LOCAL NEWS.

Horse Sale.—Alex. Calder has sold his horse, with harness and truck, to Daniel Ouchie for \$200.

Ice.—The river was filled with large masses of up-ice drifting by the city yesterday afternoon.

The "REPORTER."—The Reporter came out a semi-weekly yesterday morning, and is printed on tinted paper.

CRICKET.—The young and old cricket teams play a friendly match on the Queen's field, according to usual custom.

BAND ENGAGEMENT.—The Fredericton Brass Band has been engaged to play at the annual sports of the University Athletic Club on the 18th inst.

THE BAPTIST CHURCH.—The plans for the new Baptist Church will be submitted to the congregation in the Free Baptist Church this evening.

NEW ST. PAUL'S.—Mr. William Price is making preparations for the work of removing St. Paul's Presbyterian Church, and is clearing away encumbrances.

SEWING CIRCLE SOCIABLE.—The Ladies of St. Paul's Church Sewing Circle will hold a Social in the Vestry on Thursday evening at 7.30 o'clock, for the sale of fancy goods. There will be refreshments.

ROAD REPAIRING.—The work of repairing the road from the Bailey Bridge up will be commenced at once by the Government. The necessary work will be done under the direction of Supervisor Kilburn.

FATAL ACCIDENT.—A lad named Case was killed near Oromocto. Sunbury County, a few days ago, by a tree falling on him while out shooting with some companions. He received injuries from which he died next day.

ESTY'S MILL.—Mr. R. H. Esty's mill shuts down to-day on account of the rising water preventing the logs from being brought across the river. Mr. Esty has now three cargoes of deals ready for the St. John market under contract.

SCHOOL CONCERT.—A Concert was given in the School-house at Millville on Friday evening the 28th ult., under the management of Miss Fisher, the teacher. It was a very enjoyable affair, and much credit is due the teacher and pupils as well. Miss Fisher presided at the organ.

STEAMBOAT INSPECTION.—Mr. W. M. Smith, Inspector of Steamboats, who is now in this city, inspected and tested the boilers of the steamer "Florenceville," the ferryboat "Forest Queen," and Capt. Lyon's tug, the "Xiphias," yesterday afternoon. Mr. Smith finishes his inspection at this point to-day.

THE COMEDY OF MRS. PARTINGTON.—As will be seen by advertisement in another column the four-act comedy of "Mrs. Partington," which has been played with such great success in Boston, will be presented in the City Hall here on the evening of the 9th inst.

THE POLICE COURT.—In the City Police Court, yesterday morning, before Police Magistrate Marsh, Paul Mooney, charged with assault on Thomas A. Barker, and also with blackening one of his eyes, in Howard & Crangle's billiard saloon, was fined \$12, with the option of ten days jail.

A BAD ROAD.—Complaints are made of the scandalous condition of Campbell street at Esty's Mill, West End. The mud is so deep and the road so heavy that it is impossible for teams to haul anything like a load over it. There is a great deal of hauling done over this street, and its present condition interferes very much with business. Something should be done to remedy it, and the attention of the Roadmaster is drawn to the condition of this street.

PERSONAL.—Harry Johnson, son of Councilor Johnson, of Douglas, left yesterday morning to join Engineer Ramsay's staff on the Pacific R.R.

Mr. H. Wilmut, the Governor's Secretary, arrived home from Ottawa on Tuesday evening.

The Metropolitan has left Montreal for St. John.

S. B. Appleby, Esq., of Woodstock, was in town yesterday. He returns home by this morning's train.

RIVER NOTES.—A schooner load of wood came down the river from the Reach Tuesday, and a woodboat load of hay came from Sheffield. The tug "Hercules" went up the river Tuesday for a large raft of logs for Messrs. Hilyard Brothers' mill. The steamer "David Weston" is undergoing extensive renovations. She has a new engine frame put in, and a large gang of men are busily engaged in painting and generally fitting her up. The "Fawn" will be taken off the Fredericton route as soon as the Grand Lake owners, and the "David Weston" will replace her.—Sun.

FIRE ENGINE AND FIRES.—The steam fire engines do not get to a fire quickly enough. In other cities the horses go on a run, here they are more leisurely, as though they were in a procession. The first moments of a fire are the most precious, and nothing should be omitted which will enable the water to be got upon the flames at the earliest possible moment. We invite the Chief Engineer to give the public his views on this important matter. No one appreciates the necessity for promptitude in this matter more than he does; and he cannot possibly be satisfied with the snail's pace at which the engines are drawn. Perhaps if the public knew what the reason of the slowness was, means would be found to secure greater speed.

Fire at Rose Hall.

