

News Summary.

NEW BRUNSWICK.

The *Globe*, referring to Friday's meeting of the creditors of the DeVeber estate says:—

The statement submitted to the meeting showed the total liabilities of the firm, direct and indirect, secured and unsecured, to be \$889,956.73. The assets are put down at \$569,049.01, among which are included the following: Book debts, good, \$51,788.18, doubtful \$109,728.70; shipping \$74,925.91—against which there is a mortgage of \$16,043.33; real estate \$59,347.73 which is mortgaged for \$28,000; stocks and bonds \$219,741.02, mortgaged for \$20,481.14; Petiteville Lumber Company's acceptances, held as collateral by creditors \$16,000; mortgages held \$1,007.44; goods in store \$4,219.07, against which is a bill of sale for the mill value, cash and promissory notes on hand \$2,991.83, leaving a deficiency of \$326,347.72.

The *Montreal Advertiser*, Shediac, has re-appeared again in the old form. Mr. Robideaux, the enterprising proprietor, lost heavily in the October fire, in common with other business men of the town, and though he states that the delay attendant upon the re-appearance of his paper was greater than he expected, still under the circumstances there is reason for congratulating him, and we wish him even a greater measure of success in the future than in the past. The business men of Shediac generally have shown recuperative powers that would be creditable to more wealthy localities, and no doubt recognize the importance of having a live medium, such as the *Acadian* is, for carrying their announcements to the whole people. The importance to the Acadian population of the Province generally in having a newspaper devoted especially to their interest, can scarcely be over-estimated, and they will no doubt extend a generous support to Mr. Robideaux.

Trains after the 31st inst., will be discontinued, it is said, on the Grand Fall and Edmundston branch, and not on the Woodstock branch as stated in the *Telegraph* of the 6th inst.

Work at the new brass factory at Moncton, is progressing satisfactorily. The present open spell of weather is most favorable for brick-laying, and the wall has been raised to quite a height. The windows in the first flat have been put in and are partly laid up with bricks. A siding is being laid down to the building from the main line of railway.

The verdict for \$6,000 awarded to the young man Waterbury, formerly a post office clerk in St. John, falsely accused of tampering with money letters, has been sustained by the Supreme Court at Fredericton. The Government should pay the amount at once; Waterbury's case is an exceptionally hard one.

Gabriel Garneau, a Madawaska Frenchman, was run over by the train at Westfield, on Monday evening. His injuries proved fatal. He leaves a family.

A schooner from Quebec with several cases of small-pox on board has been quarantined at Bathurst.

The Chatham *Advertiser* reports the drowning of a boy named Stewart, in the Miramichi river, a short distance below Chatham.

A correspondent states that a good many farmers in Albert intend fattening cattle this winter, with a view of exporting to the English market. The Turner Bros. and Smith Bros., of Harvey, are mentioned in this connection.

It is said that the Minister of Marine and Fisheries has ordered the *Northern Light* to be placed on the Capes route, this winter, and he has ordered 400 tons of coal to Cape Traverse for her which is being landed there.

Miss May Williston, youngest daughter of Judge Williston, and Miss Janie Watt, daughter of C. C. Watt, Esq., of Chatham, while skating with Mr. McCully, school teacher, from Chatham to Newcastle, broke through the ice near Douglastown, at five o'clock, Saturday. Both ladies were drowned. The bodies were recovered at 9 p. m. Their ages were about 17 years. Mr. McCully escaped.

PRINCE EDWARD ISLAND.

On Monday evening a dwelling house at Souris is owned by Mr. McLaughlin was totally consumed by fire.

About 11 o'clock on Wednesday night week the dwelling house of Mr. James McCordle, Emyvale, Lot 30, together with all its contents, was destroyed by fire.

On Monday evening last, a little girl aged about twelve years, daughter of Mrs. John Hope, Tyne Valley, was drowned in Yeo's mill pond at that place. It appears that she was sent to the pond for a bucket of water, and venturing too far out, the ice broke through and she was drowned before assistance could arrive. She was missed about a half an hour after leaving home, and the scarf she had worn was found floating in an opening in the ice. The body was fished up shortly after, but life was extinct.

