

A TEAMSTER'S STORY.

Suffered Greatly From Asthma and Kidney Troubles.

Spent Some Time in a Hospital and Almost Impoverished Himself Buying Medicines Without Benefit—Again Dr. Williams' Pink Pills Cure After Other Medicines Fail.

From the Recorder, Halifax, N. S.

Mr. William Cochrane, a well known teamster, who lives near the Halifax Pole Grounds, is one of those who willingly bear testimony to the curative powers of Dr. Williams' Pink Pills. A reporter of the Acadian Recorder who had heard of Mr. Cochrane's sufferings and subsequent cure, called at his home, when he gave an account of his experience substantially as follows:—"He had for many years been a constant sufferer from asthma, accompanied by an aggravated form of kidney trouble. The latter trouble caused severe pains in the back and loins, and at times his sufferings were very acute. He said he had almost impoverished himself in buying medicines of all kinds, but to no purpose; the trouble continued and seemed to grow worse as the years passed. Mrs. Cochrane said that she had frequently seen her husband choke up and fall to the floor as though dead, and he would have to be worked with and rolled around before he would revive. A few years ago he spent ten days in the Victoria General Hospital. The doctors then thought that the pains in the back were due to over exertion in his business as a teamster, but gave him no material help. After leaving the hospital, he used bottles and bottles of medicine, but failed to find a cure. A neighbor of his, Mr. Lowe, whose wife had been made a well woman after years of sickness, by the use of Dr. Williams' Pink Pills, advised him to try them. He used a couple of boxes without apparent result, and felt somewhat discouraged, but Mr. Lowe advised him to continue the use of the pills, and before the third box was finished, he began to improve. 'Dr. Williams' Pink Pills have been a Godsend to me,' said Mr. Cochrane; 'they are the only medicine I have taken which seemed to do me any good. I had one prescription from a doctor which cost me \$1.75 a bottle, which like many other medicines I took, was just so much money wasted. I have used eight or ten boxes of Dr. Williams' Pink Pills, and can say that before I began their use life was an intolerable burden. I have reason to be thankful that I followed the friendly advice that urged me to use this medicine.'

Most diseases have their origin in poor blood or weak nerves, and it is because Dr. Williams' Pink Pills make rich, red blood and strengthen the nerves that they have met with such success in curing kidney trouble, rheumatism, paralysis, St. Vitus dance, anaemia, nervous prostration and kindred troubles. See that the full name "Dr. Williams' Pink Pills for Pale People," is on the wrapper around each box. If in doubt, send direct to the Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be mailed post paid at 50 cents a box, or six boxes for \$2.50.

At last the horrible cruelty of the British concentration camp is exposed. A Boer woman, who is violently anti-British, writes to her father and mother that she is comfortably housed, well fed, well clothed, not compelled to work, and with the other Boer women, allowed to play tennis all day. It may be asked where is the cruelty in all this? The cruelty, the diabolical cruelty, of the Government of which Mr. Balfour is a member, is shown in neglecting to provide these gentle ladies with golf links!

They Are The Best And Cost Only Ten Cents.

The only pure and guaranteed home package dyes are the tested Diamond Dyes. Each package colors from one to six pounds of goods at a cost of ten cents. Each color of the Diamond Dyes will give from three to five decided and handsome shades. Do not be induced to buy inferior package dyes; insist upon getting the Diamond Dyes.

The ladies of Canada are delighted with the Diamond Dye Mat and Rag Patterns. If you wish some pretty floor ornaments, ask your dry goods dealer to show you the new designs on extra strong Scotch Hessian. If you cannot get them, send your address to The Wells & Richardson Co., Limited, 200 Mountain St., Montreal, P. Q. and they will send you postpaid, full lines of new Mat and Rag Patterns to choose from.

BOTH SIDES LIE.

Problem in South Africa a Very Complicated One.

New York, Nov. 22.—A London despatch to The Times reports that mail advices from Natal to The Times say the problem in South Africa is a complicated one, and cannot be grasped by reading the newspapers. Both sides lie. The correspondent says the British must be made to understand that they

have to deal with a peculiar people, whom very elementary education has been directed by their unscrupulous and ambitious leaders to imbuing them with the belief that, as the chosen of God, they are called to the dominion of South Africa—They are taught that the Amalekite Britisher is to be driven into the sea, leaving them the blacks as their hewers of wood and drawers of water, as in the days of the Great Trek.

