DAILY HERALD.

MONDAY, MARCH 4, 1901.

ABOUT FLOPPERS.

Mr. LaForest did not make much of his attack on Mr. Porter in the Legislature. The member for Madawaska charged Mr. Porter with being a political flopper, and the member for Victoria was able to remind Mr. LaForest that he had executed a double political somersault. At one time a Conservative, then a Liberal, and now again a Conservative. Gentlemen of Mr. Laforest's agility for jumping the political fence should be careful how they throw stones at others, lest the glass in their own conservatory may be shattered. Mr. Porter has been a consistent liberal all the time Mr. Laforest has been executing his hurdle jumping in both the local and federal arenas.

THE MANITOBA DEAL.

The more the railway deal between the Manitoba Tory Government and MacKenzie and Mann is understood, the more its sacrifice of the province's interests is condemned. Boadly speaking, the agreement pledges the Provincial credit for an annual payment of $442,000 in addition and for any deficit of earnings to meet the running expenses. The Province becomes security for the success of the railway company, but gets little, if any, control over its management. There is nothing to prevent the company putting all the earnings into improvements or paying enormous salaries to its officers and leaving the Province to pay rentals and interest. There is no representation of the Province on the Board of Directors. In fact, it appears as a partnership in which the Province puts up the capital and the company manages the whole business. All the Province gets is the covenant of the company that the company will not charge more for carrying freight than the schedule of rates to be fixed by the Government. This is what Manitoba gets as an accompaniment of Tory government, it is the price it pays for overthrowing Greenway and accepting Hugh John Macdonald and Roblin.

KINDLY TREATED.

The Strathcona Horse who are, expected at Halifax any time now, were feted quite as generously in England as the first Canadian Contingent, and especial attention was showered on their commander, Col. Steele.

On the day of landing, the Strathconas were in the line of troops, occupying a prominent place, on the occasion of the opening of Parliament. The next day an inspection by His Majesty, presentation of medals and royal colors, and presentation to Col. Steele, by the King, of the Cross of the Victorian Order. That day the Colonel lunched as guest of the Duke of Argyle and Princess Louise; the 17th lunched with Mr. Joseph Colmer of the High Commissioner's office, and dined with the Duke of Abercorn. On the 18th he was Lord Dundonald's guest for dinner. Lord Strathcona lunched the corps the 19th. The Secretary of State for War entertained Colonel Steel, to dinner on the 20th to meet Lord Roberts, and Lord Strathcona invited him to dine the 21st and to 5 o'clock tea, the 22nd ultimo. He sailed next day for Canada.

The opposition member for Madawaska has evidently not heard of the smallpox and snowblockade excuses of Mr. Hazen's party for not contesting the bye-elections. Mr. Laforest says "we did not think it worth while to open our purses," for the bye-election, so that the plea of economy is to be added to the list of excuses. Mr. Laforest's confession is an acknowledgement that the only hope the opposition could have of winning the bye-elections was by purchase.

Mr. Logan, the genial M. P. for Cumberland, is unfortunate in having for his given name one that is quite uncommon, and so the newspapers seldom get it correct. Hance J. Logan is our friend's proper name, but he is generally written Horace J. Logan, and now the Telegraph crops up with Hana J. Logan. Probably the M. P. will very strenuously object to being feminized.

It is said at Ottawa that Sir Wilfrid Laurier will not be able to take in the Australian trip, and that Hon William Mulock, postmaster general may go in his stead, leaving the capital in a couple of weeks.

President McKinley succeeded himself today as ruler of the United States for the next four years. The inauguration proceedings were on an unusually grand scale.

The town of Babylon, New York, has gone so daft over euchre parties that the religious services have been greatly neglected, and the Methodist clergyman has found it necessary to denounce from the pulpit the frivolous tendency of the congregation. The immediate cause of the rebuke was the presence at a euchre party of three of the church deacons.

In his speech on the address in the Legislature Mr. Hazen fought shy of the bye election record. Last year the opposition had just elected Mr. Fleming in Carleton, and Mr. Hazen and his associates did a powerful lot of blowing over the result. Now it is different.