The number of cases of burglary and stealing in Charlottetown is becoming alarmingly great. One of the island papers gives a column under the heading, "A chapter of crimes," in which are enumerated instances of burglary, highway robbery and stealing which could not be surpassed in New York.

Up to this date one million three hundred and fifteen thousand bushels of oats have been shipped from the Province of Prince Edward Island.

The *Journal* report that this fall Hon. John Letourgeau shipped 95,000 bushels of oats and has 20,000 more on hand, besides 7,000 bushels of potatoes; Mr. McMillan shipped 64,000 bushels of oats and will ship 36,000 more. Capt. Richards shipped 151,000 bushels oats and has still 40,000 bushels on hand.

Mr. I. C. Hall purchased on Tuesday, from Mr. Andrew Smith, Royalty, a carcass of pork which weighed seven hundred and forty-two pounds.

A young man named Alexander Steele, mate of the brigantine *William*, was drowned off Pannure Island on Friday evening. While fishing the ship's anchor he accidentally fell overboard. A board was thrown to assist him in floating. This he caught hold of, but it is supposed the vessel, which was under way, struck him and thus he sunk. The unfortunate young man belongs to Georgetown and was brother to Capt. Angus Steele, who was lost in the *Gypsy Bride* off Rollo Bay, in the fall of 1877.

NOVA SCOTIA.

The Railway between Digby and Yarmouth opened last month is to be closed on 15th, in order to press the Dominion Government into relinquishing the Windsor Branch.

On Monday, the 24th ult., a tornado, accompanied by hail, swept over Sydney Mines, Cape Breton, carrying everything before it; trees were uprooted, fences destroyed and large stones carried considerable distance, while a hay stack was lifted completely over a fence. Some children were knocked down, and men found it impossible to keep their feet. The water in a pond was raised several feet, and dashed to and fro with great violence. The storm came with a terrific noise, as of distant thunder. The oldest inhabitant has never beheld such a storm before. Terror fell upon all who witnessed it. On the following morning lightning was witnessed in the same locality.

On Friday, at Conquerall, a sad accident occurred. Simon Naugler, son of Mr. James Naugler, was with his father in the woods chopping. They had felled a tree, which lodging, they left and went sawing another into pieces, when suddenly the lodged tree fell and struck the young man on the back of the head. This is the second time this family have been thus bereaved.

Mr. E. F. Couch, the enterprising American, who recently purchased the Ross Gold Mine at Montague, for \$50,000 has made another purchase that of the "Temple Mine," lying adjacent to the other one. The price, we learn on reliable authority, is \$18,000. This looks as if Mr. Couch means business in gold mining, and shows further that a shrewd "live" American sees money in an enterprise which our own people have scandalously neglected for many years.

A sad drowning accident is reported from Argyle, Yarmouth Co., by which Michael Wrayton, aged 71, Lovell and Cassie Wrayton, aged 19 and 17 were drowned. They lived a number of years on Wrayton's Island. They left the Island in a sail boat for Argyle, and when a short distance off a squall struck and upset the boat, drowning them all.

The Anglo-American Cable Company's cable has been broken near Sydney. C. B., and cable business is considerably delayed.

Mr. Charles Bragg of River Philip, raised this season 900 bushels of different kinds of grain.

A farmer at Wolfville, this season, raised \$900 worth of apples in one orchard.

Pictou coal shipment during the week ended Dec. 6th amounted to 720 tons; total to date, 199,408 tons.

Messrs. Churchill & Sons, Hantsport, launched a new bark to-day, called the *Plymouth*, of 13000 tons register. She classes 14 years in Lloyd's.

UPPER PROVINCES.

The Government have decided to cancel the contract for operating the Pembina branch. Mr. Schreiber will go to Winnipeg within ten days to take charge of the road; his place on the Intercolonial will be filled by Mr. Pottinger, who is now in the city.

The contract for a portion of the rolling stock supplies for Riviere du Loup branch has been awarded to the Cobourg car works.

