

News Summary.

NEW BRUNSWICK.

An official telegram to the Mayor announces that the Governor General and the Princess Louise will leave Quebec for St. John on August 5th. They will probably arrive here on the 6th. They will receive a very hearty enthusiastic welcome. The people will do all in their power to pay respect to the representative of their sovereign and to their Queen's daughter.

The mysterious hole at Jolicure abandoned last fall in consequence of the water making faster than it could be pumped by horse power is again being worked. A steam engine has been procured, with pumping machinery and hoisting gear and the work of sinking has been commenced this week. Our readers will recollect the hole was large, nearly circular, of unknown depth, with hard walls, filled up with loose dirt. The owners of stock profess the utmost confidence in finding treasure.

A correspondent at Hopewell, A. C., writes: "As some men were engaged repairing a dyke here recently, they discovered a large bone in the mud. On digging it up they found it to be about sixteen feet long. The tide had evidently washed away considerable of the bone, so that it was hard to tell how long it had been. The mysterious 'find' was about eighteen inches in the widest part and five inches thick, and stranger of all there were no joints in it. It has, no doubt, been lying in the mud for a number of years. To what species of animal it belonged, and how it came where found, will, no doubt, remain a mystery."

Diphtheria has again appeared in the vicinity of Bayfield, Botsford. Eight families have been afflicted and the following four have been called upon to mourn for the loss of children from this dread scourge, viz., Messrs. Herbert Trenholm, Albert Trenholm, James Spence, Jr. and Wm. Spence.

There is a strike among the stone-cutters in the city, and the men have notified the stone-cutters in other places to "keep away from St. John."

Polite Downing, found guilty of shooting Lewis A. Ward, was sentenced to two years in the Penitentiary, and Smith, for attempted murder of Atkinson, to ten years in the same institution.

On Thursday morning during the removal of a defect in the Northern wall of Trinity Church School House, a large portion of the wall fell to the ground, and a workman named Edward O'Brien was partially buried in the ruins. He was badly bruised about the head, and on being taken to the hospital it had been found that several of his ribs were broken.

Mr. Allen Titus, of Moncton, who was struck with paralysis while on one of the marshes, some time ago, died on Wednesday, at 5 p. m., from the effects of the stroke.

The train North, on Tuesday afternoon, when eight miles above Hillsboro', ran into a number of cattle and the engine was thrown from the track. One ox was killed, and two others so badly injured that they had to be killed.

About two weeks ago, two Indian town men Andrew J. Miller and J. Henry Stevens, started in a sail boat on a trip up River for the purpose of collecting old junk. At Westfield the parties landed and procured a bottle of liquor, and when next heard of Miller was alone in the boat near Spoon Island. He was under the influence of liquor, and could not tell what had become of his late companion. Miller returned to Indian town, and after several days, no tidings being received of Stevens, a search was begun which resulted in the finding of his body near the place where the parties were last seen together. It is supposed that while Miller slept Stevens accidentally fell out of the boat and was drowned, and the Coroner's Jury returned a verdict to that effect.

Daisy Golding, a child 13 months old, will be exhibited in St. John about the time the Governor General and Princess will visit the city. The child, which was of the ordinary size at its birth, has increased in weight from 4 to 6 pounds every month since, and still keeps growing. The child is in charge of its mother, and is said to be a great curiosity.

A very sad accident occurred in Portland, Thursday afternoon. It appears that two boys named Henry Morris and John Matthews went bathing in a creek in rear of St. Peter's Church, Portland, between four and five o'clock. The water is very low—not above the boy's shoulder—and the mud bed is very soft. They speedily sunk in the mud, and despite their desperate struggles for life, were covered by water and suffocated.

Mackerel have struck in quite plentifully along the coast east and west of Cape Tormentine.

The Grand Southern Railway, we are glad to learn, is now in a fair way of completion. Work has been resumed on the road; the rails have been purchased and are being shipped in London, and the rolling stock has been secured in the City of New York. We congratulate the Grand Southern Directors on their success.

