> THE Southern N. B. and P. E. I. Association Minutes have been sent out from our office. The Eastern and Westren will be mailed next week.

A smile goes around at the answer made by the little girl in the London Sunday-school to the question, "Why does God make the flowers of the ble Superintendent of the field ?" she replied, " Please, ma'am I the suppose for patterns for artificial flow-ers." The supposition is not wholly unwise. If God's works in nature were more generally regarded as "patterns," life would be more wholesome and beautiful.

As to serving the Lord with cold hearts and drowsy souls, there has in with the Canada Tem-been too much of it; and it causes re-ligion to wither. Men ride stags when they hunt for grain, and snails when they are on the road to heaven. Preachers go on sea-sawing, droning, and prosing, and the people fall to yawning and folding their arms, and then say that God is withholding his then say that God is withholding his blessing. Every slaggard, when he finds himself enlisted in the ragged regiment, blames his luck, and some churches have learned the same wick-ed trick. I believe that, when Paul plants and Apollos waters, God gives the increase; and I have no patience with those who throw the blame on God when it belongs to themselves.— C. H. Spurgeon

FROM Ontario comes the following

RESOLUTION

Passed Unanimously by the Baptist Convention of the Maritime Provinces, at its last Annual Meeting, in Yarmouth, August 22rd, 1881.

"Whereas, A work on the history

of the Baptist Denomination of the Maritime Provinces, by the Rev. I. E. Bill, D.D., referred to in a resolution passed by Convention last year, has passed by Convention last year, has ed safely. The vessel is full of water and been completed, and is now offered to no prospect of saving anythizg, exceptthe public for sale.

" Therefore Resolved, That we place upon record our conviction, that this work,--replete with information concerning our various de-nominational operations, and prepared by a brother, who has been intimately associated with the persons and the events of which he writes, for a period of more than Fifty years, must prove exceedingly valuable to our ministers and churches; and we would repeat the recommendation that the members of the churches should aid in the circulation of the

work." In accordance with the above resolution, permit me, dear brethren of lottetown. The defendant argued that the ministry, and of the churches, to solicit your kindly co-operation in placing this HISTORY in every Baptist family of these Provinces.

It is for sale at the store of the Publishers, Barnes & Co.; at the Colonial Book Store; at the CHRISTIAN VISITOR Book Room, St. John. At Hall's Book, Store, Fredericton. At the Christian Messenger Book Room,

NOVA SCOTIA.

A despatch from Barrington on the 27th says the steamer "Hadj," from Cow Bay for Portland, Me., with a cargo of coal, went ashore at Blond Rock, Seal Island. vesterday morning. The crew were land ing a small portion of materials in a damaged condition.

The Windsor cotton factory project has been revived, and it is stated a sum of \$40,000 towards the object has been subscribed in Montreal.

Government telegraph stations are to be opened at Baddeck, Big Bras d'Or Englishtown, near O'Neil's Harbor, and Aspey Bay, Cape Breton, forthwith.

PRINCE EDWARD ISLAND.

The stipendiary magistrate of Charlottetown gave his decision in a test liquor case which was brought up by persons interested in the liquor traffic, fining the defendant \$ 50.00. The point to be tested. was whether the Act was law in Charthe vote was taken for the City only but that persons living on the Royalty were allowed and did actually vote in the matter. The magistrate in giving his decision said if all the residents of the Royaalty had voted against the Act the result would have been the same and there-fore argued that he had authority to give a decision in the case. He said however. it being a test case he would not collect the fine.

A Clinton correspondent to the Pioneen says "the grain crops in this vicinity are very heavy. Wheat is promising and with a week or two of sunny weather would be over an average crop."

At Murray Harbour South, on Friday, the 12th inst, a melancholy accident oc-curred. Capt. Herring was sailing, into Rev. W. E. Vickery, Charlotte the harbor when a squall of wind capsized his boat, throwing him into the river a very short distance from the shore. Before assistance could be procured, he was drowned. He leaves a wife and one child to mourn their loss.

> We regret to learn that Mr. Malcolm McFadyen, carpenter, met with a serious accident in the Railway carpenter shop last Monday. While working at a cir cular saw, his right hand came in contact with that instrument, and in an instant the four fingers were cut off, leaving the thumb and a stump of the last finger

His Honor the Lieutenant Governor has received a letter from Admiral McClintock in which the Admiral states that he will visit Charlottetown with the flag ship Northampton, on or about the 5th of Sepember.

police force heard their cries and went mediate dangerous consequences, unless

THE NIGHT REPORT.

Executive Mansion, midnight.-Soon after the evening bulletin was issued the attending surgeons began to notice a change for the worse in some of the President's symptoms. He became more restless than he had been during the day. His pulse grew more frequent until it reached about 120 beats and he began to be subject to hallucinations with regard there is much less fear of these complaints to his circumstances and surroundings. Most of the time he seemed rational, but atintervals especially just after waking bated and cured by the timely adminisfrom a sleep, talking incoherently and did not seem to be conscious of his condition. An examination was made of the inflamed parotid gland and its appearance gave reason to apprehend serious consequence. Little more could be done for t, however, than to continue poulticing and the general method of treatmentadopted yesterday. During the evening the patient slept a little but was very restless and awoke at short intervals. About 10 o'clock his pulse began to subside and he seemed to be passing into a quieter condition. At this hour his pulse has fallen to 112 and he is asleep. There has however, been no marked change in his general condition and it continues to be a subject of gravest anxiety .