The Government have appointed Mr. Trutch, ex-Lieut. Governor of British Columbia, to a lucrative permanent commissionership connected with the Public Works department.

Negotiations are said to be going on between the Quebec and Dominion Governments relative to the purchase of the North Shore Road by the Dominion on the basis of an extension to connect with some points on the Canada Pacific Railway.

A species of black fever is said to have broken out at Wolf's Cove near Quebec. Its victims succumb within an hour after being attacked. A few cases are already reported.

BRITISH AND FOREIGN.

A correspondent reports that great excitement prevails at St. Petersburg. Gendarme and police force have been largely increased. They incessantly patrol the streets of the city, and are especially numerous and vigilant near the winter palace. These circumstances indicate that fresh attempts upon the life of the Czar are anticipated. Walujeff, who was formerly a favorite with the Czar and author of various reform plans, has now fallen into complete disgrace, the Czar having flung his constitutional projects into the fire when Walujeff presented them and dismissed Walujeff himself. Gortschakoff and Giers have regained all their former influence. Markoff, Home secretary, will probably be dismissed and Ignatiev designated as chief of the Asiatic department of the Russian State Chancellery.

The overflowing of Rivers Karos and Maros has caused fearful destruction. The City of Arad and several other towns were ruined and the inhabitants driven away. Fully 10,000 persons have been rendered homeless.

A despatch from Buenos Ayres on the 4th, says that intelligence has been received that the allied Peruvians and Bolivians have been completely defeated at Tarapaca, Peru, by the Chilians, who have taken possession of the town. The losses are heavy on both sides. The Chilean squadron is blockading Africa.

Placards have been posted throughout the County Kerry, it is believed at the instance of The O'Donoghue, (who has heretofore opposed the national movement) called for a monster meeting at Killarney on the 26th. The placards are violent, but advises to keep the agitation within the law.

It is stated that a detachment of 200 infantry has been ordered from Ballinrobe, Connaught, to the neighborhood of Ballina in the same Province, where a great land meeting is announced for Sunday.

A Capetown despatch of the 25th ult. says:—The Colonial forces successfully stormed Moirosi's Mountain on the 20th of November and Chief Moirosi was killed during the fight. On the British side two colonists were wounded, and two native allies were killed. The attack on Chief Seceoni has been postponed until 25th November.

General Roberts telegraphs from Cabul on the 13th inst., that the enemy have been defeated on all sides, but notwithstanding their losses, parties of Afghans still remain in the neighborhood. The British loss during three days fighting was 43 killed, including 6 officers; and 76 wounded of whom 10 were officers.

BENSON'S CAPSINE POROUS PLASTER

FOR WOMEN AND CHILDREN.

Females suffering from pain and weakness will derive great comfort and strength from the use of Benson's Capsine Porous Plaster. Where children are affected with whooping cough, ordinary coughs or colds or weak lungs, it is the one and only treatment they should receive. This article contains new medicinal elements such as is found in no other remedy in the same form. It is far superior to common porous plasters, liniments, electrical appliances and other external remedies. It relieves pain at once, strengthens and cures where other plasters fail, even relieve the most severe cases of Rheumatism, Kidney disease and all local aches and pains it is also the best known remedy. Ask for Benson's Capsine Plaster and take no other. Sold by all Druggists. Price 25 Cents.

The Diet of Worms.

Worms infest the upper part of the bowels and feed on chyle. The voracious appetite and great emaciation of flesh, and this enormous desire for food, which is never satisfied, is, no doubt, occasioned by the immediate consumption of the chyle, for the worm feeds upon the extracted nourishment of the food, and the result is a perfect starvation. The appetite becomes variable and voracious, the bowels in children, are among the causes producing worms. A brisk, regular motion of the bowels would always prevent worms from infesting the intestines. The appetite becomes variable and voracious, the belly is hard and swelled, there is the picking of the nose, the starting in the sleep, and the grinding of the teeth. The flesh becomes wasted, and the child is liable to convulsions. Frequent pain in the bowels and sickness of the stomach are strong symptoms of worms. There is really no need to send for a physician in such a case. Dr. Herriek's Sugar Coated Pills, which any child will willingly take, are specially adapted to the relief of such cases. They are really a family medicine which cannot safely be ignored.

