JOHN RICHARDS & SON.

LOCAL NEWS.

COLD WAVE.—The Reporter's cold wave was a failure.

Picnic.—The Kirk picnic to-day will probably be a grand success.

Cricket.—A lively "scratch" match of Cricket was played on the Square yesterday afternoon.

TENDERS.—Tenders are asked for the alteration and repair of the manse in connection with St. Paul's Church.

EXTENSION OF TIME.—The time for receiving tenders for the pipe &c., for the water-works has been extended until September 1st.

HAY CROP.—Advises from all parts of the country report that the hay crop has rarely, if ever, got in in better condition than it has been this year.

QUESTIONS OF THE HOUR.—When will the new sidewalks be finished? Shall we have water works this fall? Shall I go to the picnic?

GALA DAY.—The sixth of September will be a gala day in Woodstock. There will be some good races, and a bazaar in the rink. An excursion from this city, will be in order.

A QUIET STREET.—Queen street is rarely as quiet as it was yesterday afternoon between five and six o'clock. Scarcely a team was in sight and the pedestrians were few and very leisurely in their movements.

THE ELM TREE BONANZA.—Messrs. J. J. Adams and R. R. Call have returned from a visit to the Elm Tree Silver mine, bringing many fine specimens that have been found in the shaft that is sinking. They show traces of copper—*Chatham World*.

SERENADE.—On the return of a couple from their wedding tour, last night, they were visited at their residence, Charlotte street, by a band of serenaders, who broke the still night with the music of cow bells, tin pans, etc., in the light of a bonfire which blazed on the side of the street.

A FALSE ALARM.—A heavy column of smoke rising below the city created considerable talk yesterday morning and a report was circulated that the Jewett residence was burned. Upon inquiry it was found that this was not the case, and that the smoke came from burning brush.

U. T. A. PICNIC.—The United Temperance Association of Mauderville propose again holding their annual "Grand Excursion Picnic," on Sept. 6th, at Grand Lake. The Committee, G. A. Treadwell, W. Thurott and G. McElvin have already negotiated for and secured the services of the May Queen and are using strenuous efforts to make it a decided success.

ANOTHER FIND.—Literature, of a greasy and profane character, was not all the room occupied by Newton Lee was found to contain. Yesterday there were discovered in the hole which he had cut through the floor five files, brand new and of the finest variety, and several watch spring saws. Evidently they have attentive friends who feel the force of which George M. wrote to his uncle. "If we don't get out of here the game is up with us."

THE CHRISTIAN HERALD.—Mr. Foster is canvassing the city in the interests of the *Christian Herald and Signs of our Times*, a weekly illustrated publication which is issued simultaneously in London and New York. The circulation of the London edition of this paper is over 250,000. The New York edition, established now three years, has a circulation of 25,000. It is proposed to make the circulation in Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland equal 20,000. Already 1000 copies are sold in Halifax by the weekly sale at 3 cents per copy.

FATAL DRIVING ACCIDENT.—A most painful accident occurred at Elgin, a few days since, which our correspondent says, resulted in the death of Mrs. Leeman and serious injuries to her daughter, a young lady and a young man named Wilson. They were driving down a steep hill, when the breaching of the harness gave way and the wagon came hard up against the horse, causing it to run away and overturn the wagon, bruising Mrs. Leeman so badly that she died shortly after. The others were not supposed to be dangerously hurt, but Miss Leeman has been taken with fits, and is not expected to live. Dr. Robinson was called in the first instance, and more recently Dr. Purdy has been called. The young man, Wilson, is not dangerously hurt.—*Transcript*.

NORMAL SCHOOL GROUNDS.—When Mr. Colter was made Commissioner of Public works we were told that it was a species of treason to oppose him, for York County would now be able to get everything it wanted, and more too. In some of the back settlements the good people were led to expect, at least macadamized roads and in some places asphalt pavements were regarded as a not improbable result of the new regime. Mr. Colter has been commissioner now for nearly three months, and when he took office it had been arranged that something should be done with the grounds in the rear of the Normal School; but as yet they remain, not exactly in a state of nature, but several degrees worse. The fences are incomplete, stones and rubbish lie upon what might be made an attractive spot, and an absurd structure of wire and edgings in the rear forms a not very agreeable contrast to the substantial fence in front. Mr. Colter ought to see to it that something is done to make those grounds a little more presentable. It would not take much money to at least clear them up and enclose them by a fence.

NEW HEARSE.—Messrs Edgcombe & Sons have just finished a hearse for Mr. A. Gilman of Woodstock. It is not only the first hearse ever made in the province; but is probably in its appointments fully equal to any that has ever been imported into New Brunswick. It is provided with steel axles; iron flange hubs, steel tires, an improved patent circle, which enables a very quick turn to be made. The windows are of plate glass and the hangings are of black and silver. A very substantial silver rail, with vases for bouquets is on each side of the platform on which the coffin rests. Excellent arrangements are provided for fumigation and in short every modern improvement in hearses has been incorporated in this very elegant article. Messrs. Edgcombe & Sons intend manufacturing several more, and as the very best of carriage stock will be put into them and the price will be as low as they are sold for anywhere, this enterprise ought to prove successful.

