

News Summary.

NEW BRUNSWICK.

The Canada Temperance Act has been adopted in Westmorland County by a vote of 1,082 to 200, being a small vote. Shediac and Dorchester went against it.

Notice has been previously given in these columns of the presence of small-pox which had made its appearance in several families in the vicinity of the Tyne House, across the Marsh Bridge. A *Telegraph* representative was informed Thursday, that a child of Mr. Jas. Rodgers one of the cases above referred to, had died with the malady, Wednesday.

Mr. Davis, of St. John, is endeavoring to interest capitalists at Belleville, Ont., in a wind-turbine glass factory, which he proposes to establish, if a company with fifteen thousand dollars paid-up capital be formed, he taking one-third of the amount.

A melancholy accident happened Tuesday on the highway road in Douglas, a few miles above Fredericton, by which an old citizen, named Samuel Hughey met his death. The unfortunate man, in company with Mr. McPeake, in whose employ he had been for several years, was returning in a carriage driven by Mr. McPeake, after leaving some horses on an island, when the animals made a sudden start throwing Hughey with great force backwards to the ground, and it is thought his neck and spine were broken.

Dennis McCarthy, of Lower Cove, was attacked and badly beaten by two men whom he was unable to recognize, at the corner of Maclellan and Wentworth streets, on Saturday night. He had been lying on the ground in an insensible condition for some time before he was discovered. Then he was conveyed home and a doctor sent for, who attended to his injuries. He is slowly recovering.

A photographer named Campbell, residing at Newcastle, who had been unwell for some time past, attempted suicide, by cutting his throat on Monday. Before he had time to finish the work he was discovered by his landlady, and it is expected that the affair will not terminate seriously.

The announcement of the sudden death on Wednesday of Mrs. John Melick was heard with a great deal of regret. The deceased complained of feeling unwell soon after rising in the morning, and medical aid was sent for. Before Dr. John Berryman could reach the house, however, she had expired.

William Ross was detained by Geo. Lee in the three masted schooner *Clara*, Monday, Sept. 23rd, at 11 a.m. Ross 20m. 22s.

John T. Soren, who has saved so many lives, added another to the list last Saturday by rescuing a Miss Newcomb of Carleton Place, who was stepping on one of the boats on this side of the harbor.

Fredericton *Star* says: "The cup presented to Saint Ann's Club by Mr. E. H. Allen to be rowed for by members of the Club, will be competed for on Monday, the 6th of October. Parties intending to compete will hand their names to Mr. T. G. Loggie, Secretary of the Club, on or before Saturday, the 28th inst. Drawing for position, boats, etc., will take place at the boat house on Monday the 29th. If more than two enters, the race will be rowed in heats. Race to be rowed at 3 o'clock in the afternoon; distance two miles with turns.

On Saturday last the schooner *Yarmouth Packet* left this Port with two turn tables on board for the Western Counties Railway. Another one, similar in style and pattern, was shipped on board the *Athlete* yesterday afternoon, to be transmitted to Digby for the same road. Messrs. Hazell & Co., City Road, were the builders.

The annual business meeting of the Disciples of Christ, of New Brunswick and Nova Scotia commenced Tuesday morning in the Coburg street Christian Church. The session was chiefly occupied in the reception of reports, reading of minutes, discussions, etc. The best means of sending out the Gospel for the extension of the Missionary work was debated upon up till noon. Rev. T. H. Blenus will preach in the afternoon.

NOVA SCOTIA.

A brick of gold brought on Wednesday, from Rose lead, Montague, weighed 307 ounces, valued at \$7,600—the product of 14 men for a month.

A letter from Queens County, referring to the gold discoveries there, says the excitement there is intense, no one outside of Queens County can form any idea of the feeling that runs rampant in the minds of those who are interested in this work. No one has the least difficulty in getting good specimens. To show you that this is the truth, we may say one man was out there only one hour and brought back quartz which contained an ounce of gold.

The history of the child recently found in a squaw's camp near Bridgewater is similar in some respects, to that of Oliver Twist, minus the Poor House and the matron. The father's name is John Phillips, alias Elliott, a half-breed Indian. The mother, a handsome white woman, came from the east beyond Halifax. Soon after their settling in Windsor the child was born, the mother sickened and died, when the child was placed in the care of its grandmother Phillips, and both husband and grandmother left the place. John Phillips was a hardworking, well conducted Indian. If this is the child, says the *Mail*, there is yet considerable mystery unsolved in connection with its birth.