About 11 o'clock yesterday morning a fire was discovered in the conservatory attached to the house on Waterloo Row commonly known as Rose Hall, and occupied by Mr. John W. M. Ruel, of the Customs department in this city, and family. When the fire broke out, there was no one in the house but Mrs. Ruel, who has been in poor health for some time, and her daughters. One of the young ladies harnessed the horse and driving up town informed her father of the fire and gave the alarm. The City Hall bell rang shortly after eleven and the fire department turned out promptly. There was a sharp gusty breeze blowing and by the time the engine arrived on the scene the barn, conservatory and other outbuildings in the rear were a roaring mass of flames, and the house, which fronted on the street, was on fire in half a dozen places. The engine was soon got to work pumping water from the river, and streams from it were put on the fire; while one of the hand engines was also manned. The firemen turned their attention at once to saving the house—a two story building with peaked roof—as the outbuildings were already nearly consumed.

In the meantime a large crowd of people had gathered at the scene and many willing hands were found to help Mr. Ruel and his family in saving their household furniture, the greater portion of which was got out in a more or less damaged condition, as the house was some time getting well ablaze. The roof caught in the rear, and at the easterly and westerly ends, and in spite of the efforts of the firemen, who worked well, the whole top of the house was in a blaze at 12.30. At one o'clock it was seen that nothing could save the house from being a total loss, although the firemen were playing on the ruins until a late hour in the afternoon.

The building was insured in the Northern Insurance Company (Mr. John Black, agent), for the sum of \$2,000. Mr. Ruel had no insurance on his furniture, and is quite a heavy loser by the fire. He usually had a fine garden, and lost a nice conservatory in the fire, together with some 100,000 young cabbage plants. Mrs. Ruel, who has been sick for some time past, was removed to Mr. George J. Bliss' residence, and in the afternoon Mr. Ruel moved his family into the Vavasour cottage on St. John street.

Rose Hall—it is best known perhaps by this name—belonged to the Shore estate, the representatives of which are Miss Shore and Mrs. Forsyth, who are now residing in England. H. B. Rainsford, Esq., is the representative of the estate in this city.

Rose Hall was one of the old landmarks. The upper portion of the building was very old, and it is said that the notorious General Arnold once resided in it. This, however, has been disputed. The main building was constructed by the late Hon. George Shore, for many years Provincial Secretary. It was an old-style homestead, with long outbuildings and many nooks and corners. The principal rooms and main hall formerly bore upon the walls evidence of the late Mrs. Shore's skill with the brush, the walls being painted in landscapes, showing great taste and skillfulness of treatment. In a summer house yet remaining on the grounds is a sample of this lady's work.

Rose Hall was occupied for many years by Chief Justice Allen as a residence and was for some years the home of Mr. Fenety, Queen's Printer.

We Cannot Find

THAT WHAT IS "RUMORED" IN THE "CAPITAL" IS TRUE.

Although "it is rumored" in the Capital, we cannot find any record of the fact—

That the York County Rifle Association "beat their swords into ploughshares and their spears into pruning hooks" at their meeting on Tuesday evening. They met, but they did not bring their swords with them, as they did not meet for a passage-at-arms; and surely the editor of the Capital is sufficiently well versed with the equipment and arming of the militia to know that "spears" are not the "proper caper."

We cannot find that Boone and Christie don't like the HERALD's way of putting their retirement. What they want to know is what the Capital means by saying they do. There is no rumor in this.

We cannot find that the people of Regent street do not dearly love a dog fight; but we are reminded that one-half of the Capital lives on Regent street, and would very much like to know, taking his own statement as true, which side of the Capital dearly loves a dog fight and which side is all high-toned morality.

We cannot find that the up-town people are any fonder of going to temperance meetings than the down-town people. We cannot find that "our whiskey is bad," as we have not had the experience which the Capital probably had, which gave it warrant for this statement.

UP TO TIME.—The HERALD is now printed by steam; the HERALD contemplates putting in electricity, and the Reporter, which is always ahead where enterprise is concerned, will be run off by Chain Lightning.—Reporter. It is, indeed, a very fortunate thing that the "chain lightning" of the Reporter is properly insulated, and that there is proper ground connection to carry off the superfluous fluid, which might otherwise do some harm to the manipulator. If we mistake not, however, the same kind of chain lightning which runs off the Reporter also performs the same duty in the HERALD office; and we can only say that if the lightning of fact was no quicker there would be no deaths resulting from it, as there would be ample time to dodge and run round behind it.

CRICKET CLUB.—The Cricket Club meets this evening in the Barker House.

The Weather During April.