The first Dominion bye-election since the general contest in November last, is to be held in East Queen's, P. E. Island, March 20. Mr McKinnon, Liberal, who was unseated in the courts, will again be the government candidate and his opponent is Martin, defeated in the general election.

Canada loses its most distinguished scientist in the death of George M. Dawson, director of the geological survey, which occured at Ottawa, Saturday night. Deceased was a son of Sir Wm Dawson, for many years principal of McGill University, and was born at Picton, N. S., 51 years ago.

The United States congress which has been in existence for four years, expired today, and the new one elected last November will commence business next December, if a special session is not called in the meantime. The Senate sat Sunday afternoon and evening to close up its business.

The Chief Justice under the privileges of the bench, had a slap at the Attorney General, and Dr. Pugsley with the privileges of the legislature to back him up, got back good and hard at His Honor, but neither of the gentlemen will have to go to jail in defence of their opinions of each other.

Hon. L. A. Sifton, brother of the Minister of the Interior, has entered the North West government as Commissioner of Public Works. The Siftons are a political family. The father, Hon. J. W. Sifton, not many years ago was Speaker of the Manitoba Legislature.

Chas. Marcil, who represents Bonaventure as a Liberal in the House of Commons, and was a member of the Montreal Star staff when he was elected last November, has joined La Patrie, and is its parliamentary correspondent.

It was cruel of Premier Tweedie to remind the member for Madawaska of those tears. "Look at my eyes: I cried all night. It will be my political ruin."

NEWS NOTES.

Fred Hale, a prominent Montreal hockey player, dropped dead from heart failure on the ice while playing in a match at Victoria rink Saturday night.

The Ontario board of health has received word of another case of smallpox in Renfrew county, Eastern Ontario. There are now 80 known cases in the province and quite a number of suspected cases are being watched.

David Jardine, a native of Kent Co., head of Messrs. Farnworth & Jardine, Liverpool, and brother of Mrs. MacLaren, of St. John, has been elected chairman of the Cunard Steamship Company, in succession to Lord Inverclyde, who died February 12.

A lad named McKelvie, 9 years old was killed at Memramcook, Saturday night, while attempting to jump off a moving train. He fell under the cars, both legs were taken off and he lived only a few hours. Deceased's father was killed on the railway six years ago.

The premises of the Central Press Agency Toronto, in the upper story of the World building, were scorched early Sunday morning. The loss in machinery and stock is estimated at $10,000, fully covered by insurance. The World office is damaged by water to the extent of $5,000; insured.

The Montreal jury investigating the death of Mrs. Maynard, came to the conclusion, after hearing the medical evidence, that the woman had met her death through a nervous shock or fear through bites caused by dogs while she was in an intoxicated condition. The verdict is a most unsatisfactory one in the eyes of the public. Maynard, her husband, who was under detention, has been released.

A company to be known as the Annapolis Iron Company has been incorporated at Halifax under the Nova Scotia Companies' Act, with a capital of between one and two millions. S. M. Brookfield, B. F. Pearson and some Boston men are in it. They propose to mine ore at Torbrook, erect blast furnaces and build ships in Annapolis. One hundred acres of land at Annapolis have been bonded for a shipyard. Operations are to commence in the spring.

Large Consignment.

Lucy & Co. have been during the last three weeks receiving large consignments of all kinds of goods in their line. Buying direct from the manufacturers through their agents they find is more profitable not only for themselves but also for their customers. They don't believe in snooking around the Montreal and Quebec auction rooms looking for shop worn and second hand goods. They have a very fine assortment of goods in at present and invite all to call and examine it.—d.

IN BLAZE OF GLORY.

William McKinle and Theodore Roosevelt

WERE INAUGURATED PRESIDENT AND VICE-PRESIDENT OF THE U. S.

More War Ships in the Potomac than at Any Time Since Civil War.

GREAT PARADE OF NAVAL AND MILITARY FORCES—THE PRESIDENT'S ADDRESS.

(Special to the Daily Herald.)