We publish the announcements in our advertising columns for pay, and seldom trouble ourselves to enquire as to the qualities or merits of the wares advertised, further than to assure ourselves that they are legitimate and respectable. But when an article performs so well in our columns, and makes so many young in appearance at least, we cannot pass it by unnoticed. We know of people who, years ago, were gray-headed and who now wear dark and glossy hair. How is this? It is evidently colored, for it has a perfectly natural appearance. Instead of the harsh, dry, staring look of hair stained with nitrate of silver or other common hair dyes. No! It has been restored to its youthful color, lustre and vitality by the use of that wonderful medicine, Hall's Vegetable Hair Renewer. It is the best hair restorer, but there is nothing like it. The test of years only increases its fame, while its imitators die and are forgotten.—*Boston Daily Globe*.

Dr. P. Meredith, of Cincinnati, says: "About one year ago I took a cold, which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and mucus. During the last winter I became so much reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhoea set in. My friends thought I was in the last stages of Consumption, and could not possibly get well. I was recommended to try Allen's Lung Balsam. The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my profession as usual."

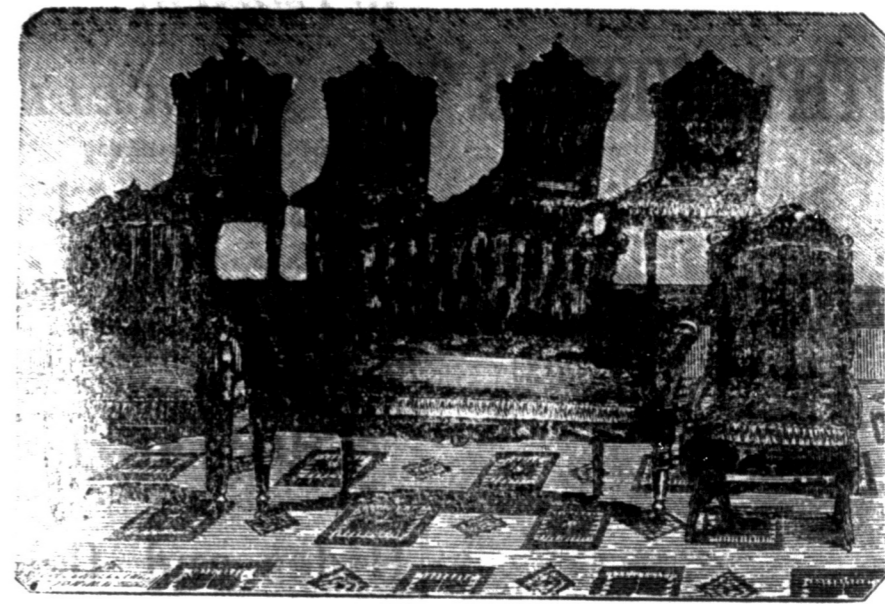

Adams' Botanic Balsam will not make new lungs, but will prevent the disease from spreading throughout the whole substance of the lungs, thereby facilitating recovery. Price 35 cents. Bampel & Co.

A large proportion of children who die early are those whose brain development is unusually large in comparison with the body. Why is this? Simply because the functions of the body are too frail to supply the waste going on in the brain consequent upon active intelligence. Fellows' Compound Syrup of Hypophosphites is so prepared that it imparts the vital principle directly to the brain, while it assists in developing a vigorous and robust body.

Missionaries in Foreign Lands find the Pain-Killer an auxiliary in introducing the Gospel to the heathen; with it they heal the sick, and so gain the confidence of the poor people.—this done, they then tell them of the wonders of our precious Gospel, and are believed. Missionaries have introduced this article in every country of the earth.

A gentleman afflicted with the chronic rheumatism says: "No description of my case can convey the amount of benefit I have received from the use of Johnson's Anodyne Liniment. I believe it is the best article in the world for rheumatism."