In Natal, says the correspondent, the people are either thoroughly loyal or thorough rebels, but in Cape Colony thousands of Afrikaners are on the fence. There has been too much sentimental humbug, declares the correspondent. He insists that the inhabitants must be thoroughly "smashed," and made to feel that they are "smashed," for the sake of the future quiet of South Africa. Then will be the time for the British to be generous. After peace comes the burghers can be handled easily if the scales of justice are evenly held.

LADY MINTO GOT LOCKET BACK.

Lost It From a Train Between Hyde Park and Poughkeepsie.

Poughkeepsie, N. Y., Nov. 21.—Several days ago, while the Earl of Minto, Governor-General of Canada, with Lady Minto, were on their way to New York, to bid farewell to Lady Eileen Elliot, who was to sail from New York, Lady Minto lost a gold locket which she prized highly, because it contained a lock of her dead child's hair. While combing her hair the locket became detached and dropped into the wash bowl, and before she could recover it had fallen through the pipe down on the track. The train at the time was between Hyde Park and Poughkeepsie. When the train stopped at this city, the Earl of Minto alighted and told the station agent that he would pay a reward for the return of the much-prized piece of jewelry. The locket was found by N. L. Pamiatier, foreman of the section between Hyde Park and Poughkeepsie. He picked it up near Roosevelt's Point, and sent it to the superintendent's office, and it was restored to Lady Minto. Pamiatier has received a cheque for \$25 from the Earl of Minto.

Sir Frederick Treves, whose dignities include the office of Surgeon to the King, in the course of a speech at London Thursday night, referred to the recent talk in regard to His Majesty's health, as foolish and wicked reports. He added that it was a pleasure to him to be able to state that King Edward never enjoyed such excellent health as at the present time.

A MESSAGE TO TORTURED AND RACKED SUFFERERS.

A Lady Tells of Her Cure By

PAIN'S CELERY COMPOUND

Her Condition Before Using The Great Medicine Was So Bad She Could Not Raise Her Hands to Her Head and Could Not Walk.

In the majority of cases, the prime cause of rheumatism is a lack of nerve force. When the nervous system is weakened, the joints swell—usually the knees, elbows and wrists, and there is severe inflammation and suffering. Paine's Celery Compound is the only medicine that can banish the gathering symptoms and permanently cure the most terrible cases of the disease. Thousands of strong testimonials from the people of Canada—many from your near friends and neighbors—prove conclusively that no other medicine possesses such marvellous powers for the cure of rheumatism, sciatica and lumbago. An Orillia, Ont., lady, Mrs. S. W. Sullivan, writes thus:

"Early last autumn I was so badly afflicted with rheumatism that I could not raise my hands to my head, and often could not walk owing to pains and stiffness of joints. At night I rarely slept owing to nervousness and feelings of exhaustion. I commenced to use Paine's Celery Compound, and soon found myself greatly relieved, and after use of first bottle, my pains and nervous feelings were banished. In order to make the cure complete I used the second bottle of Paine's Celery Compound and now I am strong as ever before. I sleep well, appetite is always good, and my digestive vigor all that I could wish for."

\$4000 A YEAR.

Handy Income Falls to a Boston Man.

CHARLES F. SHOURDS, HIS SISTER AND BROTHER BENEFIT.

Money From the Estate of Ida M. Flagler.

SEE IS IN A SANITARIUM AND IS ROLLING IN WEALTH.

New York, Nov. 22.—Ida Flagler, the beautiful woman, who was formerly wife of Henry M. Flagler, the oil magnate, and for years confined in a sanitarium, has an income so large that how to dispose of it is a puzzle to the committee of her person and estate and to the courts.

Justice Clark of the supreme court yesterday granted an order increasing the allowance for her care and maintenance from \$1,000 a month to \$25,000 a year. In addition Dr. MacDonald is to receive \$5,000 a year as her medical attendant.

Mrs. Flagler possesses an estate valued at nearly \$2,000,000, producing an income of about \$100,000 a year.

Justice Clarke further permits three of Mrs. Flagler's relatives—two brothers and a sister—to receive \$4000 a year each out of the income, or \$12,000 in all. This brings the total expenditures to \$42,000, leaving still an unexpended balance of about \$58,000 a year.

The \$4,000 annually which the relatives are to receive is to be deducted from their respective shares in Mrs. Flagler's estate.

It has just been discovered that Mrs. Flagler has three nephews living, who in 1876 were apprenticed by the New York juvenile asylum to farmers in the west, and who will ultimately have a share in her millions. Until a few weeks ago, when inquiries were instituted, these three young men did not know they had relatives in the east. They are George W. Richard W. and William W. Taylor, sons of Edward W. Taylor, who formerly resided in this city. Two of them live in Iowa and one in Washington.

