COMPOUND SYRUP OF

FOR THE RELIEF AND CURE

WASTING DISEASES,

Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustica, Chronic Constipation, Chronic Diarrhosa, Dyspepsia, or Loss of Nervous Power. It is unequalled in the treatment of Palpitation

of the Heart, Trembling of the Hands and Limbs, Loss of Appetite, Energy or Memory.

It acts with vigor, gentleness and subtlety, owing to the exquisite harmony of its redients, akin to pure blood itself. Its taste is pleasant, and its effects permanent, Lie first apparent effect is to increase the appetite. It assists digestion, and causes the food to assimilate properly—thus the system is nourished. It also, by its tonic action on the digestive organs, induces more copious and regular evacuations. The rapidity with which patients take on flesh while under the influence of the Syrup, of shelf indicates that no other preparation can be better adapted to help and nourish the constitution, and hence be more efficacious in all depression of spirits, shaking or trembling of the hands or body, cough, shortness of breath, or consumptive habit. The nerves and muscles become strengthened, and the blood purified.

READ WHAT THE INVENTOR, MR. FELLOWS, HAS TO SAY ABOUT HIS SYRUP OF THE HYPOPHOSPHITES.

In the summer of 1864, I was suddenly effected by a copious expectoration of muce-purulent matter. I had been declining in health for some months, and, being exceedingly nervous, the symptoms caused alarm. As my business was that of a dispensing chemist, the shop was constantly visited by medical men, all of whom tendered their advice. During 1864 and 1865 my chest was examined by ten first class physicians, some of whom pronounced the case Bronchitis; some, not wishing to cause alarm, or unwilling to venture an opinion, gave no decision; some stated unequivocally that I had Tubercular Disease of the Lungs, and located the trouble where the pains were felt. By professional advice, I used, in turn, horse-back exercise, country life, eggs and ale in the morning, tonics, Bourbon whiskey, cod-liver oil, electricity, tar, and various inhalents, but the trouble increased. Expectoration became more profuse and offensive. Night-sweats set in. Cold chills, diarrhosa, dyspaces, cough, blood-streaked expectorations, loss of sleep, loss of appetite, loss of memory, loss of ambition, accompanied by general prostration, showed themselves.

Under the microscope the blood was found to contain but a small portion of vitalized corpuscles; the heart's action was feeble; the pulse intermittent; the stomach could not digest properly, so that flatulency and acidity was the result. Finding the symptoms indicated Consumption, I determined to use every effort to stay its progress, and, if possible, to cure it. I selected the most powerful tonics and moderators, and combined them with the vital constituents of the human body. For months I endeavored to amalgamate them before my efforts were crowned with success. I cannot ed from the composition."

At first my appetite increased; the expectoration became easy, engession better; the meces became more copious and less frequent; cold chills ceased; night-sweats lessened; I gained in weight; the backing cough left me; refreshing sleep returned; my spirits became buoyant, the mind active and vigorous. I continued taking the Syrup month after month; but owing to the damp, foggy climate of St. John, my recovery was necessarily slow, although I could observe a gradual return of strength for three years, during which time I-continued taking the remedy. My present weight is one hundred and eighty-eight, being thirty-eight above my usual. I have no symptoms left denoting disease. The only notable sign during twelve months was the expectoration. Now that has stopped, and I consider myself well. The reader may ask, How do you know your difficulty to have proceeded from ulcerated or tuberculated lung? I answer, In the most certain of all modes for ascertaining. In March last I coughed from the right lung a piece of PHOSPHATE OF LIME, half the size of a pea, which could have come from no other place, and which the highest authority in Lung Diseases (Laennec) states is the result of tubercle, which has been cured. Added to this, I had the leaden-colored, purulent, blood - streaked expectoration, and the opinion of one of the best diese in the country. I believe I have experienced all the symptoms incident as the two first stages of Consumption, and have successfully combatted them, so that I do not despair of any case where there is left sufficient lung-tissue to build upon. I can only add that the mere monetary consideration of increased sales would never induce me to publish this report, but a sincere sympathy for the poor Consumptive, with whose misfortune I believe it villany to trifle. Respectfully.

JAMES I. FELLOWS. Inventor of Fellows' Compound Syrup of Hypophosphites.

SOLD BY ALL DRUGGISTS.

When Pellows' Compound Syrup of Hypophosphites is required, ask for "FELLOWS'.COMPOUND SYRUP."

4nd be sure no imitation is foisted or other article thrust upon you.

SUBSTITUTES

The public are cautioned against a custom which is growing quite common of late among a certain class of medicine dealers, and which is this; When asked for a bottle of Pain-Killer. they suddenly discover that they are "sold out." "but have another article just a good, if not better." which they will supply at the same price. The object of this deception is transparent. These substitutes are made up to sell on the great reputation of the Pain-Killer; and being compounded of the viles and cheapest drugs, are bought by the dealer at abou half what he pays for the genuine Pain-Killer, which nables him therefore to realize a few cents more prof per bottle upon the imitation article than he can on th

> For SUDDEN COLDS NEURALGIC, RHEUMATIC AND

ALL OTHER PAINS IN ANY PART OF THE BODY, PERRY DAVIS' PAIN-KILLER

IS UNEQUALLED.

IT CURES ALMOST INSTANTLY. The Parn-Killing is put up in 2 oz. and 5 oz. bottles, retailing at and 50 orests respectively, large bottles are therefore cheapes.