On Monday night, the barn and house formerly owned by the late Paul Niles, and now belonging to Messrs. D. E. Casey & Sons, Bay Verte, was discovered on fire, the premises being unoccupied. An alarm was raised and the neighbors gathered and succeeded in subduing the fire in the house, but the barn was destroyed. Loss \$100. Not insured. A warrant has been issued to apprehend one Joseph Niles, who is suspected to have committed the deed.

Mr. Robert Miller, who has charge of the flag station at Bel River, lost one of his children by drowning on Sunday. It appears that the little one fell from the bank into the brook near the line at that place, and although it contains very little water at this season, the child was unable to rise to its feet, having been stunned in the fall, as evidenced by a mark on the forehead which was noticed when the body was found.

The Governor General and the Princess Louise will visit St. John on Wednesday morning next, Aug. 6th, and remains three days. A "Drawing Room" will be held on Thursday evening. The distinguished visitors will occupy "Reed's Castle," Portland, as a residence during their stay.

Two pillars of polished red granite from the St. George quarry, weighing five tons each were shipped per the I. C. R. R. for Chicago, by Mr. J. Newton Reed.

The dwelling house occupied by Stephen Ayer, at Middle Sackville, was burned to the ground on Friday night. Fire was discovered about ten p. m.

NOVA SCOTIA.

At Pugwash, on the 21st, a boy named Henry VanBuskirk, eleven years of age, was found dead near a cart, having hung himself accidentally with a piece of rope.

The Digby correspondent of the Halifax Herald writes to that paper that he is credibly informed work on the W. C. R. is resumed. Mr. Plunket, Mr. Wassel, chief engineer, and Mr. Brown, bridge builder, have passed through Digby en route for Weymouth, to resume work on the bridge there.

One of the passengers by the ill-fated "State of Virginia," a man named Peden, whose wife and two children were drowned, has become insane through grief, and has been sent to the Lunatic Asylum at Halifax.

One day lately the wife of Mr. R. Scott, of Lunenburg, met with a serious accident. She was standing on the front door-step, when, being taken with a sudden faintness, she fell off, displacing her collar-bone and severely bruising herself.

The Canada Steel Company, it is said, expects to relight their furnace and resume active operation at an early day.

A little boy of ten years, son of Mr. Robt. Gilholm, was drowned in Muggah's Creek, C. B., on Wednesday afternoon while bathing. The little fellow was subject to fits, and from the position of the body when found, it is thought he took a fit after going into the water.

The Cape Breton "Advocate" says: "A man named McDonald, belonging to one of the country districts, was brought before Mr. Justice McVarish yesterday, on a charge of obtaining money under false pretences. It appears that the man has been going about with a paper alleging that he lost by fire his house and its contents, embracing everything he possessed in the world, leaving his family entirely destitute. He succeeded in obtaining a considerable sum, when it was discovered that the story of the loss of his house was a huge fabrication, designed to gull a charitable and unsuspecting public. He was immediately arrested and brought as above stated, before Mr. McVarish, J. P., for trial. He pleaded guilty to the charge, but on account of the destitute condition of his family and some extenuating circumstances, his punishment was made light. He was sent to jail for ten days."

PRINCE EDWARD ISLAND.

Fishing reports from various parts of the country are that although the catch is average, the Mackerel are very small. Fishermen are living in expectation of better luck.

A movement is on foot in Summerside for the establishment of a Caledonia Club.

The Brethren of "Prince Edward" Lodge No. 22, I. O. O. F., of S. Side, intend holding a grand moonlight excursion in honor of the third anniversary of their Lodge, on Tuesday, the 5th of August, next.

Senator Haviland was sworn in Lieutenant Governor of P. E. I. on Saturday last. It is very sincerely to be hoped that Mr. Haviland will fill the gubernatorial chair with the same dignity and precision as did his predecessor.

The civic election for the city of Charlottetown, are to be held on the 1st of August. There seems to be but little interest manifested in them as yet.

The public accounts for the city of Charlottetown shows a deficiency during the last year of \$3,217.96. Some public works that are not counted under the head of ordinary expenditure have been erected.

