PARLIAMENTARY.

Under the Insurance Act of last Session, thirty seven offices were livensed in the Dominion-eight Uanadian, eighteen English and twelve American. These companies had deposited \$3,723,723 as secu-ity for the benefit of their customers in the Dominion, paying \$1,888,055 in cash, and the rest in

Hen. Joseph Howe took his seat on the 13th May. He was introduced by Sir John A. Macdonald and Sir Geo. E. Cartier. There was much applause. OTTAWA, May 15th .- Rose gave notice that on Friday he would move resolutions to harmonize the laws of the different Provinces respecting the rate of laws of the different Provinces respecting the rate of interest. They would propose that six per cent. should be the legal rate, where no special rate was agreed upon. That any rate up to eight per cent. might be stipulated for and recovered, but if a higher rate than eight per cent. were agreed upon, the law would only admit of six per cent. being recovered. On the motion to go into supply, Dorion moved an amendment to present an address to his Excel-lency, setting forth the beneficial effects of the late

Reciprocity Treaty, and the desirability of its renewal, with proper amendments, and praying his Excellency to take steps to place our commercial relations with the United States on a more satisfactory footing.

OTTAWA, May 17.—Mackenzie moved House into Committee to consider resolutions respecting Intercolonial Railway. They set forth, 1st. The shortest and cheapest line that could give access to St. John should have been chosen; 2nd. That the route chosen gives the smallest commercial advantages and is the most expensive; 3rd. That it is desirable not to proceed with the work on any portion of the line not common to the Central or Southern routes, with a view to adopting a shorter and cheaper one. He supported them in a long speech. Bolton followed at length showing the greater cheapness and com-mercial advantages of the frontier route. Cartwright replied at length, and moved amendment to the effect that as despatches from Home Government had condemned Frontier line, and the guarantee been obtained for the present route, and several sections contracted for, it was undestrable to discuss the question further. Debate adjourned. OTTAWA, May 18 .- At two o'clock this morning

The Election bill introduced to-day contains the following provisions: -- Voters qualification in Counties, real estate value of \$200; leasehold of five years written lease, \$20 annually; and parties holding lands in possession under Crown incomes, \$400 from any source in cities, real estate \$400 annual rent for dwellings of \$30, leasehold of five years at \$20 yearly, and incomes of \$400 from any source. Members' qualification two thousand dollars, to be filled in variably for the first year. Three persons to be appointed by Government for each County to make up list of voters.

House divided on amendment to Mackenzie's Inter-colonial Railway Resolutions. Yeas-114; Nays-

This list to be published two (2) months and a Court then held for adjudication of disputed cases and in case of further appeal to go to County Court Judges. After first year the board of three is to be dispensed with and the County Court Judge to hold Court for revision of lists. One day's polling and open voting-elections not simultaneous. An exchange says: -H. R. H. the Princess Louise expressed to Sir G. E. Cartier and the Hon. Mr. Mc. Mr. McDougall presented her with some fine photographs of the public buildings at Ottawa, for which he has just received a pleasant letter of thanks. LONDON, May 17 .- The critical state of affairs in Paris is variously commented on by the press here. It seems to be the general impression, however, that the French Government has fomented this discontent and adopted repressive measures to stay the dis-

ST. V. DIOL ... UNITED STATES. The Boston Daily Advertizer gives the following paragraph, which speaks for itself:—
There are eight thousand women in Boston and its suburbs, working from twelve to sixteen hours a day to earn less than three dollars a week, and boarding and lodging themselves from their earnings. Many earn but twenty-five cents a day [greenbacks,] and not a few less than that. Shirts are given out to be made at 50 cents a dozen. The motion of the sewing-machine wears out the spine in a year or two, and then there is no relief but death."

One of the strongest arguments against the annexa-tion of Cuba, is the fact that the United States derive a revenue of thirty-six million dollars annually from duties on imports from that country. In the event of annexation, there would be exactly a deficit to this amount, which would go a good way toward wiping out their surplus. A Book for Every Bible Reader. "NIGHT SCENES IN THE BIBLE,"

Portrayed, Illustrated and Studied, Dy Rev. Daniel March, D. D. 'AUTHOR OF "WALKS and HOMES OF JESUS."

M ANY of the most affecting and most important scenes described in the Bible, transpired under the splenders of Oriental night. The fearful storm of fire which ildors of Oriental night. The fearful storm of fire which illumed that night of darkness, when Lot fled fron Sodom; the splendid feast of Belshazzar, when the fiery hand wrote his doom upon the gilded walls; the night of the Great Trial when the Son of God was arraigned at the Roman Tribural; Paul's Night of Shipwrack, and a hundred other like scenes are recorded in the sacred pages.

In illustrating these Night Scenes a new field was opened to the artist, and the result is a series of Steel Engravings unequalled for beauty, pathos, grandeur and skill, in any other American work.

other American work. The Stereotyping comes from a house of the highest repute for excellence in the art; the clear, open page is a constant and winning invitation to read, and the Book is sent forth from the press with the confident expectation that following in the wake of works upon war and political agitation, it will be warmly welcomed as a peace offering of many hearts.
