At Fort Lawrence, Cumberland County, a few days ago, a boy 12 years of age, named George Goold, was kicked by a horse, and died soon afterwards from the effects of the injuries received.

A SINGULAR CIRCUMSTANCE. During the recent gale five small vessels sought to make a harbor at Indian Island, but failed, and were all lost. The next morning a woman was discovered in a drifting boat that was nearly full of water. She had evidently been there for several hours, and was supposed to be dead; but she was taken to a house where she was kindly cared for, and strange to say in the course of the af ternoon the current of life so far returned, that to the amazement of all beholders she opened her eyes, and soon became capable of swallowing nourishing drinks; but reason returned not. There she lay for days no one knowing, who she was or whence she came; perfeetly un onscious of her position; and apparently ut-terly incapable of the exercise of thought. It was supposed that terror had destroyed her reason.

The Bishop of Montreal has appointed next Thursday as a day of thanksgiving in his Diocese.

NEVER NEGLECT A COLD. - From gross contravention of this very simple advice, thousands of persons contract pulmonary complaints, which might altogether be prevented by the use of Dr. Wilson's Pulmonary Cherry Balsam, the most effectual and reliable remedy ever placed within the consumptive sufferers reach. It is painful to hear of the so many, now, we are sorry to say, fatal cases, which comme ced with the ordinary symptoms of a common cold. Dr. Wilson's Balsam will prevent all disastrous consequences, if only allowed a fair trial. It soothes the inflamed lining of the throat and chest, and after a few doses the cough becomes loose and less frequent, the phiegm is expectorated with less difficulty, till the lungs become free, and the respiration natural.

COSTIVENESS .- The bowels become torpid and powerless under continual purgation. Dr. Wilson's Family Anti-Bi ious Pills penetrate to the nucleus of the disease and eradicates it. They evacuate the foul and vitiated particles from the intestines, by a mild, aperient operation, and recuperate their exhausted energy by restoring tone and vigor. They induce a healthy action and prevent a relapse of the malady. For piles, fistola, dyspepsia, and all disorders of the viscera, they stand without a rival.

No other liniment combines, in so compact or concentrated form, the active and essential properties of an embrocation, or is so well adapted for the purpose, as Dr. Dow's Sturgeon Oil Liniment. All external pains, rheumatic and gouty tortures and contracted sinews, may be overcome by diligently rubbing this matchless liniment upon the skin.

Extract of a letter received by the agent of Clark's Derby Condition Powders from one who occasionally acts as a Veterinary Surgeon: "Having ordered from one of our druggists Derby Condition Powders I was not only disappointed in their effects but annoyed when I received a useless kind. I have been in the habit of using the Derby Powders with great advantage to my horses and stock. I may here remark it is the only powder of any benefit to neat stock. I have just sent a horse home, well, that was very bad with paueumonia. I found your Powders

BREAKFAST .- EPPS'S COCOA .- GRATEFUL AND COMposting.—The very agreeable character of this pre-paration has rendered it a general favourite. The CIVIL SERVICE GAZETTE remarks :- "The singular success which Mr. Epps attained by his homoeopathic preparation of Cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the trade only in 11b, 11b., and 11b tin-lined packets, labelled-JAMES EPPS & Co., Homoepathic Chemists, London, England. Aug. 26, 1869.—26wks.

The importation of rags from the Mediter anean, hides from Brazil, and other commodities from the tropics, is known to bring the germs of dis ease, chiefly fevers, which are sometimes very afflicting and fatal. AYERS AGTE CURP stimulates the Liver to excrete these germs from the system as effectually to it does the miasmatic poison of our Ague districts. Consequently it affords invaluable protection to stevedores and others whose occupations expose them to these dangerous infections; and we hope to render them a valuable service in giving them this information .- | New York Despatch.
