That the Colonies were politically allied to each other by their common relationship to the Queen and her Empire in a less dangerous way than is possible under any Confederation scheme. 19. That no intentional injustice is imputed to the Queen and Her Government in passing the act. 13. That an address, praying for repeal, be presented to Her Majesty. To these, counter resoultions have been moved in amendment stating :-- 1. That the law making power exists in the Government, Legislative Council and House of Assembly for the time being. 2. The right of the Imperial Parliament to change or alter the Constitution has been repeatedly exercised and a right not to be called in question. 6. That the resolution of the 10th of April did not necessari ly contemplate a confederation of all the British Provinces 4. That an expression of opimon as to the working of the law, so short a time in force, is premature. 5. That the debts and liabilities of Nova Scotia would have necessitated a considerable rise in the tariff even had we not been confederated. 6. That fundamental changes have been, from time to time, made in the constitution by acts of Imperial Parliament as well as by despatches. 7. That the Legislature of 1867 recognized the British North American Act by specially providing for reconstruction of epartmental offices under the act. 8. That the expression of opinion in resolution of 10th April was as much an expression of opinion, and entitled to as

much credit as any subsequent contradiction. 9 That it is not essential to the validity of an act of Parliament that it be first submitted to the people at the polls. 10. That the people have no fears that Great Britain will invade their rights, or suffer it to be done by others. 11. That Nova Scotia, by herself, is incapable of her own defence. 12. That it is the duty of loyal subjects to respect the expressions a of Her Majesty's Government on Union 13. That the course adopted to bring about the Un ion of the Provinces was under the instructions, and as nearly as possible in accordance with the recom mendations of Her Majesty's Government. Your readers have, in the above, a brief synopsis of the views of the repealers and of the unionists. A dele-gation will proceed to England composed of Hon. Atorney General, Hon. J. Local Legislature.

Our Local Legislature was opened at Fredericton in due form on Thursday, the 13th inst. Bliss Botsford, Esq., was elected Speaker without opposition His Excellency, Col. Harding, in his opening speech represented the state of the revenue as highly satis factory, and amply sufficient for roads and bridges, and other public works ; but wisely recommended a rigid economy in all the appropriations, and retrench. ments by the abolition of such public offices as were rendered unnecessary by the new order of things. We furnish the following summary as communicated by telegrams to the city papers :---

Mr. Keans brought in a bill relating to water sup-ply in the City of Saint John and the Parish of Portland, and presented a petition from the Justices of the Peace in the City of St John to the same effect. Mr. Babbit's resolution to dispense with printing the Official Debates was carried. The only members

who voted against the resolution were Messrs. Peck. M'Inerney, Caie and Taylor. On motion of Mr. Hartley, a Committee was ap-

pointed to whom all matters relating to Emigration and Colonization be referred. In the alternoon the report of the Contingent Com-

mittee was committed. It provides that members should be allowed eight dollars worth of stationery, and that the practice of franking as in former years should be continued. The report of the Committee

was adopted. Mr. Bliss brought in a Bill to incorporate the Albert Skating Club.

A resolution was passed that 2,000 copies of the Journals be published, together with a resolution to distribute them as last year. The House then ad-

favour of Free Schools.

AN EFFECTUAL WORM MEDICINE. Brown's Vermifuge Comfits. On WORN LOZENGES. MUCH SICKNESS undoubtedly, with children, attributed to other causes, is occasioned by worms. The " VERMIFUGE CONFITS," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure eradicating worms, so hurtful to children.

Children having Worms require immediate atten ion, as neglect of the trouble often causes prolonged sickness.

Symptoms of Worms in Children are often over looked. Worms in the stomach and bowels cause irritation. which can be removed only by the use of a sure remedy .-The combination of ingredients used in making BROWN's " VERMIFUGE COMFITS" is such as to give the best possible effect with safety.
