telegram was received from Eastport, by George E. jority 101. The telegram further stated that a quarter board up. The telegram forther stated that a quarter board bearing the name "Imperial," and a receipt book containing the name of "Wm. Powers" as mate of From containing the name of "Win. Powers' as mate of the vessel, had been found among the drift. From these particulars it is considered that the unfortunate vessel is the ship "Imperial," commanded by Capt. Henry Hamm, of this city, which was on the passage from Mobile to this port. The "Imperial" was formerly owned by James Bell, Liverpool, but was pur-chased some time since by Capt. Hamm, Mr Alex. Gibson and other St. John merchants. There is little probability that any lives are saved. This sad inteligence will carry deep sorrow to the large circle of

The Gazette says that the British Government has determined to send the artisans, who were thrown out of employment by the recent wholesale reductions in the Portsmouth Dockyard, to this country by the troop ship expected at Halifax and Quebec during the spring and summer. The London Stand-ard editorially speaks in high terms of the skill and good conduct of these mechanics; and as they include carpenters, blacksmiths, shipwrights, moulders, fi-nishers, and the other trades employed on those two great wonder-workers of the 19th century, -- wood and iron-we should naturally hail their advent to our shores right heartily and with a cordial welcome. It was the strong arms, the cunning skill, the toiling brains, of such men as these that gave England her present supremacy in the mart and on the sea; and let us hope that many more will follow, and help us to build up the great Power which it is evidently the mission of the British and French races to establish

under this northern clime. The recent flood at Montreal destroyed both pro perty and life.

OTTAWA, April 23 .- In the Parliament last night, in reply to Mr. Young, the Premier said that it was not true that the Government had employed any person to act in its behalf to endeavor to secure the pas-sage of the new Reciprocity Treaty by Congress.

OTTAWA, April 26. - In answer to several questions Sir John stated that Government had no intention of providing for further reduction of letter postage, but were considering propriety of arranging for compulsory prepayment. There was a large attendance of spectators to hear

speeches upon Galt's motion for correspondence had with Imperial Government respecting expenses in-curred by Canada in defence of United States frontier in 1863 and 1864.

Galt spoke for an hour, reviewing our relations trality. Thought it desirable that a moderate ex-pression of views of Dominion representation on this question, and the documentary history of our side of the matter, should, at this juncture, be placed before the world, and he believed it would have salutary fect upon public mind in the United States,

A peculiar characteristic of Fellows' Compound Syrup is its power of decomposing the food in the stomach, rendering digestion and assimilation more per-fect. This partly accounts for the rapidity with which patients take on flesh while using the article, Diseases such as Consumption, Bronchitis, Debili-ty from Typhoid, and other Low Fevers from excessive grief, study, or close confinement, and prostra-tion of the vital powers, yield to Fellows' Compound Syrup sooner than any remedy ever before disco-

We have often wondered whether there is a person in all New England who does not know and appreciate the value of "Johnson's Anodyne Liniment" as with American people during the rebellion and sub-sequent Fenian invasion. It extended over a considerable period, and would show that not only had the Canadian Government fully discharged its duty towards the United States during the war, but the latter Go-wernment had repeatedly acknowledged the fact, and that whatever difficulties were pending or might arise between the United States and Britain, Canada was honorably clear of any charges. THE ENGLISH LANGUAGE IN INDIA.-There is growing opinion in India, among all classes, that nguages and dialects of the country must give way to one language of enlightened civilization, and the English is generally recognized as the one. The English government has introduced English and Bengali into all its schools at Assam, which languages, particularly the English, are spreading rapidly. A missionary says that the book which the Mikirs an ziously desired in their own language three years ago, they now turn away from, and will only learn Mikir books by compulsion, so determined are they to learn Fnglish.

Dy Rev. Daniel March, D. D.

AUTHOR OF "WALKS and HOMES OF JESUS." MANY of the most affecting and most important scenes described in the Bible, transpired under the spler-dors of Oriental night. The fearful storm of fire which ij-lumed that night of darkness, when Lot fied from Sodom; the splendid feast of Belsbazzar, when the fiery hand wroto his doom upon the gilded walls; the night of the Great Trial when the Son of God was arraigned at the Roman Tribunal; Paul's Night of Shipwreck, and a hundred other tike scenes are recorded in the sacred pages. In illustrating these Night Scenes a new field was opened to the artist, and the result is a scries of Steel Engravings unequalled for heauty, pathos, grandeur and skill, in any

COUNCIL. ON the recommendation of the Honorable the Minister of Customs, and under the authority given by the Act 81 Vic. Cap. 12, Sec. 58, intitled: "An Act respecting the Public Works of Canada," His Excellency has been pleased

to the artist, and the result is a series of Steel Engravings unequalled for beauty, pathos, grandeur and skill, in any other American work. The Stereotyping comes from a house of the highest re-pute for excellence in the art; the clear, open page is a constant and winning invitation to read, and the Book is sent forth from the press with the confident expectation that following in the wake of works upon war and political agitation, it will be warmly welcomed as a peace offering of many hearts.