We present below a meteorological table, showing the temperature, cloud, rainfall and depth of snow at Fredericton for the month of April from 1872 to 1882 inclusive. The table shows that the month just past has been the coldest April record at this station. The average mean temperature for April is 37 deg. The mean temperature for the past month was 31 deg., being six below the average. The similarity between the April of 1874 and that of 1882 is noteworthy, and may be seen from the annexed table. The hours of sunshine in the month numbered one hundred and seventy. The maximum daily amount of sunshine was thirteen hours, and occurred on the 18th. The number of days without sunshine was eight. About a foot of snow fell on April 2nd. The ice moved on the 27th.

The Steamer "Florenceville."

The stern wheel steamer "Florenceville," which came from Swan Creek, Sunbury County, where she had been laid up for the winter, on Monday last, is now lying below Sherman's wharf, hauled in out of the way of the up-river ice, which was running very thickly yesterday. While laid up during the past winter, she was thoroughly overhauled and repainted throughout, and with the opening of navigation is looking a bright and clear as a new dollar—an impression which a closer inspection verifies and renders only the stronger. A HERALD representative had the pleasure of going over her yesterday with Capt. Duncan, her genial and attentive commander, who is so well and favorably known to all who travel or send freight by the "Florenceville," and this was his idea of the matter. Any one who may pay Capt. Duncan a visit while his boat is lying here will be convinced of the same thing. Mr. W. M. Smith, the steamboat inspector, tested her boilers yesterday, and they stood the severe test of 150 pounds to the square inch (water pressure) without a sign of weakness. Cleanliness, comfort, and convenience for the travelling public are the order of things observable throughout the boat, from the engine room on the lower deck to the saloon and other apartments above; and Capt. Duncan is justly proud of the trimness and neatness of his smart little craft this season.

The "Florenceville" will go on her usual route between Fredericton and Woodstock as soon as the ice, which is now running in large cakes, runs out of the river above Fredericton. Every accommodation is offered the public and business men for the transportation of passengers and freight.

Hotel Arrivals.

QUEEN HOTEL, May 2.—Frank W. Cummings, Portland; W. H. Smith, Montreal; Henry Green, Jr., Thos. McLaughlin, St. John; R. O. Gilroy, Boston; E. W. Davis, Sussex; John Sheehan, St. John.

For sale by JAMES S. NEILL.

TELEGRAPHIC.

Ottawa.

(Special to the HERALD.)

OTTAWA, May 3.

Notwithstanding the good showing Canada made at Shoberness last year the Government have decided not to grant any aid to a team this year. A great deal of pressure is being brought to bear upon them to induce them to reverse their decision.

Colonel Stevenson of Montreal arrived here yesterday and has had several interviews with members of the Government, with this object in view.

Premier Holmes of Nova Scotia, who has been here for some weeks past, left for home yesterday. There is excellent authority for the statement that he left with instructions to bring on the Nova Scotia elections immediately.

The Indian War.

(Special to the HERALD.)

SANTA FE, May 3.

The Mexican troops yesterday, under the command of Colonel Garcia, met the Indians. Colonel Forsythe is pursuing, and has killed seventy-eight, taking thirty-three prisoners.

Release of Suspects.

LONDON, May 3.

Parnell, Dillon and O'Kelly were released at eleven o'clock last night. The Times says the policy now to be tried in Ireland is one of concession and conciliation pure and simple. There were spontaneous rejoicings throughout Ireland over the release of the leaguers. At Limerick many people danced with joy, shouting "Forster is gone," "God Save Ireland." Bands turned out at Waterford. Emblems of rejoicing are universal. Fires were blazing on Wicklow hills last night.

Justin McCarthy presided at a special meeting of the Irish Parliamentary party here yesterday, when Bernard Molloy offered a motion thanking the Canadian Parliament for adopting the resolution in favor of autonomy for Ireland. Sir Joseph McKenna seconded the motion, and it passed.

In the House of Lords last night Lord Granville said the Government had no new policy to announce in regard to Ireland, but he added that the Coercion Act would not be renewed, and that the Government intended to deal with the question of arrears of rent and the Bright clauses of the Land Act. He announced that the three members of Parliament would be released at once, and the cases of the other suspects would be reconsidered, with a view to their release; but this reconsideration would not be extended to the case of Michael Davitt. During his speech in the Commons last night Gladstone said the release of Davitt was totally distinct from the release of the suspects, which was a question it might be right for the Government to consider.

DUBLIN, May 3.

Great excitement on the news of the resignation of Forster. Crowds gathered in the streets and cheered for Parnell, and groaned for Forster. Bands paraded the city playing national airs.

FIRE!

DAMAGED GOODS.

THE GOODS

that were damaged at the late fire will be laid on our counters for sale, on

Tuesday Morning.

They will be all marked in

PLAIN FIGURES,

The sale to be

Purely Cash.
