ADAMSON'S BOTANIC BALSAM.

Price, 35 Cents.

Sample, 10 Cents.

TESTIMONIALS:
From Rev. Dr. Quimby.
AUGUSTA, ME., Jan. 6, 1878.
"Adamson's Botanic Cough Balsam has been used in our family for more than three years, and we can recommend it as a superior remedy for coughs and colds."
From Luther Whitman, Esq., proprietor of Windthrop Agricultural Works.
WINTHROP, ME., Feb. 19, 1878.
"Mr. FRANK W. KINSMAN—Dear Sir: I have been very much afflicted with Asthma for 7 years; the most of this time it has been very difficult for me to walk up one flight of stairs, or lie down with any degree of comfort; I have tried every remedy I could hear of without much if any improvement, until I found 'Adamson's Botanic Cough Balsam,' the effect of which has been truly wonderful. I am able to get a good night's rest and to attend to my business, and to run up and down stairs as before the Asthma came on me."
COUGH 40 YEARS.
From Alex. Winchell, 44 years. Tall Gatherer on Koonsee bridge.
I have been troubled with a very bad cough for forty years, and after trying almost every medicine in the market, at last I despatched of ever getting rid of my cough, which at times was very severe, especially after catching a slight cold, and I could find no relief until, upon the advice of a friend, I purchased one bottle of 'Adamson's Botanic Cough Balsam,' which, to my surprise, afforded me instant relief, and now I would not part with this medicine upon any terms and I am very happy to add this testimony to the many hundreds you have received, as I consider it a most valuable remedy.

Beware of imitations. See that the name of F. W. Kinsman is blown in the glass of the bottle. Price 10c. and 50c.
Sold by FRASER & LEE, 20 Beekman st., and McKENSON & ROBBINS, 91 Fulton st., N. Y.
SOLD BY DRUGGISTS AND DEALERS.

Temperance.

Gov. Gear, of Iowa, was lately asked to pardon a convicted rum-seller, and replied: "While I have great sympathy for Mr. Newton, I also have great sympathy for the wives and children who have been made sufferers by the sale of whiskey to the fathers and husbands by Mr. Newton. The petition cannot be granted."

Mr. Gough in one of his Exeter Hall speeches is reported thus: Above all things he insisted that a man should be thorough, and said though he thought most should be done by moral suasion, he was a prohibitionist, and so far a fanatic that he would not take a spoonful of brandy to save his life.

A Salutory Law.

Our late Legislature which has just adjourned was not a brilliant one. But one law has been made which will doubtless prove effective as a temperance measure. It is called the "Civil Damage Law," and makes the owner of estates on which intoxicating liquors are sold, as well as the actual sellers of it responsible in damages for any injury resulting from intoxication resulting wholly or in part by liquors sold on their estates. They are many men who are willing to rent their stores to liquor dealers, and pocket the large rents these pirates on the best interests of humanity are willing to pay, but who are not willing to be held responsible for the injury done by the drinks sold by their tenants. The law also provides that no license shall be granted unless the owners of the building join with the tenant in the application. The law is a good one. The members of the Legislature "were building better than they knew," when they enacted it. The friends of temperance throughout the State ought to inaugurate a movement at once for its thorough enforcement. Boston Standard.

Household.

GINGER CRISPS.—Two cupsful of molasses, one cupful of lard, one teaspoonful of ginger, one dessert-spoonful of soda dissolved in a very little hot water, and enough flour to make a smooth dough; roll thin.

TO RESTORE FROSTED PLANTS.—Frozen plants will often recover if taken to a room where the temperature is just above freezing, and kept from the light, allowing them to thaw gradually. The change to a very warm room would be injurious.

TO CLEAN GILT FRAMES.—When the gilt frames of pictures, or looking-glasses, or the mouldings of rooms have specks of dirt upon them from flies or other causes, they may be cleaned with white of eggs gently laid on with a camel's hair pencil.

TO REMOVE FROST STAINS IN LINEN.—To remove them rub the part on each side with yellow soap, then tie up a piece of pearl-ash in the cloth, etc., and then soak well in hot water, or boil; afterwards expose the stained part to the sun and air until removed.

BREAKFAST CAKE.—Two pounds of flour, one quart of milk, one ounce butter, one teaspoonful thin yeast, three eggs, one teaspoonful salt; warm the butter and milk together, and pour it lukewarm into the flour and add the other ingredients, mix this at night and put into a pan three inches deep; in the morning, bake in a quick oven three-quarters of an hour. This cake was always on George Washington's breakfast table the last few years of his life.

TOMATOES FOR SUPPER.—Few people know how to prepare uncooked tomatoes in the way adopted in my family, and incomparably better than any mode I ever tasted. By this mode they are very desirable for supper or for breakfast. For a family of a half a dozen of persons, take six eggs, boil four of them hard, dissolve the yolks with vinegar sufficient, and three teaspoons of mustard, and mash as smooth as possible; then add the two remaining eggs (raw), yolk and white; stir well, then add oil to make altogether sauce sufficient to cover the tomatoes well; add plenty of salt and cayenne pepper, and beat thoroughly until it frosts. Skin and cut the tomatoes a fourth of an inch thick, and pour the sauce over and you have a dish fit for a president. Though a little troublesome to prepare, yet if once eaten by people who are blessed with palates to enjoy good things, they will be pronounced to be far superior to any other mode of preparation. We use them constantly in this way for these meals. For dinner they are best stewed, but they should always be strained before sending to table.

CRULLERS.—One coffee-cup of sugar, six large tablespoonfuls of melted butter, one pint of sweet milk, two eggs, a little nutmeg, one teaspoonful of soda, one teaspoonful of salt; mix in the flour until the dough is soft and can be easily handled; roll, cut the cake, and fry in lard.

YORKSHIRE PUDDING.—A quarter of a pound of flour, with a quart of water or milk; three eggs well beaten, to be mixed with it; pepper and salt; butter the pan; put it under the beef so as to catch the gravy; have it in a good big pan so as to be thin. Cut it in pieces when served with the beef, and arrange around the dish.

RICE PUDDING.—One heaping teaspoonful of rice, one pint of water. Boil the rice and water until the water is evaporated; then add one pint of milk, a lump of butter the size of an egg. Take five eggs; use the yolks, which beat up with the rinds of two lemons; add this to the rice, with two teaspoonfuls of white sugar. Butter the dish and bake slowly. With the white beat up light two tablespoonfuls of powdered sugar, and the juice of the two lemons. When the pudding is baked put on this frosting, and let the rice pudding be just warm.

TO REMOVE IRON RUST FROM CLOTH.—Wet the spot with cold water, and place the cloth in the sunshine. Then mix equal quantities of cream-tartar and table salt, and sprinkle the mixture upon it until the dampness has absorbed a great deal, then lay on enough to hide the spot. Wet the spot with cold water every half hour, and if the stain is then seen, cover it again with the cream-tartar and salt. Keep it in the sunshine, and continue these applications till the stain is gone—if recently contracted, two or three applications will remove it.

TO PREVENT STAIR CARPETS FROM WEARING. Stair carpet should always have a slip of paper put under them, at and over the edge of every stair, which is the part where they wear first, in order to lessen the friction of the carpet against the boards beneath. The strips should be within an inch or two as long as the carpet is wide and from four to five inches in breadth. A piece of old carpet answers better than paper if you have it. This plan will keep a stair carpet in good condition for a much longer time than without it.