CONSUMPTION CAN BE CURED

IS A FACT ATTESTED BY THE HIGHEST MEDICAL AUTHORITIES IN THE WORLD.

A careful observance of the laws of health, and the systematic and persistent use of Scott's Emulsion of Cod Liver Oil with Hypophosphites of Lime and Soda will accomplish this result. This preparation has all the virtues of these two most valuable specifics, in a form perfectly palatable, and acceptable to the most delicate stomach, and we make the unqualified statement that Scott's Emulsion is being used with better results, and endorsed and prescribed by more physicians for Consumption—and the diseases leading to it, such as Chronic Coughs, Bronchitis, Scrophula, Anemia, General Debility and the Wasting disorders of children, than any other remedy known to medical science. The rapidity with which patients improve on this food medicine diet, is truly marvellous.

SEE WHAT PHYSICIANS AND THE PEOPLE SAY ABOUT IT.

Messrs. SCOTT & BOWNE: 96 West Thirty-sixth Street, New York, September 2, 1878.

EXTENT—I have frequently prescribed SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES during the past year, and regard it as a valuable preparation in scrophulous and consumptive cases, palatable and efficacious.

Messrs. SCOTT & BOWNE:—Gentlemen:—Within the last year I have used in my own family, and in my private practice prescribed very extensively SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES, and found it a most valuable preparation, especially in diseases of children. It is agreeable to the most delicate stomach; which renders it a very reliable agent as a nutritive remedy in consumption and scrophulous cases. Oct. 12, 1879. Your respectfully, A. H. SEXTON, M. D., Baltimore.

Messrs. SCOTT & BOWNE:—Gentlemen:—Within the last two months I have fairly tried SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES, and I candidly declare that it is the finest preparation of the kind that has ever been brought to my notice; in affections of the lungs and other wasting diseases, we can consider it our most reliable agent, in a perfectly elegant and agreeable form.

December 10th, 1878. Very truly, J. SIMONAUD, M. D., New Orleans, La.

Messrs. SCOTT & BOWNE:—Gentlemen:—In September 1877, my health began to fail and my physician pronounced it spinal trouble; under his care I got some relief from pain, but my general health did not improve, and early in the winter, I began to raise blood and rapidly grew worse. In May last I was taken with a violent bleeding which brought me to my bed and my life was despaired of for many weeks; violent symptoms appeared, night and morning coughs, night sweats, short breath, and a return of the spinal trouble. My physician stopped the bleeding and then ordered Cod Liver Oil and Lime; and I used various preparations, but they did me no good. I lost all hope of life, and was an object of pity to all my friends. Last September I purchased a bottle of your Emulsion and before it was all taken I was better. I then bought a dozen bottles and have taken all with the following results: Cough subsiding, night sweats stopped, appetite returned, pains in the spine disappeared, strength returning, and my weight increased from 118 to 140 pounds in sixteen weeks. I have taken no other medicine since commencing with your Emulsion and shall continue its use until I am perfectly well. I frequently meet some friend on the street who asks what cured you and I answer, SCOTT'S EMULSION OF COD LIVER OIL, &c. I have a friend who has not spoken of me for 15 months and he is getting better. I gave him a bottle, and he bought two more, then got a new work. My recovery is exciting the surprise of many people, and I shall do all I can to make known your valuable medicine. Jan. 20th 1879. Very truly yours, H. F. SLOCUM, Lowell, Mass.

Messrs. SCOTT & BOWNE:—Gentlemen:—I got a bottle of your Emulsion and at that time I was so prostrated that one who saw me thought I could live but a few days. I could retain nothing on my stomach and was literally starving. I commenced the use of the Emulsion in small doses; it was the first thing that mended mending, and now am able to ride and walk and am gaining flesh and strength rapidly. I have covered other parties to try it, and some two or three have already tried it. I am sure I shall entirely recover. I am gratefully yours, R. W. HAMILTON, M. D.

For Sale by all druggists at \$1.00 per bottle.