A sudden death occurred at Lunenburg, on Friday, under peculiar circumstances. A young

girl, about fourteen years old, named Sophia McLaughlan, was accused on Tuesday last of stealing a sum of money, about one hundred dollars, from a lady who employed her as sewing girl. The accusation evidently preyed upon her mind and health, and she died suddenly Friday morning. She protested her innocence to the last. Medical evidence at the inquest indicated as the cause of death paralysis of the heart, induced probably by strong excitement.

Several American capitalists from the Pennsylvania oil regions are at Lake Umbagog, C. B., inspecting oil wells at that place. If the wells turn out as good as represented, they will invest large sums of money and open them up.

Another victory is scored for Smith, who on Wednesday beat Morris, of Pittsburg, over a 3-mile course on Bedford Basin, by 2 lengths in 21m. 51s.

One Mr. Hubbell has written what purports to be a history of the Esther Cox case. We learn that a much more complete history will be published.

At Big Ridge, C. B., during the storm on Tuesday last, hail stones an inch long and half an inch thick fell. The shower lasted a considerable time, covering a large area of ground with these lumps of ice.

Mr. J. M. Dobson, of Lawrencetown, lost four children within a week, two boys and two girls, ranging from 3 to 19 years.

The writ for a new election in Cape Breton County has been issued; nomination on the 16th of October and polling on the 23.

PRINCE EDWARD ISLAND.

Tuesday 9th Mr. Robert Stevenson of Rustico, had oatmeal in the market at Charlottetown, ground from white oats of this season's growth.

The annual picnic of the P. E. I. Railway employees was held at Birch Grove, Freetown, on Wednesday, 10th inst.

Lieut. Governor Haviland has received an invitation from the Mayor of Ottawa, to be the guest of the city of Ottawa at the opening of the Dominion Exhibition on the 24th inst.

We understand that Lieut. Governor Haviland received from His Excellency the Marquis of Lorne, a handsomely framed and excellently executed likeness of himself and the Princess Louise, accompanied by an autograph letter from His Excellency, in which he spoke gratefully of the Governor's kindness and attention to him, while on his visit to the Island.

Lunched on the 9th inst., from the shipyard of Messrs. Coffin & Glover, Mount Stewart, a very handsome and well-finished brigantine of 247 tons register, to class 9 years A1 at Lloyd's, named the *Lincol*.

The *Summerside Journal* says of the crops:—"Notwithstanding the very heavy late rains, we are glad to be able to report that during the late part of the latter part of last week and this week, the grain which was out for weeks, and which was thought by many to be seriously damaged, has all been saved in fine condition. Should the balance of the crop be saved in a healthy condition, it is the general opinion that this year's crops will be the most abundant that was ever gathered on the Island, and, better still, we may look forward to good markets and prosperous times this fall. Our farmers, however, need not delude themselves with the idea that they will get exorbitant prices for their products that they did some two or three years ago, but we predict that average prices for all farm products will prevail.

Mr. Isaac Scharman of Bedeque, has a fine large cat, which, the other day gave birth to four kittens. A short time after the cat lost her kittens. A son of Mr. Scharman's was out in a field near the house, and he noticed a squirrel running up an old rotten tree with a young squirrel in its mouth. He threw a stone at them, which struck the old one and she fell to the ground dead but still holding the young one securely in her mouth. The lad picked up the young squirrel and put it in his pocket. He then climbed up the tree and found a nest containing three more squirrels, all of which he took to the house. The old cat, strange to say, at once took to the young squirrels and she is now rearing them with all the devotion of a mother.

UPPER PROVINCES.

A kidnapper's cave was discovered near Toronto on Tuesday. It was ingeniously constructed with an eye to business; and doubtless it was intended to place there the Hon. George Brown, Mr. Jaffray, and other prominent citizens, whom it was designed to kidnap and hold for a ransom. Toronto is somewhat excited over the discovery.

A. Seely, a purser, who absconded from the Pacific Mail Steamship Company of New York with \$10,000, is supposed to be now in Quebec. Detective Carpenter of New York, has been watching the out-going steamers, but thus far without avail.