Washington, March 4.—William McKinley of Ohio, and Theodore Roosevelt o New York, were inaugurated into their respective offices of president and vice president today amid greater pomp and majestic display than that which characterized the inauguration of any president in recent years.

More warships were in the Potomac today than has assembled there since the civil war.

The streets were literally blocked with spectators to witness the march of many thousands of navy and army officers and men, veterans of the Spanish-American war, and other organizations. Their gold lace and bright accoutrements glistened in the sun and made an imposing show.

The inaugural address of President McKinley says he reviews the expiring administration with satisfaction, and has no fear for the future. Many important questions confront the nation, but he is confident the government can solve them.

One of the greater problems he adds is the relations with Cuba. He asserts with vigor and determination, that congress has mapped out the future status of the island and the government cannot deviate from that course. The United States is pledged to maintain order and exercise a helping hand over the new people.

As to the Phillipines, no government can be granted until the insurrection is put down. The United States is at peace with the world, and he prays that war will never come to the republic again. The conflict with Spain was unavoidable and the nation emerged from the contest with new glory to its arms.

DISORDERLY LAVAL STUDENTS

Visited a French Newspaper Office and Wreaked Vengeance.

(Special to the Daily Herald).

Montreal, March 4.—Incensed at a severe criticism administered by Le Journal this morning for their conduct at a concert Saturday night, two hundred Laval students at 10 o'clock marched in solid phalanx to Le Journal's business office on St. James street, wrenched the bulletin boards from their fastenings, and amid howls and jeers, burned them.

The demonstration partook of the nature of the memorable raid of McGill students when Ladysmith was relieved.

Bank Clerk Robbed.

(Special to Daily Herald.)

Quebec, March 4.—A bank offical named Turcotte, employed by the Provincial Bank of Canada at St. Sauveur, was sand bagged and robbed of one thousand dollars Saturday night. His assailants have not been arrested.

Sectionmen Killed.

(Special to Daily Herald.)

Stratford, Ont., March 4.—Section foreman William Wilson and Samuel Cuthbertson, one of his men, were instantly killed this morning between Atwood and Listowell, the result of a collision between a hand car and a snow plow.

Aged Clergyman's Death.

(Special to the Daily Herald.)

Montreal, March 4.—Canon Anderson the oldest Anglican clergyman in Canada died at Sout, last night, aged ninety-one years.

The Chinese Puzzle.

(Special to Daily Herald.)

Pekin, March, 4.—The Emperor will return to Pekin at the end of March. The foreign ministers demand the death penalty for twelve more high officials.

SOUTH AFRICAN WAR.

The Nimble DeWet Still Evades Kitchener.

London, March 4.—General DeWet lost heavily in men and stores by his incursion into Cape Colony, but he seems to have made a clever escape with the bulk of his commando. Apparently Commandant Hertzog crossed the Orange river with him.

General Bruce Hamilton, who was pursuing, heard that General DeWet was surrounded at Philipstown, northwest of Colesburg. On arriving there he found the Boers had not been at Philipstown at all but had doubled back and were struggling across the river at Colesburg. Apparently this is another instance of defective intelligence regarding the doings of the Boers.

The Daily Telegraph has a despatch from Colesburg dated yesterday which says:

"Our numerous columns are still hunting for De Wet. This place is in a hubbub and troops are marching off in various directions to press the pursuit further."

Colesburg, Cape Colony, Friday, March 4.—Fifteen hundred Boers, with whom, it is alleged, were General De Wet and former President Steyn, found a spot at Lilliefontien, near Colesburg bridge, where the Orange River widens and the current is slow and they all crossed, both men and horses, by swimming.

BURTT'S CORNER.

(Special correspondence to the Herald.)

Feb. 28.—Jedediah Brewer of this district, who is carrying on a lumbering operation on the rear of his farm, has met with phenomenal success of late. One of his men the other day felled a sapling pine which measured 1600 ft, something unusual for this part of the country.

Everyone is on the move here with their teams, hauling spruce to Jones Fork's mill stream for Burpee Jones. Mr Jones expects to have when completed for season, a cut of 600,000.

