The allied forces in Gran Chaco also advanced with the object of cutting off the communications of Lopez in the forest; but they found themselves opposed by a large body of Paraguayans protected by breastworks; after an obstinate engagement the Allies withdrew. The loss of the battle is not stated. The hope of the war party in Brazil, rested upon the success of this enterprise, and its failure will give a great impetus to the peace movement.

MIND AND MATTER.—The intimate connection between the Brain and the Muscles, through the Nervous system, may be shown, by closing the hand or by voluntary movement of the body. The involuntary muscles are those which control the Stomach, Liver, Lungs, Heart, etc.; they are also influenced directly by the mind, so that close study, anxiety, grief, irritation, secret excesses, and a host of other excitants acting directly on the brain, disturb the nervous system, and prevent due muscular action in those organs necessary to sustain life. Here lies the great cause of Dyspepsia, Headache, Neuritis, Nervous Impairment, Blood, Irregularities, Langour, Debility, Bronchitis, Consumption, &c., &c.

FELLOWS' COMPOUND SYRUP will not only supply the waste going on in the brain, but will enable the mind to endure a greater tax than ever before, without involving other organs of the body, it will impart vigor and promote clear conceptions to the intellect, it will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.

CHOLERA.—A Cure for this Disease may be found in the use of **Perry Davis' Pain Killer.**

I have used the medicine known as PERRY DAVIS' VEGETABLE PAIN KILLER in my family for the last twelve months, and have great pleasure in testifying to its very valuable properties. I would not on any account be without it. During the existence of the Cholera last year, I used no medicine of any sort but the Pain Killer, although myself and several members of my family were attacked by it severely and I am happy to say that the Pain Killer was equal to every emergency; it was both a preventive and a certain cure. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to-day, the Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on. F. E. BERGINSEND, Galena, Illinois.
