be found in abundance in the locality chosen.

Business still continues dull and the money market tight, but still real estate keeps up, and the mar-

NOVA SCOTIA. The House of Assembly met last week at Halifax. Little seems to have been done as yet towards the settlement of the difficulties connected with confeder-

ation. The following extracts from a telegram to the Toronto Globe give a general idea of the state of affairs at Halifax.

The Unionists have been much vexed and disheart-

ened by the blunders of the Ottawa Government dur-

ing the past year.

It is understood that Mr. Howe opposes extreme measures that he advises the Local Legislature to attend to the ordinary legislation of the country; to maintain its attitude of hostility to the Union, if no satisfactory terms can be made, to appeal again to England; and he discountenances annexation or re-volutionary measures. It is tolerably certain that a majority of Dominion members go with him, and would, perhaps, go farther if they could. Local members are more violent, and very many of

hem are said to demand some measure declaring Nova Scotia out of the Union. Still it is much doubt ed whether such course will actually be adopted.

Some Antis are beginning to discuss terms of conciliation. They want more money—say the remission of interest on the excess of the debt of the Province over the eight millions and as large a represen-

tation in the Commons as in the Setate.

There is a flying rumor that the Dominion Ministers propose two years' that of the Union, with the understanding that it be dissolved then if still unsatis-

factory to the people.

It is reported that fourteen rich gold discoveries have been made in Nova Scotia and Cape Breton. NEW BRUNSWICK.

Eastern Extension .- The Telegraph says we learn that the Hon. Mr. McDougall was enabled to pass over a portion Extension Railway, between the Junction and Dorchester, on Monday in the "Prince of Wales" car. The Minister was accompanied by Lewis Carvell, Esq., and the engineers and contractors of the Railway. There are two engines now working on the line, ballasting, and it is expected that it will be fit for traffic to Dorchester by the first of September. Great activity is now witnessed on the works.

The Telegraph says that counterfeit \$10 green backs are affoat in the City. Bank of New Brunswick \$5 notes changed from \$1—that is two 5's made from a 5 and 1, are also in circulation. The

latter is a dangerous counterfeit.

Monstrous Fish.—The St. Croix Courier says that on Sanday last a large fish, thirty-five feet in length and seven feet across, was captured in the vicinity of Eastport. His head is shaped like a bull frog's, and his skin resembles an elephant. It possesses two legs or paddles about five feet from the tail.

Accidents.—A boy, named Neptune, fell out of a waggon on Horsefield Street last week and broke his

arm. A borse ran away on Saturday, and a man named Milroy, in endeavoring to stop him, had his

hand injured very badly.

Policeman Stabbed.—A policeman, named Gillmour, was stabbed on Tuesday week in a cell of the Police Office by a man named O'Leary who had been arrested a short time before drunkenness. The wound which was inflicted with a knife is in the left side of the chest. The policeman, who saw the blow aimed at him, had just time to extend his arm and partially arrested the thrust, which otherwise would have been fatal. He has been pronounced by his Lord Stanley and M. Moustier held a long conferbeen sent to jail to take his trial at the Circuit Court.

The St. John County Circuit Court was opened on

Tuesday with the usual formalities. MELANCHOLY ACCIDENT .- We learn that a man named Gorman, who has a wife and family in Portland, met with an accident on Wednesday, at a place called Melvin's Beach, six miles above Quaco, which terminated fatally. He was seen by two men, who were out in a small boat adjusting a net, to fall from a steep precipice where he had been sitting for some

His house was a home for the ministers of Christ, his heart and hand ready to supply their wants. He was a very firm believer in the doctrines of Divine sovereignty—the development of divine purpose through providence—salvation by grace—and the eternal security of all God's elect. And thus resting on Him who is "the same yesterday, to-day and forever," he passed into the region of immortality to be forever with the Lord. He selected as a text the words, "By the grace of God I am what I am," I Cor. xv. 1), which was preached from by his pastor to a large audience. Rev. P. Duffy took part in the service.—Com.

COMPOUND SYRUP

To MR. JAMES I. FELLOWS.

Manufacturing Chemist, Saint John, N. B. We, the undersigned, have much pleasure in recommending your Compound Syrup. After a fair and protracted trial of the same, we consider your preparation a very valuable nervous tenic, far surpassing many others of considerable repute, and well worthy the confidence of the pro-

We beg to remain, yours, very truly, A. H. CHANDLER, M. D. H. A. JACOBS, M. D. Monoton, N. B., November 9, 1867.

Me. JAMES I. FELLOWS, Manufacturing Chemist. Syrup in the treatment of Incipient Phthisis, Chronic, Bronchitis, and other affections of the Chest, and I have no hesitation in stating that it ranks foremost amongst the remedies used in those diseases. Being an excellent nervous
tonic, it exerts a direct influence on the nervous system,
and through it invigorates the body.

It affords me pleasure to recommend a remedy which is
really good in cases for which it is intended, when so many
advertised are worse than useless.

I am. Sir. yours truly

H. G. ADLY, M. D. St. John, N. B., January 1868.

MR. JAMES I. FELLOWS, St. John, N. B. Sir.—Having, while at your Establishment, carefully examined your prescription, and the method of preparing your Compound Syrup, I felt anxious to give it a fair trial in my practice. For the last twelve months I have done so, and I find that in Incipient Consumption, and other diseases of the Threat and Lungs, it has done wonders. In restoring persons suffering from the effects of Diptheria, and the cough following Typhoid Fever prevalent in this region, it is the best remedial agent I have ever used. But for persons suffering from exhaustion of the powers of the brain and nervous system, from long continued study or teaching, or in those cases of exhaustion from which so many young men suffer, I know of no better medicine for restoration to health than your Compound Syrup.

If you think this letter of any service you are at liberty to use it as you see fit.