Several of our young men are expected home from the woods this week.

Mr. Elwood Allen is, we learn, to leave his state of single blessedness in the near future.

The Rev. Messrs Howard and London are holding revival meetings, which no doubt will be productive of much good.

A R Henderson, of Windsor, Geo W Whitehouse, Osbern Whitehouse and Emery Manuel, of Knowlesville, Carleton county, stopped at the Central hotel, here today, on their return home from Fredericton. They had three double teams all heavily laden with provisions; of all the teams passing through our neighbourhood theirs were of the first grade.

Mr. Pickard, lumber surveyor of Gibson is here on business.

Mr. Bailey, of Haynesville, (merchant) stopped over here last night.

Mr. McDougal picture framer is located here for a short period.

Our merchant Wm. Morris, has bought the Bailey store and business of Haynesville,

Edwin Burtt, of Zealand Station, is now busily employed refitting, Elwood Burtt's store; he had been at work, on the Disciple church, previous to taking up this job.

Mrs. Jerusha Morgan, who keeps the Central hotel, has good prospects, of receiving a goodly sum, of money, being part of several amounts, bequeathed to the heirs of one Jewett, of Hartland, Carleton Co. N. B.

Mr John Estey of Stone Ridge near Zealand Station, had rather an unusual happening in his barn yard today. One of his ewes gave birth to a beautiful lamb. The other sheep don't know what to make of this, as it is not at all usual at this season of the year.

Mrs Wm Crouse of Stone Ridge, has just completed a very handsome hooked mat. It has in the centre a design representing a salmon, and is a very good imitation.

Mrs. Milford Brewer, who has been very ill all winter, is now convalescent.

Persons travelling through Upper Keswick should call and see Dr. Moorehouse's "Frog Band." He has in this, the most novel attraction of the century. Last year, he caught a lot of frogs of various sizes, skinned and stuffed them. He has them set up, arranged and supplied with instruments, representing Sousa's Band. Those who would not take to music, he supplied with "T. D." pipes, which they are smoking incessantly and are sitting back on their haunches with an air of confidence listening to the sweet melodies of their brothers playing "The Frog March." The curio is placed in a case, lined with looking glass which makes the frogs very vain.

Miss Clara Burtt, who is attending Normal School at Fredericton, came home today, to pay her parents a visit.

Mr. Fred Gilmour is ill with la grippe.

Rev. Chas. F. King (Advent minister) is ill with la grippe.

UPPER QUEENSBURY.

(Special correspondence to the Herald.)

March 1.—We are enjoying quite a spell of fine weather again. As spring has begun so fine we will hope to have it a little warmer as the winter has been so severe.

Mrs. Herbert Ingraham is still very poorly.

Mrs. John Hazelton is also in very poor health.

Miss Bessie Whitehead has been visiting relatives in Fredericton for the past week.

Dr. and Mrs. Coy and son and Mrs. Wm. Boddy of Prince William, visited relatives here on Friday last.

Mrs Simeon Manuel and Mrs Harvey Coy spent last Thursday with Mrs James McGuire at Nackawick.

Mr and Mrs Alfred Christie of Scotch Settlement spent last Saturday and Sunday with relatives in this place.

Mrs Amaziah Keetch spent last Tuesday afternoon with Mrs Hazelton.

Mr and Mrs Harvey Coy returned home from Fredericton yesterday.

John Crookshank of Fredericton passed through this place on business a few days ago.

Alexander King has returned from the lumber woods, but is going back again in a few days to remain until after driving.

We understand that Keetch Bros., who are lumbering on the Tobique, will finish operations there by the 10th and will then start for home. Some of their men expect to remain until after driving.

NELSON CAMPBELL

SOLE LOCAL AGENTS FOR "The Slater Shoe"

THE LOCAL LEGISLATURE.

Substance of the Government's Cold Storage Bill.