The ladies of the Methodist Congregation of Alberton intend holding their Tea and Apron Fair, on Tuesday, the 19th of August next.

A large potato was on exhibition on Saturday, grown in the garden of Mr. Geo. Hooper, Euston street, which measured round its length ten inches, and round its width seven and a half inches. This is considered an extraordinarily large potato so early in the season. It is of the early rose variety.

Mr. E. F. Dawson, C. E. of the Royal East India Civil Service, arrived home on Saturday evening from England via Halifax, on a short visit to his parents before going to India this fall. This young gentleman is a son of W. E. Dawson, Esq., Mayor of Charlottetown.

Mr. I. C. Hall, of Charlottetown, shipped by steamer Worcester to Boston on Thursday, one hundred and fifteen barrels of mackerel. This is the first shipment of mackerel from this port the present season. Mackerel are at present worth \$8 per barrel.

Capt. John Salmond died in Charlottetown on the 22nd. He was a midshipman under Nelson, and served at Copenhagen in 1805. He must consequently be nearly 90 years of age. He crossed the Atlantic some 68 times and never lost a man or ship.

Mr. Jas. Hennessey, laborer, met with a serious and almost fatal accident in the Railway yard, at 9 o'clock yesterday morning. He, in company with others, was unloading flat-cars of heavy lumber, a log over twenty feet long, and

nearly three feet in circumference fell upon him jamming him against another log, breaking one of his legs by the thigh. Had it fallen in any other part of his body save the legs, the injuries would, doubtless, have been fatal.

The papers in opposition to the P. E. I. Government claim to have a case of swindle against the Government in reference to the contract for the supply of meat to the Asylum and Poor House. The lowest tender for the meat supplies of both these institutions was not accepted by the Government, but the tender of a political favorite was accepted at a considerable higher rate. If this is the case, it is a pity that public men should be so recreant to the first principles of independence as to let party matters interfere in the discharge of duties they owe to the public.

A correspondent to the "Patriot" writing from Alberton says:—Mackerel continues plentiful. Good hauls were made on Wednesday afternoon. Some boats belonging to this harbor landed as many as two thousand. Champion Bros., took about 80 barrels in their seine. A strong gale from the N. E. accompanied by thunder and heavy rain, sprung up on Wednesday night and continued throughout yesterday. As yet no damage to shipping has been reported. No injury will likely be sustained by the crops except, perhaps, that the heavier growth of clover may be knocked down.

The schooner "Lizzie and Emma" of this port, picked up, about forty miles off Sable Island, two sailors who were adrift in a dory since the 10th. They were landed at Sheet Harbor.

A letter from Capt. Joseph McDonald of the brig "Reata," reports that while on the recent passage from Georgetown to Honfleur, France, in latitude 21, W., he lost one of the crew named Daniel Gillis, supposed to belong to Rollo Bay. Gillis was a carpenter, and worked at the building of the "Reata." He was swept over by the main-gaff, and was drowned before assistance could be given.

The Rev. H. P. Cowperthwaite, A.M. preached his first sermon in the Methodist Brick Church Charlottetown, on Sunday evening last, in the capacity of pastor.

On Thursday a lad named John McAree, was arrested at the instance of Mrs. Bridget O'Brien, his aunt, for stealing \$50. It appears that Mrs. O'Brien had just come from Boston and was on a visit to McAree's mother. On Wednesday she missed a purse containing fifty dollars, and shortly after McAree's little sister gave her \$4.38 which her brother had given her. The boy was arrested and acknowledged the theft. A small portion of the money was recovered from him, but he refuses to tell what he had done with the remainder of it. Another boy who was in company with McAree has also been arrested.

UPPER PROVINCES.

Capt. J. W. Jennett, a passenger on a vessel from Quebec, has just returned from Labrador and has just discovered a number of Islands with immense deposits of guano, and has secured them from the English Government. He has been offered half-million of dollars for his discovery.

Mr. Sheriff Jarvis, of Toronto, received a communication from the Secretary of State to the effect that the Governor General has been pleased to commute the sentence of death passed on Edward Thickpenny to imprisonment for life in the Provincial Penitentiary at Kingston. Thickpenny will be taken there immediately.