Mrs. Flagler's two brothers are Chas. F. Shourds of 74 Pearl st., Boston, and Stephen E. Shourds of 478 Crescent st., Brooklyn. The sister is Mrs. Mattie A. Johnson of Pawlet, Vt.

When the nephews hear of Justice Clark's award of \$4000 a year to the uncle and aunt it is probable they also will apply for an allowance. The two brothers and sister asked for \$5000 a year. Dr. MacDonald recommends that Mrs. Flagler be given a home, a retinue of servants, and horses and carriages. With these changes the doctor thinks her general health will continue good.

EYES AND NOSE RAN WATER.—C. G. Archer, of Brewer, Maine, says: "I have had catarrh for several years. Water would run from my eyes and nose for days at a time. About four months ago I was induced to try Dr. Agnew's Catarrhal Powder, and since using the wonderful remedy I have not had an attack. I would not be without it. It relieves in ten minutes.—22. Sold by W. H. Carten.

It is the last straw that breaks the camel's back. Mr. Richard Croker says that for years the clergymen have always "had it in for him," they have called him a common thief, said he never earned an honest dollar, and made him responsible for every crime committed in the city. All this he has endured with exemplary patience, but now some of the newspapers have accused him of wearing "golf breeches" on O. H. P. Belmont's links, and he denounces the accusation as an outrageous lie. He admits that he played golf, but challenges his enemies to prove that he wore knee "pants," or even a golf cap. The Tiger is aroused; let his enemies beware.

CAREWORN MOTHERS.

Life Often Made a Burden Through Nursing a Cross and Fretful Baby.

All babies should be good-natured; well babies, if there is no outward reason for discomfort, are always good-natured, and yet how many mothers permit themselves to be thoroughly worn out, caring day and night for a sick, cross and fretful baby, when a little care and foresight

would remove all the trouble and make both mother and baby happy. The little one's suffering and crossness may be caused by any one of the numerous ills that make baby lives a misery to themselves and a constant source of worry and discomfort to the mother, such as colic, worms, indigestion, constipation, the irritation accompanying the cutting of teeth, etc. When baby is cross do not, if you value your child's future welfare, give it any of the so-called "soothing" medicines, as they only stupefy and deaden without removing the cause of the trouble. What is needed is a simple, vegetable compound, such as Baby's Own Tablets, which reach the root of all the minor ailments of little ones, making them well and happy. The best proof of this is the high praise all mothers who have used this medicine award it. Mrs. W. S. Beaverstock, Church street, Brockville, says: "I have used Baby's Own Tablets in my house for several years and know of no medicine for little ones that can equal them. When my baby was teething she was restless, cross and peevish, and I could do very little with her. I gave her the tablets and they quieted her when other medicines did no good. When baby was troubled with constipation the tablets always gave prompt relief, but above all things I think they are most excellent in indigestion; she vomited a great deal, was very cross and would scream with pain, and I had to get up with her many times during the night. No matter how much she ate she kept growing thinner. It was then I began the tablets, and she grew plump and fat, and I had no further trouble with her at night. I can recommend the tablets to any mother who has a sickly, cross or fretful baby, and I am sure she will never be without them again." Baby's Own Tablets are easily administered and dissolved in water can be given safely to the youngest infant. If your druggist does not keep them send 25 cents to the Dr. Williams' Medicine Co., Brockville, Ont., and a box will be sent you by mail, post paid.

The Dominion department of agriculture has forwarded another lot of specially fattened chickens in cold storage to Great Britain this week. This lot was from various fattening stations and contained 2,592 chickens. Returns have just been received from the first lot of fattened chickens shipped by the department this season. They were sold in Liverpool wholesale at 14 cents per pound, and the net returns were equal to \$1.31 per pair of chickens at Montreal. Professor Robinson says the export trade in fattened chickens is bound to become a very large one and the demand in the Canadian markets will also greatly increase as soon as consumers know the very superior quality of fattened chickens and the high percentage of each bird.

MALT BREAKFAST FOOD.

Far Ahead of Liquid Malt Extracts for imparting Health and Strength.

When it is possible judge for yourself, more especially in matters concerning health. A large number of worthy people in order to gain flesh and strength, use malt extracts. It should be well known that these liquid malts are spoiled by the admixture of fermented liquors and are injurious to digestion.

For the gaining of health, strength and vigor, eat malt; do not drink it.

Malt Breakfast Food gives to all who are seeking for strength and robustness the pure Malt in its simple and fresh condition. This malt renders the starch of the Wheat soluble, giving a food in which digestion has already commenced, therefore easily digested by the human digestive agents.