Rumors are afloat that a general native ising is being organized against the sion. Imagine what a Godsend such a

A Tombstone despatch says Indians atacked the town of Eureka, N. M., two days ago and killed all the citizens, said to be 70 in number.

The Republican's Santa Fe special Nana's band of Apaches, after ays; a hard fight before the soldiers, succeeded in crossing the Senora line with the soldiers but 5 hours behind.

Since the campaign began the troops have engaged the Indians in fifteen fights. The latest accounts say the body of Lieut. Smith, who was killed near Nutt Station, fell into the hands of Indians, and was horribly mutilated.

The speech from the throne on the prorogation of Parliament Friday declares the relations with foreign powers amicable and cordial. Satisfactory assurances have been received from France regarding Tunis. Self-government has been secured to the Transvaal, which it is hoped will tranquilize South Africa. The withdrawal of British troops from

Afghanistan is not expected to lead to any trouble on the northwestern frontier of India. Although negotiations have been temporarily suspended the best efforts will be made to conclude a commercial treaty with France. In reference to Irish affairs the Queen says it is her earnest hope that the new land act will be productive of benefits commensurate with the care given to the measure. It has

DISEASES OVERMATCHED BY MEDICIN

Sir Astley Cooper said no man ought to know he had a stomach. Unfortunately, however, the two extremes of luxury and privation teach a considerable portion of mankind that they have stomachs, and very troublesome ones too. The digger after gold in our gulches, the alluvial of our rivers and our dry plains suffer much from diseases of this organ, and of the liver and bowels. At present, however, than formerly. All intelligent miners are aware that they can be readily comtration of Holloway's celebrated Pills. One of the leading forms in which disease of the stomach and bowels exhibit itself in the interior -and we may add in the cities too-is a debilitating'diarrhea. Nothing that has ever been tried either. in dysentery or diarrhœa in this country has uniformly succeeded in curing these maladies except Holloway's Pills. It is stated that in all cases in which they were administered at the Ballarat diggings, they did not fail in one. The ordinary medical treatment of diarrhoa ap pears to be wholly useless in this climate Be this as it may, it is beyond cavil that the Pills arrest the complaint as certainly and almost as quickly as the breaks of a rail car arrests the revolutions of its

wheels. There are no ifs or buts about the matter; the cure is a foregone conclu-Boers. Additional precautions have been medicine must be to the digger. Posses-taken in the larger towns. sed of it he feels as if endowed with another right arm. The very fact that his chest or knapsack contains such a potent counterblast to disease, keeps up his animal spirits and renders him less suscep-

tible of unhealthy influences. Miners bound to the more unhealthy diggings usually provide themselves with an extra supply of both the Pills and the Ointment, as they can always dispose of what they do not want at an enormous profit. It is said, and probably with truth, that the large importations of these medicines have seriously interfered with the profits of the drug merchants. Calomel and jalap, and all the purgatives, alteratives, sudorifies anodynes, &c., are sad-ly at a discount in the market. Holloway's Pills and Ointment fill their places in public estimation. and more than fill them in beneficial effect.-The Inquirer,

The golden age-the present-when Esterbrook's popular Steel Pens are within the reach of all. The stationers can supply them. Robert Miller, Son & Co., Montreal, agents.

CATARAH, ASTHMA AND COLDS.

From C. W. Thomas, of Battleboro', Vt. "For ten or twelve years past I have been troubled much of the time with Catarrh, which has kept up a continual irritation of the throat and lungs, attended with a severe cough. During this time I have tried many of the popular remedies of the day without the least been the study of Her Majesty to use the exceptional powers confided to her in Ire-land, with vigilance and firmness, but with Cherry, the beneficial effects of which have discrimination. The desire is expressed been very great, as after having used that the condition of the country will so three bottles I find myself entirely cured iraprove that the use of these extraor of my disease. The Balsam has also been which came within my observation, which yielded at once to the remedy. I recom-mend its use to the afflicted generally." 50 cents and \$1 a bottle. Sold by all druggists. Holloway's Pills.-Indigestion and Liver Complaints.-The digestion cannot be imperfect or seriously disordered without the effects of such derangement becoming visible on the countenances. These Pills at once remove the disorder and its unpleasant consequences. They stimulate the digestive and assimilative fuctions, and consequently promote that great blessing-a good appetite. Holloway's Pills most satisfactorily remove all deranged or diseased action of many organs engaged in extracting nourishment for our bodies from the various diets -as the liver, stomach, and bowels, over all of which they exercise the most salutary control. By restoring at an early stage of the malady to these purifying and laxative Pills.the melancholy and jaundiced dyspeptic is speedily restored to health and strength, and his sallowness gradu-ally vanishes.
