COUNTING NOSES.—The Government claims
twenty-six votes in the new House. This
claim is simply nonsense. They are not sure
of more than sixteen votes at the very out-
side. They counted in their twenty-six Dr.
Vail, Mr. Gillespie and others whom we can
name. They count all the Charlotte repre-

was friendly to the administration, says:
"Of the members from Charlotte, at most

ever, adopted resolution recommending the

four years. Quite a number joined the So-
ciety.

Enecenia.

The Enecenia exercises at the University
were held yesterday afternoon in the Uni-
versity Library. There was the usual large and
fashionable gathering. These festivals have
been long recognized as among the most im-
portant events of the year and attract visi-
tors from a distance. The interest in the
University is certainly on the increase, and
the value of the institution as the crown of
the education system of the Province is every
year being more highly appreciated."Happy is the bride whom the sun shines
on," says the old proverb, and if the same
adage applies to those who receive their de-
grees at the University, the graduates have
reason to feel confident of a happy future,
for Enecenia day is always pleasant. Yes-
terday seemed likely to prove an exception
to the general rule, as the morning was dark
and threatening looking, but in the after-
noon the sky became clear, and the old tra-
dition was justified.At three o'clock the large room was com-
pletely filled. Upon the platform were the
Lieut. Governor, the Metropolitan, the Sen-
ate and Professors of the University, the
Chief Justice, Dr. Rand, Principal Crockett,
Prof. Foster, M. P., and others. The ex-
ercises began by the delivery of

THE ENECENIA ORATION.

Dr. Jack being the orator. This oration is
always to be understood as delivered in
praise of the founders of the University. It
owes its origin to Sir Howard Douglas, who
founded the Douglas gold medal, which is
presented every year to the successful com-
petitor in English composition, the test be-
ing an essay upon a subject named by the
Lieutenant Governor. As might be expected,
the subject of the oration has become
quite hackneyed; nevertheless Dr. Jack held
the attention of the audience, while he gave
a brief historical sketch of the institution,
going back to the earliest steps taken by
the Legislature of New Brunswick to found
an institution for higher education in the
Province.After the delivery of the oration, Dr. Jack
announced that the Douglas Gold Medal had
been awarded to W. J. Fowler of the gradu-
ating class. The subject of the essay was
"The effects of the discoveries of the nine-
teenth century upon the comforts and conve-
nience of life." In announcing the awarding
of the medal, Dr. Jack said that there were
three competitors for this prize. One of
them, whose essay was considered the best,
had not been attending the University for
the past year, and consequently, it was felt
that the medal could not in justice be
awarded to him.

MR. FOWLER

then came forward and read a portion of his
essay, after which the medal was presented
by the Lieut. Governor, who made a few ap-
propriate remarks.Mr. Parkin then reported upon the essays
submitted in the competition for the Alumni
Gold Medal, which had been awarded to W.
Bliss Carman.Mr. Carman then read a few extracts from
his essay. The Medal was presented by Mr. Parkin,
who made a few remarks. Among other
things, he said the prize must be regarded as
an evidence of the interest taken in the Uni-
versity by the old graduates, and of the im-
portance attached by them to the study of
classical languages. He spoke of the career
of the medalist, both at school and college,
in the highest terms.The Scholarships were then announced.
Mr. Fowler received the Mathematical
Scholarship awarded to the Senior Class;
Mr. Bliss the English Scholarship in the
Junior Class, and Mr. Fritz the Classical
Scholarship in the Freshman Class.The French Prize was awarded to Mr. Wm.
Crockett.The Microscope was awarded to Mr. F.
Bliss for proficiency in Natural Science.Dr. Jack spoke of the remarkable equality
of the competitors for this prize.
Dr. Bailey presented the microscope. He
spoke of the difficulty of deciding upon
which student should receive the prize. He
announced that Dr. Atherton had cut the
Gordian knot by presenting a second micro-
scope.Dr. Jack stated that he was unable at
present to award the Lorne Medal. There
were three competitors, namely, Messrs.
Brodie, Macintosh, and Meagher who had
made respectively 750; 750 and 735.The Lorne Silver Medal for proficiency in
Natural Science, the competition for which
was conferred to the Freshman class, was
awarded to Mr. A. W. Duff, Mr. W. Ganong
being a very close competitor. The Metro-
politan announced that he would give
a prize of books to Mr. Ganong.Honor certificates were then awarded. The
number of students receiving them this year
is unusually large.Mr. W. B. Carman delivered the annual
oration of the last graduating class. He
spoke of the significance of this privilege
which had been accorded graduates and of
the College course generally, acquitting
himself very creditably.The Degree of A. B. was conferred upon
the following undergraduates:—
W. J. Fowler, Northumberland; F. S. Chap-
man, King's; H. I. Taylor, St. John; J. A.
Johnson, Queen's; O. P. Smith, Queen's; P.
G. Macfarlane, York; W. W. White, St. John;
W. C. Crockett, Fredericton; J. R. Macintosh,
St. John; H. H. Bridges, Sunbury; W. A. S.
Keirstead, King's; H. B. Kilburn, York; R. B.
Phillips, Fredericton; E. D. Weldon, West-
morland.J. F. Hailey, E. B. Hooper and G. R. Devitt,
of the Class of '81, also received the Bachelor's
degree.
Mr. H. I. Taylor of St. John had the honor
of being at the head of the graduating class.Degrees of A. M. were conferred upon
Messrs. J. and W. Rosborough; and the
honorary degree of LL. D. upon His Honor
the Chief Justice.Mr. Parkin then stated that the subject for
competition for the Alumni Gold Medal
would be learned on application to the Secre-
tary at the expiration of the ensuing week.
He also stated that a prize in the Natural
Science course, consisting of a collection of
minerals, would be given next year. He in-
troduced

L. ALLEN JACK, A. M.,

who delivered the Alumni Oration, at the
conclusion of which Dr. Jack announced that
the Registrar of the University, E. H. Wilmot
Esq., had resigned, and that it was the desire
of the students to present him with an ad-
dress. Mr. W. Crockett then came forward,
and on behalf of the students, read a short
address, and presented Mr. Wilmot with a
gold headed cane.

MR. WILMOT

made a short reply, conceived in a pleasant
strain, and concluded by bidding the Uni-
versity "Good-bye."The Lieutenant Governor announced the
subject for the next Douglas Gold Medal,
namely, for the best English Essay upon the
following subject, "What is Culture, and
How is it best Obtained."

The exercises were then brought to a close.

In the evening the Alumni dinner was held
in the College Hall. In getting up this fea-
ture of the day's proceedings, the Professors
took part, and an invitation was extended to
all the under-graduates, the resident clergymen
of the city, all grades of the University
and a few others. About one hundred per-
sons were present. The tables were well
supplied by J. W. Withrow, University
steward, and an enjoyable evening was spent.
There was the usual round of toasts and more
than the usual round of speeches. The din-
ner party broke up at a late hour, and thus
ended an Enecenia day which will be long
remembered by those who participated in its
pleasures.