Gov. Letellier of Quebec, whose dismissal was recommended by the Dominion Government last winter, and referred by the Governor General to the Home authorities to decide whether His Excellency could constitutionally comply with this advice of his ministers, has at last been dismissed—the Crown authorities leaving the matter in the hands of the Canadian government. Hon. Dr. Robitaille will be his successor.

Mr. George Bell, a farmer, living a few miles from Caledonia, Ont., met with a very serious accident while cutting grain lately. His hat blowing off he leaned over to catch it, and the machine being in motion the rake caught him drawing him before the knives, completely severing one arm and inflicting other injuries. He may recover.

Montgomery, a forger from Port Hope, carried stolen jewellery with him to the States. He was captured some time ago, his diamonds having been confiscated for not paying duty. Mr. Bonstead, of Toronto, went over and obtained the release of the diamonds on the plea that they were not dutiable, being stolen.

A couple of Mormon missionaries held a meeting at the emigrant shed, Winnipeg, on Sunday week, which was largely attended by Icelanders. The preachers and the listeners not being in accord in their views, the latter bounced the former. The missionaries then applied to the police, but not having been injured, no action was taken by the authorities.

BRITISH AND FOREIGN.

Twelve sets of telephones were sent out to Sir Garnet Wolesley for use at the seat of war in South Africa. The great use of the telephone over the telegraph is that the General can carry on confidential talk with the officer at the district station, or a soldier can creep out toward the enemy's lines, and whisper back the information as to position. A fine wire—the thinner the better—is all that is needed. This the soldier carries on a reel on his back, a mile weighing only a few pounds. This will be the first time the telephone has been used as an instrument of warfare.

The Queen, by the recommendation of the Duke of Cambridge, Commander-in-Chief of the British Army, has appointed as one of her aides-de-camp Colonel Gzowski, of the Canadian rifle team.

A wife who is only fourteen years of age is suing for divorce in a New Jersey court, which is the natural and probably the best result of so early a marriage.

The British Residency of Mandalay will be removed to a safer position and the guard increased to 5,000.

Severe rain storms have occurred in Yorkshire and Derbyshire, and large tracts of land are flooded.

The Prince of Wales has started a subscription for the purpose of erecting a national memorial to the Prince Imperial.

Country Market.

WEEKLY REPORT OF PRICES.

Shoulders, do.	7 9
Mess Pork, per bbl.	14 00 to 14 50

These quotations are given for Domestic Produce only.

VEGETINE

Gives a Clear Complexion.

PHILA., Pa., July 8, 1877.

H. R. Stevens, Boston: Dear Sir—The great benefit I have received from the use of Vegetine induces me to give my testimony in its favor. For several years my face has been covered with pimples, which caused much annoyance, and, knowing it to be a blood disease, I consulted a number of doctors, and also tried many preparations without obtaining any benefit, until I commenced taking Vegetine, and before I had used the first bottle and found my health much improved, my humor entirely cured.

Yours respy, MISS W. KEEFE.

1130 Carpenter St.

VEGETINE.

REPORTS FROM OTTAWA.

OTTAWA, CANADA, Dec. 31, 1878.

H. R. Stevens, Boston: Dear Sir—I have used your Vegetine in my family for several years and consider it an invaluable medicine. I can heartily recommend its use to those desiring a safe and efficient remedy for all diseases of the stomach and impurities of the blood. I may add that I have advocated its use to several of my friends and acquaintances with the most gratifying and satisfactory results.

Very respy yours, MRS. W. G. HERLEY.

No one can doubt the truthfulness of the above certificate, coming from so responsible and influential parties. Mr. Herley is senior member of the firm of Perley & Pattee, one of the largest and most extensive lumber firms in America.

VEGETINE

CURED SCROFULA.

PHILA., Pa., July 18, 1877.