The government bill introduced to aid in the erection of cold storage warehouses, empowers the Lieutenant Governor to guarantee the principal and interest of bonds or debentures of the New Brunswick Cold Storage Company, Ltd., provided the bonds on the St John plant shall not exceed $60,000 nor shall the guarantee exceed 75 per cent. of the actual cost of the buildings and plant of the company. The rate of interest on the bonds shall not exceed 3 per cent., and the bonds are to be payable in forty years. The bill authorizes the Provincial Secretary to endorse his guarantee on the bonds, and authorizes their payment out of revenues of the province. It calls for the acceptance of the lowest tenders for the erection of the plant, subject to the approval of the governor in council. The province is not to be called upon for the guarantee until the buildings are all up and in complete running order to the satisfaction of an inspector appointed by the government. The company is to keep the plant insured in the interest of the province, the company to pay the premiums. The net profits in each year are to be paid over to the province for interest, and as a sinking fund towards the redemption of the bonds. Provision is made for a semi-annual statement of the business of the company; also giving the governor in council power to fix the salaries of officials of the company and to approve of the rates of storage. The title deeds are to vest in the crown until the principal of the bonds is paid, the company operating under a lease at a nominal rental, and in the event of default of the payment by the company of the rental, or interest, or insurance, the government may after thirty days sell the property and apply the money so realized to the payment of the bonds. Any sums paid by the guarantee are recoverable from the company. The Provincial Secretary and Minister for Agriculture are to be ex-officio members of the board of directors of the company, with all the powers of any other members of the board. Under similar conditions the governor in council is empowered to guarantee the principal and interest of bonds of the company or any other incorporated company that will erect cold storage warehouses in one or more of five central points in the province where it may be thought desirable to have them located, to an amount equal of 75 per cent. of the actual cost of the warehouses and plant, but not to exceed $10,000 for any one of such warehouses.

To-day's Proceedings.

In the legislatare this afternoon Hon L J Tweedie introduced a bill relating to provincial revenues.

Mr. Hazen made his inquiries into the building of several bridges. Hon Mr LaBillois replied giving the names of the contractors, the amounts of contracts, the tenderers, the amounts of the different tenders, the inspectors, etc. The Hamilton Bridge Co., which was represented in the bridge investigation last session by Mr Roy had tendered, but their figures in each case was above several of their competitors.

CARD

To the Electors of the City of Fredericton.

LADIES AND GENTLEMEN—At the solicitation of a large number of the ratepayers of the City, I have decided to be a candidate for the office of Mayor for the ensuing year. Having had the honor to represent you as Alderman for Kings Ward for the past two years, I trust that my actions in that capacity will commend me to your further support.

Should I have the honor to be elected, it will be my endeavor in the future, as in the past, to devote my energies to the best welfare and advancement of the city.

Thanking you for the generous support given me in the past, and soliciting a continuance of the same,

I have the honor to be
Your obedient servant,
W. E. SMITH.

Fredericton, N. B., Feb. 18, 1901.—dtf

CARD

To the Electors of the City of Fredericton.

LADIES AND GENTLEMEN—In response to the urgent request of a number of citizens, I beg to announce my candidature for the Mayoralty at the coming elections. I shall, if elected, give to the consideration of all public questions the attention their importance demands, treating them solely on their merits, uninfluenced by any other interests than that of the public welfare. Though the office has never been in line with my aspirations, I have been led into the belief that as a medical man in the civic chair, I could be of service to the city at the present time. The insanitary condition of the city calls for immediate consideration and intelligent action, and it would be my aim to bring about a much needed reform without burdening our already overtaxed ratepayers.

The question of the introduction of a system of sewerage is to be determined by a plebiscite. Should the electors decide in its favor, it would be the duty of the incoming mayor and council to act with the greatest prudence in the financial as well as the sanitary arrangements, and I feel that my knowledge of the subject would enable me to conserve the interests of the public in this respect. If the plebiscite should be unfavorable, the greater would be the need for some one at the council board with an intimate knowledge of matters connected with the public health. Having grown up among you, you are familiar with my course of life, and you may rest assured that it will be my aim, if elected, to uphold the dignity and traditions of the mayoralty of Fredericton in its best days.

I have the honor to be,
Yours truly,
W. C. CROCKET.