THE RETIRED POLITICIAN.—The gentleman who retired from politics, by the largest majority on record, is letting himself down into private life by easy stages. He is a sort of unattached member of the Dorchester Corner combination, and flits about from point to point, singing his sweet song about the permanency of the "mythical" government, as the *Sun* says. How nice it is to retire from public life. How sweet it is to lay aside the cares and responsibilities of office, and spend the summer days in one unending picnic with just enough wire-pulling to prevent the fingers from becoming stiff. The gentleman who lately retired from politics, and who for so long a time wished to retire, has lately been at St. Stephen, where he has endeavored to complete the work which the Attorney General and Provincial Secretary took advantage of the reduced rates of travel to begin. Let no one ask who pays his expenses, or if he has a salary still. This would be wrong, for he himself hath said that he has retired, and the electors of York have corroborated him with an enormous AMEN.

TEACHERS' INSTITUTE.—The Fifth Annual Meeting of the Carleton County Teachers' Institute, will be held at Woodstock on the 7th and 8th of September. The following is the programme:

Thursday—First Session, 10 a. m.—Routine business. President's Address, etc.

Second Session, 2 p. m.—"The moral element in school life." Paper by Mr. Jacob W. Sherwood. Followed by discussion.

Third Session, 7 p. m.—"Good Reading; what is it, and how to secure it." Paper by Mr. Alder Boyer. Selections in reading by Miss Minnie Wiley, Mr. Chas. McLean, Mr. A. H. Sherwood.

Fourth Session—Friday, 9 a. m.—"The bearing of manual neatness on school life and work." Paper by Mr. S. A. Conillard. Illustrations from actual school work, with illustrations by Mr. W. N. Kerr.

Fifth Session, 2 p. m.—(a.) "The useful knowledge of the course of instruction and its value." Discussion by Messrs. E. W. Stevens, E. T. Miller, Chas. McLean. (b.) "What the course of instruction proposes to be taught in the matter of animal life." Paper and chart by Mr. C. T. Hendry. Time and place of next meeting. Question box opened.

All interested in the work are expected to be present and take part in the discussions. A competent committee are preparing music for the occasion. E. W. STEVENS, Secretary.

Preliminary Examination of the Lees.

The examination of the Lees was resumed yesterday. The Hon. Mr. Boardman and a number of Boston, were present for a time. They were accompanied and introduced by Mr. T. G. O'Connor. The first witness called was

ZEBEDEE WRIGHT, who said that he went to Lee's in company with Phillips and Vandine to make the arrest. His account of the circumstances did not differ materially from the others. The important part of what he swore was as follows: "I remained outside the barn; about ten or fifteen minutes after Vandine was shot, a man opened the window of the hay loft, and looked out; I recognised him; it was the prisoner, Newton Lee; he had no coat on; I do not know if he had a vest on; he had a light shirt on; will not swear it was white cotton."

On cross-examination, he described the premises, and the search for the Lees very fully.

JAMES DUNLOP being sworn, deposed to his having custody of the powder, shot, and cartridges found upon the prisoners.

JOHN WOODWARD was then called. His testimony, as far as it has gone, does not differ materially from the evidence of the policemen. He says that about fifteen minutes elapsed between the shooting of Vandine and the second entrance of the police into the barn.

The evidence of Wright is the completion of the chain of evidence which is singularly well connected. The examination of witnesses will probably be closed to-day.

Mr. James J. Anslow, Newcastle, N. B., writes: "Mrs. Anslow was troubled with Lung Disease, and until she took Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda had little or no appetite; but after taking a bottle or two she gained appetite and had a relish for her food, which was quite a help to her in keeping up against the disease. As we are out of yours, and cannot procure any here she is taking another Emulsion; but as we prefer your preparation to any in the market, will you kindly ship me some at once and oblige."

THE SHOOTING AT SUSSEX.—The following is the result of the competition for the Prince of Wales Cup at Sussex on Tuesday:

	200	300	400	yds.	yds.	yds.	T
1. Sergt. Loggie, 73rd Batt., cup	20	20	24	64

21. Pt. Calkins, St. John Rifles, 52	26	21	47		
22. Pt. Henderson, 62nd Fusiliers, 52	29	20	46		
23. Pt. Anderson, 6th Batt., 52	22	22	46		

THE RIVER.—The "Weston" had a very full load of passengers on her up-trip yesterday.

It is a dangerous thing to allow the diarrhoea or dysentery to go unchecked, and there is no need of it. A small bottle of *Parson's Purgative Pills* will cure the most stubborn case that can be produced.

Fever and ague, malarious fever, biliousness, typical fever, all originate in one producing cause and may all be easily prevented by *Parson's Purgative Pills*. These pills act directly and powerfully upon the blood.

Servant Wanted.

A PROTESTANT GIRL, for General Housework, in a New Hampshire village, on the Railroad. A capable person, willing to work, who can furnish satisfactory references, and who will remain a year at least, and work for \$3.00 per month, where there are children, and where she will be kindly treated, may address REV. S. L. GEROULD, Goffstown, N. H., United States. July 29, 1882.

MUSIC.

SEND for our new catalogue of 5-cent music and its wholesale price list, which is the lowest. BALEY & CO., 615 Washington St., Boston, Mass. August 15.
