PARIS, Sept. 21 .- Some reports say that the rising n Spain is not a movement of the Liberals alone

but is supported by all parties. It is stated that the revolutionists have failed at some points owing to the want of leaders. are safe generally discredited,

The Monitour publishes the exciting intelligence received yesterday from Spain, and says :- "The reession of some crews of the fleet at Madrid o the revolutionary movement gives gravity to the s; but the accounts so far received are imperfect. It is certain, however, that the Gonzales-Bravo Ministry has resigned, and General Concha has been summoned to Madrid to form a new Cabinet; at last accounts the Cabinet remained quiet,"

When near the city the steamer ran aground on a sand bank, and was unable to get off. After some delay, the King and officers of the royal staff embarked on a small steamboat and were brought to the city.

The King meets with a hearty welcome from the citizens wherever he makes his appearance. To-day his Majesty made a visit to the Bourse, and in reply to an address, said: "Peace is desired by all. I have the surest hope that it will not be broken. My specch at Kiel was intended to give the strongest assurance impressions could have been derived from the words I used on that occasion." The explanation was re-Coived with great cheering.

Queen Isabella is at San Sebastian The road between that place is infested with revolutionists to such an extent that the Queen will not make the journey at present, Martial law has been proclaimed throughout the whole of Spain. SPAIN.-The Patrie, yesterday afternoon published the following, furnished by the Spanish Ambassador in this city: "Madrid is quiet; though the people are excited. The troops are faithful, but the garri-

son has been reinforced as a precautionary measure. Other towns throughout the country are quiet," The telegraph wires in Spain are disordered in every direction. The news received is uncertain and contradictory. Generals Prim and Devoda, at the head of the insurgent forces, are marching on the

CHOLERA.

HOW TO CURE IT. At the commencement of the diarrhos, which ways precedes an attack of the Cholera, take a teaspoonful of the Pain Killer to sugar and water, (warm, if convenient,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhoss or cramps continue, repeat the dose every ten or fifteen minutes till the patient is relieved. In extreme cases, two or more teaspoon-

uls may be given at a dose, The Pain Killer, as an internal remedy, has no equal. In cases of Cholera, Summer Complaints, Dyspepsia, Dysentery, Asthma, it cores in one night, by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to of that hope, and I cannot understand how opposite Old Sores, Burns, Scalds, and Sprains. For Sick Headache and Toothache, don't fail to try it. In short it is a Pain Killer.

The Pain Killer is sold by all dealers in Family Medicines.

CONSUMPTION.

Letter from Capt. Coffill, Master of the Brig "Po-tosi," of Windsor, N. S. St. John, N. B., 22nd May 1868.

MR. JAMES I. FELLOWS, Chemist. DEAR SIR.-In May, 1866, I was attacked with a severe dry Cough, which continued in harshness for some time, when I commenced expectorating a thick whitish substance, then I raised a greenish yellow and state coloured matter, then bleeding of the lungs

set in, and other symptoms of a very alarming character showed themselves. I consulted the leading Physicians in Philadelphia and other cities, who gave me no encouragment, as my disease was Consumption. I spared no expense to obtain relief, but found none. In August, I had failen in flesh from 155 to 136 lbs., and sinking rapidly every day. My friends in Philadelphia advised me to leave the ship and go home. At home they considered my case hopeless. and wished me to remain there and not die in a foreign country. I visited St. John in October of the same year on my way to Philadelphia to join my ship, and was advised by a stranger, who noticed my shrunken form and hacking Cough, to try your

COMPOUND SYRUP OF HYPOPHOSPHITES, and as a drowning man will grasp at straws, I saw a ray of hope in the suggestion, and procured a bottle. The effect warranted a further trial, and I bought a dozen bottles and left St. John, and have been knocking about the Atlantic ever since. As this is the first time I have visited your city since, I feel under an obligation to let you know the effects produced by this Syrup. I continued the remedy regularly. At first my appetite improved-I regained strengththen my Cough gradually left me, and finally the expectoration ceased; and although my benefit was gradual, I could note the change for the better every day, so that after having taken ten bottles I considered myself well. This was about five months from the time I commenced taking the Syrup. A short returning, I finished the other two bottles; and now consider myself as well as ever I did in my life. My present weight is 162, seven pounds above my usual healthy standard. My nerves are good, my appetite good, and general health excellent. I heartily recommend your Syrup to all persons troubled with any difficulties or Disease of the Lungs or Nervous system, firmly believing that had I not used it,

I would not now be living. Hoping this letter may meet the eyes of others si-milarly affected, and induce them to use the same means of cure, I remain, yours very truly,

HARRIS COFFILL, Master of the Brig "Potosi," of Windsor, N. S. Sold by Apothecaries. Price \$1.50 per bottle, or 6 for \$7.50. On the receipt of \$7.50 the proprietor will forward six to any part of Nova Scotia or New Brunswick, Free. JAMES I. FELLOWS, Chemist, St. John, N. B.

All by the fiat of his wondrous art,

The Tempest rag'd, which usbers in this tale
Of love, where friendly magic takes a part,
And works a gen rous purpose with avail. Each ardent lover gains the other's heart, Those wave-stained garments which the ship-wreck'd wore Regain their pristine freshness on that shore. And is such magic pow'r e'en but a dream
Of poet's fancy, ne'er to be enjoyed?
Much greater pow'r has wonder-working steam
