Hopewell, Oct. 18, '79.
DEAR Editor.: LUMSDEN CHURCH.—Feeling that the najority of your readers are deeply interested in the cause of our Master, I have pleasure in transmitting for publication n your esteemed Visitor, the proceedngs of a meeting of delegates, appointed the Churches of Hopewell, 2d Harvey, Caledonia and 1st Coverdale, convened at Lumsden, A C., on the 15th ult., to consider the advisibility of organizing a

Church at that place.

Rev. A. Chipman was duly appointed chairman, and Deacon Robert Baisley was asked to sit in the Council. The delegates from the several churches were from Hopewell, Rev. A. Chipman, Dea. Thomas Pearson and P. R. Tingley. From 2d Harvey, Rev. I. W. Carpenter, and Robert Tingley. From Caledonia, Dea. New-Wells, James Stewart and T. W From 1st Coverdale, Dea. Robert COST PERSHIS

Prayer was offered by Rev. A. Chipman and Rev. I. W. Carpenter; and after a most satisfactory discussion, it was resolved that we organize a Baptist Church at that place; and that the further busines of organization be postponed until 6.40 p. m. At that hour, the Rev. A. Chipman gave us a short, but very appropriate address from 1st Timothy, 3d chap., 15th verse. Rev. I. W. Carpenter read in most mpressive manner the Church covenant, and gave the Charge to the newly organzed Church, after which four new members offered themselves and were received nto the Church, having been baptized by Rev. S. M. Lewis last season. The right hand of fellowship was given by Rev. I W. Carpenter. The deacons were next balloted for, which resulted in Stephen Gerrow and P. Beverly Fillmore being appointed. T. W. Peck offered the ordinaion prayer in well chosen language, and evident fervency of Spirit. Rev. A. Chipman gave the charge to the deacons, and our services came to a close.

We cannot but predict a brilliant future r this infant Church, knowing as we do, he exemplary lives of some of its members and the location being on the shortest oute from Hopewell to Elgin, it will in le near future be a thickly settled village. Rev. S. M. Lewis, who has located himelf at Lumsden, has been acting as pastor this settlement for the last year, and od has blessed his ministry in the convernon of several souls, four of whom were eceived into the Church. We notice a fore than usually warm feeling for this forthy brother, who, now having a Church ith a name under his charge, must feel hands strengthened to do his Master's ork; and our united prayer is that God prosper and add unto their numbers, any of such as shall be eternally saved. The Baptist Sunday school teachers, of New York city, met in the First church on Sunday afternoon, Oct. 12, and listened to an address by Rev. James A. Spurgeon. The occasion was one long to be remembered, and the enthusiasm inspired resulted in raising \$1,000 at the suggestion of Rev. R. S. McArthur for the purpose of sending out a new missionary among the freedmen to represent Mr. Spurgeon. In the evening, Mr. Spurgeon spoke in the Fifth Avenue Baptist church and at the close of the sermon Dr. Armitage proposed that his people send the older brother, Rev. Charles Spurgeon, £1,000 for his orphan age. A collection was taken and the money raised. At the missionary memorial meeting in New York city, Rev. James A Spurgeon enforced four thoughts: 1. Have a firm faith in God; 2. Have a profound faith in the gospel you preach; 3. Have strong faith in vourselves: 4. Have a strong Spurgeon enforced four thoughts: 1. Have strong faith in yourselves; 4. Have a strong conviction that those, among whom you are going to labour, will be saved The Centennial Baptist church, Brooklyn, have purchased the Brooklyn Rink. Allen's Lung Balsam is the great modern remedy for Coughs, Colds, Consumption, Asthma, Croup and Bronchitis. It is recommended by Physicians every-where, who are acquainted with its great usefulness. Our American Cousins

Are now much exercised about the "Almond Eyed,, incursion of their Pacific Coast. One of their latest acts is the passage of a bill to allow no more than fifteen Chinese to come on any one ship into the country. They might as well pass an act that Lake Erie should not rise above so many feet, or that Niagara should not disgorge what it will over its falls. The Chinese could not do worse than this. Surely any country is wide enough to receive all who wish to come, and should be strong enough to make the unraly behave themselves, coming whence they may. The law of demand and supply will arrange the price of labor, and Legislatures cannot alter it. It is like the laws of the Medes and Persians, unalterable. What folly it would be to our Legislature to declare that A, B, and C may do business, while D, E and F may not. If all do an honest business there is no necessity for such a law, and any law would be tyrannical which would so order. The fittest will survive. So in the medical world: a preparation which is good will be sought and the bad discarded. This is why Dr. Herrick's Sugar Coated Pills are so popular.