It is an established fact—one worthy of special note—that one package of Malt Breakfast Food contains more nourishment and strengthening qualities than can be found in one dozen bottles of liquid extracts costing from fifteen to twenty times more money. See your Grocer.

Some gentleman from New York has turned up at Halifax and claims that he is the genuine Prince of Wales. He wants to reside in the house where his great-grandfather, the Duke of Kent, lived, hence goes to Halifax. It is some indication of the popularity of R. H. R. that his impersonators outnumber those of all other royal representatives in the leading lunatic asylums of the country.

Polson's Nerviline Cures Rheumatism.

The remarkable strength and marvellous soothing power of Nerviline renders it quite infallible in rheumatism. Five times stronger than any other remedy, its penetrating power enables it to reach the source of the pain and drive out the disease. Nerviline is stronger, more penetrating, more highly pain-subduing in its action than any other medicine heretofore devised for the cure of rheumatism. Sold in large 25 cent bottles everywhere.

ESSAY ON THE NEWSPAPER.

A Schoolboy's Very Racy Description of Papers and Editors.

In a little country school not far from Princeton, literary exercises are regularly indulged in every Friday afternoon during the term. A twelve year old boy read an original essay on The Newspaper. This latter day youthful Solomon treats his subject thus:

"Newspapers are sheets of paper on which stuff to read is printed. The men look over the paper to see if their names is in it, and the women see it to put on shelve and sich. I don't know how newspapers came into the world. I don't think God does. The Bible says nothing about editors, and I never heard of one being in heaven. I guess the editors is the missing link them fellers talk about. The first editor I ever heard of was the feller who wrote up the flood. He has been here ever since.

"Some editors belong to church and some try to raise whiskers. All of them raise hell in there neighborhood, and all of them are liars, at least all I know, and I only know one. Editors never die. At least I never saw a dead one. Sometimes the paper dies and people feel glad but someone starts it up again. Editors never got licked. Our paper is a mighty poor one, but we take it so ma can use it on our pantry shelve. Our editor don't amount to much, but paw says he had a poor chance when he was a boy. He goes without underclothes in winter, wears no socks, and has a wife to support. Paw hasn't paid his subscription in five years, and don't intend to.

Weary Brain Workers.

Fagged out, ideas come as slowly as molasses. You think of things just a minute or two too late. Snap's gone! The buoyancy that made work a pleasure—that's gone too. The doctor would tell you that you are run down, not eating enough, nor digesting enough. Your stomach needs aid, your digestion needs a bracer too. Your blood requires Phosphorus and Iron that it may be formed readily. Now Ferrozone is a wonderful nerve bracer and blood maker. It's food for the blood and nerves, it will make you strong quickly and permanently. Sold by Chas. A. Burchill.

Little John Sadler, six years of age, living at 287 Champlain street Quebec, was sliding Thursday down a sharp incline to an old wharf near his home. After three or four trials he got a suitable track broken for his sled and prepared to enjoy himself. The hill was a little too long and steep, for after a short while his sled got such impetus that it coursed rapidly down the hill, slammed over the level snow at the foot, continued the whole extent of the wharf, and finally plunged over the edge into the river. The body was not found for two hours.

When you feel weak, run down, nervous, unable to work or think as you ought, take Milburn's Heart and Nerve Pills. They'll build up your health and give you strength and energy.

It is reported at Winnipeg that the Grand Trunk is forming an alliance with the Canadian Northern and a couple of American roads, with the object of securing a share of the Manitoba grain trade.

DOAN'S KIDNEY PILLS cure backache, sideache, scanty, cloudy, thick and highly colored urine, diabetes, dropsy and all troubles arising from a weak condition of the kidneys.

Truro, Nov. 22.—The feud existing between Windsor and Truro as to the headquarters of the Midland Railway is evidently settled by the removal to Truro from Windsor of Manager Harris with his family. The office of the company will be on the esplanade, opposite the International Railway station.

Twenty Years of Bronchitis.

Captain Dunlop, of Kingston, commander of the steamer "Bohemian," of the R. & O. fleet, suffered unceasingly for twenty years, and although he took treatment all that time permanent relief was not obtained until he used "Catarrh-ozone" which cured him quickly and permanently. The Captain says "Catarrh-ozone is the best cure for Bronchitis on the face of the globe, pleasant to use, quick to relieve and sure to cure." Catarrh-ozone is a wonderful treatment for all diseases of the Throat, Lungs and Bronchial Tubes. Two months' treatment, price \$1.00, small size 25 cts. Druggists or Polsons & Co., Kingston, Ont.
