The work of the Windsor and Annapolis Railway is progressing rapidly, the line is now laid through Windsor. Operations have commenced at the bridge, and if the remainder of the work is pushed forward with as much spirit the line will be opened through to Annapolis by the end of the present year. About fifty men are now at work in the cutting between Windsor and Mount Denson, and another locumo-tive is shortly to be landed at Hantsport. - Wolfoille

The Colonist says:-Last winter a young man named Parker, son of the Rev. Jas. Parker, of Corn-wallis, was robbed and murdered in a hotel in New Orleans. The supposed murderer, a desperado named Fultz, made his appearance in this Province recently and committed forgery in Truro. A short time ago the police authorities in this city received information that Fultz was in Boston, and there had attempted to rob a young man belonging to Nova Scotia, who had accompanied him thither. Papers for the arrest of Fultz, in Boston, and his extradition were obtained from the attorney General, and Detective Hutt, of the police force, sent after the suspected person. It now appears Hutt arrested Fultz and took him before the court in Boston, but in consequence of some informality in the papers providing for the extradi-tion of the prisoner, he was discharged.

In the House of Lords the Marquis of Salisbury wanted to know if Her Majesty's Government en dorsed the policy advocated by Mr. Bright, to the el fect that the people be placed in possession of the land in Ireland in greater numbers. He said the present uncertainty as to the position of the Government on the land question was injurious. LONDON, May 11.—The London Standard to day has a leading article on the Alabama question and Senator Sumner's speech in which the writer reviews the relative position of the United States and Great Britain, and asserts that the raids and other outrages perpetrated by American Fenians in Canada during the past few years more than overbalance the depredations committed by the Alubama on American commerce. The Government of Great Britain in consenting to submit the mutual International grievances to arbitration did more than could be fairly demanded, and to yield further would be an act of cowardice and irreparable degradation. Letter from Capt. Coffil, Master of the Brig "Potosi," of Windsor, N. S. St. John, N. B., May 22, 1863. MR. JAMES I. FELLOWS, Chemist.

Dear Sir-In May, 1866, I was attacked with a severe dry Cough, which continued in harshness for some time, when I commenced expectorating a thick, whitish substance, then I raised a greenish yellow and slate colored matter, then bleeding of the lungs set in, and other symptoms of a very alarming character showed themselves. I consulted the leading Physicians in Philadelphia and other cities, who gave me no encouragement, as my disease was Consumption. I spared no expense to obtain relief, but found none. In August, I had fallen in flesh from 155 to 136 lbs., and sinking rapidly every day. My friends in Philadelphia advised me to leave the ship and go home. At home they considered my case hopeless, and wished me to remain there and not die in a fo

and as a drowning man will grasp at straws, I saw a ray of hope in the suggestion, and procured a bottle.

The effect warranted a further trial, and I bought a
dozen bottles and left St. John, and have been knocking about the Atlantic ever since. As this is the first time I have visited your city since, I feel under an obligation to let you know the effect produced by this Syrup. I continued taking the remedy regularly. At first my appetite improved—I regained strength—then my Cough gradually left me, and finally the

expectoration ceased; and although the benefit was gradual, I could note the change for the better every day, so that after baving taken ten bottles I considered myself well. This was about five months from the time I commenced taking the Syrup. A short time after I had considerable trouble with a Charter Party, and feeling some of the old symptoms returning, I finished the other two bottles; and now I consider myself as well as ever I was in my life. My present weight is 162, seven pounds above my usual healthy standard. My nerves are good, my appetite good, and general health excellent. I hearthly recommend your Syrup to all persons troubled with any difficulties or Disease of the Lungs or Nervous

system, firmly believing that had I not used it, I would not now be living. Hoping this letter may meet the eyes of others similarly affected, and induce them to use the same means of cure. I remain yours very truly,

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and bald-

A dressing which

ness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING. nothing else can be found so desirable.

Containing neither oil nor dye, it does long on the hair, giving it a rich glossy lustre and a grateful perfume.