Fellows' Hypophosphites make an old person look years younger. "This witness is true," Would that I could more widely make it known for its many virtues. Long may its inventor live to see the happy fruits of his invention. Alexander Clarke, D. D., Amherst, N. S.

Positive Results. There are numerous remedies that cure sometimes and become trusted as useful; The Cherry Pectoral has restored great numbers of

patients who were believed to be hopelessly affected

patients who were believed to be nopelessly anected with consumption.

Ague Cure breaks up chills and fever quickly and surely.

Ayer's Compound Extract of Sarsaparilla eradicates scrofula and impurities of the blood, cleanses the system and restores it to vigorour health. By its timely use many troublesome disorders that cause a decline of health are expelled of cured.

Ayer's Pills and their effects are too well known everywhere to require any commendation from us here.

A Missionary just returned says he regards Johnson's Anodyne Liniment as beyond all price and efficacious beyond any other medicine. It is adapted to a great variety of special cases, and is the best pain killer in the world.

The most dangerour fevers are typhoid, billous, ma-larious and gastric. These all originate in the stomach, liver or bowles, and may be easily prevented. One of, Parson's Purgative Pills each night for a week will drive disease from the system.

The Denver Land Co.. offer in another column alternate lots in their addition. These alternate lots are in fact given away, though a nominal charge of one dollar is made for the deed. The Company limit the number purchasable at this price to five lots. Many of the large cities of the West have been started in a similar manner, and those who secured lots then, find themselves now in possession of valuable property. The opportunity does not often present itself of making an investment in Real Estate at such prices. The reliability of the Company and their title to the property being well established, there could be no risk, with a fine prospect for a rapid increase in value. Denver has had such a wonderfully applied that the land offered will be speepily taken up.

MESSRS. HANINGTON BROTHERS:

Gentlemen. — Three years ago I was going to write you how much benefit I received from taking two bottles of your QUININE WINE AND IRON, being then very weak and low, with no appetite for any sort of food, after a severe atlack of Erystelas in my head. Again, after the fire, I was nearly quite gone, and was restored to strength and activity by taking two bottles more, and last May I had to have recourse to the QUININE WINE AND IRON again with the same beneficial results,

While I was taking it at last, a person came in whe had left her situation to get into the Hospital, being so weak she could not work, I said, I will send you weak she could not work, I said, I will send you appear to a place where you will get seven dollars a month; take two bottles of HANINGTON'S QUININE WINE AND IRON with you, and if you are not able to earn the seven dollars I will pay you for the medicine At the end of the month she was quite smart, and is still filling the situation. 'Pulmonary Consumption arises from a decline or deflency of vitality in the natural bioplasm or germinal matter, and this deficiency manifests itself not only in a general wasting or atrophy of the whole body, but also in a peculiar degradation, chiefly in the lungs and lymphatic system, of portions of this bioplasm into a sluggish, low-lived, yet paoliferating matter, which instead of maintaining the nutrition and integrity of the tissues (which is the natural office of bioplasm) clogs them, and irritates them with a substance which is more or less prone to decay, and eventually involves them also in its own disintegration and destruction."

To remedy this deficiency by sustaining the vitality of the bioplasm, and thus provide for the general building up of the whole system, is the office and design of Robinson's Phospharized Emulsion of Cod Lever Oil with Lacto-Phosphate of Lime.

