The income tax to be collected in this manner. By these means £3,250,000 will be brought into the financial year in addition to the amounts heretofore collected, but of this amount be proposed a reduction of a penny on the income tax to repeal the impost duty on corn, and the five insurance duty, and to reduce several smaller items. This will give a decrease of £3,000,000, and will leave nearly £500,000 clear surplus.

Mr. Hunt, the late Chancellor of the Exchequer, in a reply to Mr. Lowe, said the reduction in the estimates were due to the efforts of the late Government in making the army more efficient. After a long and desultory conversation the usual resolution to bring in the Budget was agreed to.

Over two hundred members attended. Mr. Disraeli was present and made a speech, in which he indicated the future policy of the party on the Irish Church question.

Important modifications of the financial sections of the Bill are also proposed, including the establishment of a capitalized fund for the support of the Clergy instead of the granting of annuities and the application of a large portion of the Church revenues to support Public Worship and to defray the expenses of the management of the Church. Finally an effort is to be made to have all the clauses in the Bill referring to the Maynooth Government and the Regium Donum stricken out.

Mr. Disraeli's plan was favorably received, and the proceedings of the meeting were marked by much enthusiasm. UNITED STATES. WASHINGTON, April 12.—The project of Canadian annexation in settlement of the Alabama claims, with the joint consent of England and the Colonies, begins to attract attention in government and diplomatic circles, and is by some regarded as likely to become a prominent feature of Grant's administration.

The vivas expressed on this subject by part of the American press, the favorable response of the English newspapers, and the demand for annexation among the Colonies, especially Nova Scotia, have encouraged belief in the feasibility of the scheme, if managed with diplomatic tact and careful regard to English honor. Objections to the possibility of its accomplishment, and doubts as to the policy and safety of such an enlargement of the Republic, are strongly urged by the American press, but it is confidently asserted by others that public opinion is setting in favor of our acceptance of Canada, should it be tendered by Great Britain, as the surest mode of harmonizing the interests, and ending the jealousies between the two countries, and affording the basis of a permanent and cordial peace.

J. Lathrop Moley was to-day nominated for Minister to England. NEW YORK, April 13.—A private letter from a reliable source in Havana, says that the Government there intends to confiscate the property of all suspected parties. Gold 123 1/2.

MEAD AND MATTER.—The intimate connection between the Brain and the Muscles through the Nervous system may be seen by closing the hand, or by any voluntary movement of the body. The involuntary muscles are those which control the Stomach, Liver, Heart, etc.; they are also influenced directly by the mind, so that close study, anxiety, grief, irritation, secret excesses, and a host of other excitants acting directly on the brain, disturb the nervous system, and prevent due muscular action in those organs necessary to sustain life. Here lies the great cause of Dyspepsia, Headache, Jaundice, Neuralgia, Impoverished Blood, Irregularities, Langour, Debility, Bronchitis, Consumption, &c., &c.

This Church she walked in unbroken fellowship for forty-six years, or until her death. During that long period she was truly a comfort to the Christian in the hour of his life or his death, and she lived at a time when her heavenly vocation.