The Toronto Exhibition has so far proved a great success; thousands of visitors coming from all parts of the country. The Governor-General and Princess Louise have visited the grounds and carefully inspected everything of interest. The viceregal party left for Hamilton on Monday, where they were accorded a hearty reception.

The Dominion Exhibition promises to be the grandest affair Canada has ever witnessed, and will be such as to do credit to the country and impress the hundreds of foreign visitors who will be present with the fertility of our various provinces.

An unknown man arrived from the country on the 12th inst., and went to the Hotel du Pays, Montreal. He complained of a bad headache, and asked for a room to rest in. A short time after one of the servants went up and found him dead.

A Quebec correspondent of the *Montreal Witness* writes:—"A few days ago the people on a street in the neighborhood of a convent here, were startled by seeing nuns by force taking back to it a woman who had managed to get outside the convent gate, trying to escape from it, and who, by her actions and words (calling her captors hypocrites, &c.), showed how unwillingly she was to be forced back. This incident shows the necessity of having all such places visited by persons having power to give liberty to any of the inmates wishing to return to their friends and to society. How sad to think we have in our cities and towns establishments into which girls are drawn under the guise of religion, from which they can never escape, no matter though they bitterly repent having entered such.

BRITISH AND FOREIGN.

The capture of Cetewayo brings the Zulu war to a close. The news that the great king of the Zulus was captured when first received seemed almost too good to be true, but it has since been confirmed and Cetewayo is now either in a prison in Capetown or on his way to England. Cetewayo was taken by a detachment of Dragoons under Marter and when captured had but twenty-three followers. All the vast host of near 50,000 men with which he commenced the war had melted away leaving scarcely a corporal's guard with him who had once been so powerful. The Zulus have received a lesson in respect to British prowess which they are not likely to forget, and no Zulu Chief will hereafter be permitted to become paramount over his fellows as Cetewayo was. The Zulu kingdom has fallen never to rise again.

The foot and mouth disease has broken out amongst the cattle in the Bernese Jura. There is much scarlet fever among the swine in the Canton of Schaffhausen, and pleuro-pneumonia is increasing in Alsace-Lorraine.

A correspondent writes to the *Times* that King Mtesa, ruling near Victoria, Nyanza, Africa has abolished slavery throughout his dominions. At least a half million of slaves were liberated on Saturday.

Delegations of farmers who sailed last week in the *Peruvian* from Liverpool for Canada to investigate the advantage of settlement in the Dominion represent Roxburghshire, Berwickshire, and Dumfriesshire in Scotland, Durham, Cumberland and Yorkshire in England, and also the eastern and southern counties of England, and several districts in Ireland.

A bale of old paper being unloaded from the European steamer *Castle Wood* in New York, last week suddenly burst in a blaze. The fire was extinguished with great difficulty and the discovery made that the bale had been prepared with a combustible fluid and friction matches with the evident purpose of firing the ship.

John Schumann, found with his throat cut at a Bowery hotel, New York, last week, says he was married three months ago and had been in trouble ever since. Hence his attempted suicide. His recovery is doubtful.

Three hundred and seventeen Mormon emigrants, from Europe, arrived in New York last week. The Mormon missionaries do not think Evar's circular to foreign power will have any effect.

The condition of Pope Leo's health is now admitted to be even more critical. Change of scene and a better atmosphere have been prescribed him, but he sets the opinion of his physicians at defiance, and considers that in matters of hygiene, no one is half as wise as himself. His Holiness occasionally suffers from severe attacks of rheumatism gout.

Frank M. Lensing, of Louisville, aged 50, formerly a well-known grocer, suicided on the 17th while alone at his house, by pouring coal oil over his clothes and setting himself on fire. He had taken the precaution to bolt his doors, and people who rushed to his assistance were unable to gain admission until the body was burned to a crisp. Lensing had been sick the past year.

The vessel which on the 21st August picked up Capt. Goldsmith and wife of the *Uncle Sam*, the miniature vessel which started from Boston for Europe some months ago, arrived at Liverpool, on Wednesday week. Mrs. Goldsmith, when rescued, was very ill. The captain and his wife encountered a tremendous tempest, and came near being swamped. Nearly all their provisions were swept away. The captain went seventy-two hours without sleep. After the rescue, the *Uncle Sam* was scuttled and everything was lost.