Twenty years ago Denver was a small trading post on the frontier, now it is a large city, with numerous Churches, Hotels, Theaters, Street-railroads, Gas-works, Water-works, Gold and Silver Smelting and Refining Works, with a United States Mint, and is the great Railroad Center of the West. There are seven First-class Railroads now running and connecting with all the Principal and Branch Railroads from Maine to California. It is the Capital of Colorado, naturally the richest State in the Union, and located in about the geographical center of the United States. The climate is charming, with the best water and purest air in the world, and the scenery is unexcelled for beauty and grandeur. It is surrounded by the richest Gold, Silver, Copper, Iron, Lead, and Coal Mines and Agricultural Lands in America. It is now the headquarters for Colorado, Kansas, Nebraska, New Mexico, Wyoming, Nevada, Arizona, and Northern Texas. The rich mineral and agricultural resources of this yeast country will make Denver the largest and wealthiest city in the West.

As the tide of immigration is now in this direction, it is the Company's interest to have people locate in Denver and on their property. To encourage emigration here, the Company will give to any one sending their name and address a warrantee deed, in see simple, for one or more lots in North Denver, situated in Weld County, State of Colorado, in immediate view of this beautiful city, the only charge being one dollar to pay the Notary Public sees for acknowledging deed and conveyance. The Company does not give every lot away, but each alternate one, and does not expect that every person who gets a lot in North Denver will come here, but a great many will, and they will induce their friends to follow. The increased population will soon make this property very valuable, and this Company retain each alternate lot, which they hold at prices varying from \$25 to \$500, according to location. For this reason the above proposition is made. The deeds are unconditional, not requiring any one to settle or improve, but with full power to transfer and deed to others. The limit to any one person taking advantage of this offer is five lots. This property is not hill-side, mountain, or swamp, but is level, sertile, and has advantages for building upon too numerous to mention. # CONSUMPTION CAN BE CURED

A careful observance of the laws of health, and the systematic and persistent use of Scott's Emulsion of Cod Liver Oil with Hypophosphites of Lime and Soda will accomplish this result. This preparation has all the virtues of these two most valuable specifics, in a form perfectly palatable, and acceptable to the most delicate stomach, and we make the unqualified statement that Scott's Emulsion is being used with better results, and endorsed and prescribed by more physicians for Commsumption—and the diseases leading to it, such as Chronic Coughs, Bronchitis, Scrofula, Anæmia, General Debility and the Wasting disorders of children, than any other remedy known to medical science. The rapidity with which patients improve on this food medicine diet, is truly marvellous.

Messrs. Scott & Bowne:—Gentlemen:—In September 1877, my health began to fail and my physician pronounced it spinal trouble; under his care I gotsome relief from pain, but my general health did not improve, and early in the winter, I began to raise blood and rapidly grew worse. In May last I was taken with a violent bleeding which brought me to my bed and my life was despaired of for many weeks; violent symptoms appeared, night and morning coughs, night sweats, short breath, and a return of the spinal trouble. My physician stopped the bleeding and then ordered Cod Liver Oil and Lime; and I used various preparations, but they did me no good. I lost all hope of life, and was an object of pity to all my friends. Last September I purchased a bottle of your Emulsion and before it was all taken I was better. I then bought a appetite returned, pains in the spine disappeared strength returning, and my weight increased from 118 and shall continue its use until I am perfectly well. I frequently meet some friend on the street who asks what cured you and I answer, Scott's Emulsion of Cod Liver Oil. &c. I have a friend who has not spoken aloud for 15 months and he is getting better. I gave him a bottle, and he bought two more, then got a now wonderfully. My recovery is exciting the surprise of many people, and I shall de all I can to make Jan. 20th 1879.

Messrs. Scott & Bowne:

About the 25th of last April I got a bottle of your EMULSION and at that time I was so prostrated that one who saw me thought I could live but a few days at most. I could retain nothing on my stomach and was literally starving. I commenced the use of the EMULSION in small doses; it was the first thing that would stay on my stomach; I continued its use, gradually increasing the dose; and from that hour I commenced mending, and now am able to ride and walk and am gaining flesh and strength rapidly. I have advised other parties to try it, and some two or three have already tried it. I am sure I shall entirely recover.
