The gold operations and consequent crash in New York on the 4th ult., give promise of important revelations. Several of the principal operators, and among them Gen. Butterfield, brother-in-law of President Grant-have been indicted for a conspiracy to defraud. It was a gigantic scheme and deserves severe punishment of its operators, whoever they may be; otherwise neither Government nor national finances are safe. It is the worst species of wholesale robbery. One thousand millions of gold was sold and bought without the actual transfer of a dollar, and much of it by parties who had none to

Tubercular Consumption of the Lungs is that form of Consumption most common, most tatal, and until recently, considered incurable. Tubercle, from which the name is derived, is a morbid product, deposited from diseased blood in various parts of the body; and in proportion as the blood is impure, and length of time it remains so, will tubercular diathesis continue. When this deposit occurs in the Lungs the patient s affected very seriously, and he cannot hope for recovery without persistently carrying out certain rules for a considerable time. The tissues and cells containing the deposit are frequently out of reach of the larger Bronchial tubes, so that they cannot be coughed up, unless supporation begins, so the only possible means of cure lies in checking the further formation, absorbing that already formed, and in keeping

the general health good. By the use of Fellows' Compound Syrup of Hypophosphites the blood is surely and speedily puritied and vitalized, so that further tubercular formation is stopped. It will improve the appetite, promote good digestion, induce rapid assimilation, cause regularity of the bowels. It will produce easy expectoration without debilitating (a peculiar characteristic of this remedy) and consequently lessen cough and night sweats.