H. R. Stevens: Dear Sir—I can heartily recommend your Vegetine as the Great Blood Purifier. I have been afflicted for many years with scrofula, and Vegetine has cured me. I keep it constantly on hand to keep my bowels regular, and am constantly recommending it to all whom I hear needing a remedy like yours.

Truly yours, JOHN McGETTIGAN.

Being personally acquainted with Mr. McGettigan, I can vouch for him as being reliable in his statement, as he has sold him Vegetine.

VEGETINE

Gives Life and Vigor.

HASTINGS, Minn., Dec 16, 1878.

H. R. Stevens, Boston: Dear Sir—I will do all I can in regard to Vegetine, which has been the saving of my life, and I believe of thousands of others. It is good for General Debility and Female Weaknesses and will give life, vigor and strength to both sexes.

Yours with respect, MRS. SUMNER WALTON.

VEGETINE.

DRUGGIST'S REPORT.

PHILA., July 6, 1877.

H. R. Stevens, Boston, Mass.: We have sold your Vegetine for some years past, and our customers recommend it as being the best and safest Blood Purifier in use. We have sold many articles of the same description, but Vegetine gives the most universal satisfaction. We always recommend it with confidence.

HANSSELL BROS., Druggists, 1023 Market St.

VEGETINE

Prepared by

H. R. STEVENS, Boston, Mass.

Vegetine is sold by all Druggists.

McShane Bell Foundry

Manufacture those celebrated Bells for Churches, Academies, etc., and also Brass and Gun Metal.

HENRY McSHANE & Co.,

1715 Baltimore Md.

BENSON'S CAPSINE POROUS PLASTER

A WONDERFUL REMEDY.

There is no comparison between it and the common slow acting porous plaster. It is in every way superior to all other external remedies including liniments and so-called electric appliances. It contains new medicinal elements which in combination with rubber, possess the most extraordinary power of relieving, strengthening and curative properties. A physician in your own locality will confirm this statement. For Rheumatism, Neuralgia, Sprains, Dislocated Joints, Burns and Scalds, Colds and Coughs, Affects of the Heart, and all ills for which porous plaster is used, it is simply the best known remedy. Ask for Benson's Capsine Porous Plaster and take no other. Sold by all Druggists. Price 25 cts. Sent on receipt of price by Seabury & Johnson, 21 Flattery street, N. Y.

GATES' Life of Man Bitter

Invigorating Syrup.

From the Roots and Plants of Nova Scotia. Formerly manufactured by Mrs. Gates, of Wilmet, who was pronounced incurable of Liver Complaint and Dropsy by many skillful physicians, when producing severe symptoms. She was cured by the use of this medicine, and her cure was so complete that she was enabled to resume her former occupation. These medicines are extracted entirely from the roots and plants of the Vegetable Kingdom, such as Life of Man Roots, Sarsaparilla, Consumption Roots, and Female Nerve Roots, etc., which make up a compound of different remedies, viz.: No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

We do not pretend to offer them to the public as a perfect cure for every disease, which every intelligent mind knows is out of question. We only wish to make known what they positively will do and to make them known to the public. These medicines are prepared by a process which does not destroy the natural strength of the system, but rather restores it to its own state, so that no family should be without them. These medicines are carefully compounded upon scientific principles by those thoroughly acquainted with the medicinal properties of the various roots and plants of the Vegetable Kingdom. They will have on the system, consequently we feel safe in recommending our medicines with the greatest confidence. It has become an undeniable fact that the system becomes infected with many of the most dangerous diseases, which are not muscular or glandular parts of the body, it can only be made healthy by cleansing the blood; and this done the disorder lets go its hold and nature resumes her original strength. A medicine that does not harm, and restores nature to its own state, so that no family should be without them. These medicines are carefully compounded upon scientific principles by those thoroughly acquainted with the medicinal properties of the various roots and plants of the Vegetable Kingdom. They will have on the system, consequently we feel safe in recommending our medicines with the greatest confidence. It has become an undeniable fact that the system becomes infected with many of the most dangerous diseases, which are not muscular or glandular parts of the body, it can only be made healthy by cleansing the blood; and this done the disorder lets go its hold and nature resumes her original strength. A medicine
