News Summary.

LOWER PROVINCES.

A Mic-mac school is in active operation at the Indian village near the mouth of Pictou harbor.

Kennebeceasis and Bellisle are trying to get a steamer. An agent is in the field soliciting stock subscriptions, which seem likely to prove successful.

The Windsor Collegiate School eleven defeated the Acadia College Cricket Club on Saturday, by an inning and ten runs.

A new lodge, of the I. O. G. T., was erganized at Upham, King's Co., on the 28th ult., with 44 charter members. It will be known as Morning Star Lodge, No. 96.

A red light is now displayed on the St. John river at the mouth of the Jemseg, from the summit of the new pier recently built there. This is the only red light on the St. John river.

The St. John Agricultural Society are to hold their annual exhibition on Tuesday next, 7th inst., on their grounds, Marsh Road. Cash prizes will be given, or diplomas if preferred.

A fine of $20 each and costs was imposed on Geo. Allan, Mrs. Allan, (mother of George), and John Balmer, at Hampton last Friday, for violation of the Dominion Liquor License Act.

The liquor license act is now being argued before the Supreme Court of Canada, and the issue is anxiously looked for by the friends of both sides. It is impossible as yet to tell what the result will be.

An exhibition is to be held at Yarmouth on Oct. 9th and 10th under the management of the Yarmouth Agricultural Society. A liberal premium list has been provided, and "all comers" can compete.

Crops through Queen's County promise well. Oats have seldom grown better and almost everywhere around the head of Grand Lake buckwheat is good. Late crops have been badly nipped with the frost.

The Baptists of Belyea's Cove, Queen's Co., intend holding a tea-meeting on Saturday, 4th October, followed by a concert in the evening. The proceeds are to go towards repairing the meeting house of that place. Parties attending the tea-meeting will have free entrance to the concert in the evening.

The St. John roller skating rink having been so successful since the opening, a number of persons with some surplus cash are preparing to erect a second rink, on the property immediately adjoining the present one. It is to be so constructed that it can be used for ice skating during the winter, and is to be ready for use by Dec. 1. A roller rink is to be erected in Portland.

Edward Oldham, Thomas Oldham, and Sadie Curran were arrested at Richibucto on Thursday charged with having in their possession a quantity of goods and money stolen in Boston from A. J. Quinn, the Boston agent of the Allan line of steamers, besides a valuable watch and six tickets via the Allan line from Quebec to Liverpool. The greater portion of the goods were found on their persons. The examination is now going on.

Kierstead Mountain, King's County, is unsually blessed with an abundant harvest. Buckwheat here and there is light, but for the most part it is a fair yield. Jacob Kierstead Esq., had one of the finest fields of wheat raised in these parts for many years. One piece, somewhat over an acre in size, stood fully five feet high and to the eye presented a most beautiful sight. The heads of golden grain seemed on a perfect level and swayed in the wind like a wave of the ocean.

A special meeting of the York County Alliance will be held on Thursday at Fredericton, to arrange for the approaching election on the repeal of the Canada Temperance Act, to be held on the 30th of October. York will not take such a retrograde step as to repeal what is really a prohibitory law. Let the friends of temperance roll up a majority for the act that will show decidedly that the citizens appreciate it; and encourage St. John to go solid for it next spring.

Schr. Rondo, McIntyre, of and from St. John for New York, with a cargo of lumber, arrived at Vineyard Haven, Mass., on the 26th ult., in tow of steamer Panther. Capt. McIntyre reports that when about two miles west of Crossrip, at about three o'clock a. m., he was run into by the Panther and had bowsprit and all head gear carried away, starboard bow badly stove, forecastle deck started and stove, stem started, windlass broken and other damage done. She is leaking badly and will probably be towed to New Bedford, Mass., for repairs. The steamer received slight damage.

Though all the logs in the Fredericton booms are rafted, the booms will not be disturbed until after the fall freshet, which may bring down some two millions now hung up along the river below Grand Falls. Advices from the upper St. John indicate that though the large lumber operators will greatly curtail their cut next winter, the low figures at which labor and supplies can be obtained will have the effect of sending quite a crowd of small loggers into the woods. The stock of logs for the mills in the vicinity of St. John is pretty well exhausted, thus ensuring a demand early next spring. Miller & Woodman, however, are holding over a large stock of logs for next year's cutting.—*Sun.*

OTHER PROVINCES.

J. R. Sutherland & Co.'s extensive saw mills in St. Boniface, opposite Winnipeg, Man., were burned on Wednesday. Loss $63,000; insurance $28,000.

A suit for damages, in which the Rev. Mr. Loucks, of the Church of England, is the defendant, and one of his parishioners named Welch is the plaintiff, was heard at Picton, Ont., recently. It appears the parties had a dispute in the street about some private matter. High words sprung up and the defendant knocked the plaintiff down. A struggle then ensued, in which the plaintiff was very severely cut about the body, arms, and head, in consequence of which he was for some time confined to his house. The jury brought in a verdict assessing the reverend gentleman $25 and costs.

BRITISH AND FOREIGN.

The police suppressed the Nationalist meeting, which was to have been held at Ballymella on Sunday last.

An attempt was made to blow up the council house at Salisbury on Sunday, but beyond a number of broken windows no damage was done.

The musical world is at present excited over the reported finding of a symphony, composed by Mendelssohn, and heretofore unpublished, among a lot of old papers in a music shop in Berlin.

A despatch from Alexandria states that brigandage is increasing in the interior of the country to such an extent that Lord Northbrooke, the British high commissioner, has gone to investigate the matter.

The contingent of the guards, who are going to Egypt to form part of the camel corps left London for Portsmouth on Friday. The rest of the volunteers for the camel corps, to the number of 800, left Aldershot the same day.

The decline of receipts at the custom houses of Italy, owing to the prevalence of cholera, is estimated at forty million francs. It is impossible to estimate the damage from the same as to the general trade of the country, and the prospects for the coming winter are viewed with great alarm.

Since the outbreak of the cholera in Naples there have been 10,203 cases and 5,385 deaths. Latest reports of the ravages of cholera throughout Italy give a total of 452 fresh cases and 212 deaths. At Naples there were 201 fresh cases and 95 deaths. At Genoa 51 fresh cases and no deaths.

UNITED STATES.

A boy 11 years old was choked to death in New York, one day last week, by drawing into his throat a toy balloon, which he was attempting to inflate.

A young miss, 19 years old, who had been serving (in male attire) as clerk in a wholesale house in St. Louis, for several months, was discovered last week by detectives, and sent back to her parents.

SOUTHAMPTON, L. I., Sep. 26.—A malignant disease which baffles medical skill is prevailing in the village of Atlanticville. A number of deaths have occurred and the disease is spreading rapidly. The disease first appeared two weeks ago Since then almost every family in the village have been affected. So malignant is the malady that persons have died after an illness of two days. Beds are being buried to prevent the disease from speading. It is pronounced to be malignant dysentery, but it is believed really to be cholera.
